It comes with a complete index, footnotes and cross-references for a fuller understanding of every subject. The word catechism means "instruction" - this book will serve as the standard for all future catechisms. Using the tradition of explaining what the Church believes (the Creed), what she celebrates (the Sacraments), what she lives (the Commandments), and what she prays (the Lord's Prayer), the Catechism of the Catholic Church offers challenges for believers and answers for all those interested in learning about the mystery of the Catholic faith. This handbook is primarily for the use of persons in the business of importing, manufacturing, and dealing in firearms defined by the National Firearms Act (NFA) or persons intending to go into an NFA firearms business. It should also be helpful to collectors of NFA firearms and other persons having questions about the application of the NFA. This publication is not a law book. Rather, it is intended as a "user friendly" reference book enabling the user to quickly find answers to questions concerning the NFA. Nevertheless, it should also be useful to attorneys seeking basic information about the NFA and how the law has been interpreted by ATF. The book's Table of Contents will be helpful to the user in locating needed information. Although the principal focus of the handbook is the NFA, the book necessarily covers provisions of the Gun Control Act of 1968 and the Arms Export Control Act impacting NFA firearms businesses and collectors. The Internal Revenue Code (IRC) is the body of law that codifies all federal tax laws, including income, estate, gift, excise, alcohol, tobacco, and employment taxes. U.S. tax laws began to be codified in 1874, but there was no central, comprehensive source for them at that time. The IRC was originally compiled in 1939 and overhauled in 1954 and 1986. This code is the definitive source of all tax laws in the United States and has the force of law in and of itself. These laws constitute Title 26 of the U.S. Code (26 U.S.C.A. • 1 et seq. [1986]) and are implemented by the Internal Revenue Service (IRS) through its Treasury Regulations and Revenue Rulings. Congress made major statutory changes to Title 26 in 1939, 1954, and 1986. Because of the extensive revisions made in the Tax Reform Act of 1986, Title 26 is now known as the Internal Revenue Code of 1986 (Pub. L. No. 99-514, • 2, 100 Stat. 2095 [Oct. 22, 1986]). The Internal Revenue Code of 1986 ten-part book series contains all sections (1-9834). This particular book contains Part 2 of 10 (pages 401-800) of the IRC. (Release Point 115-117) January 12, 2018 THIS JUST IN The Bipartisan Budget Act, enacted on Feb. 9, renewed for tax year 2017 a wide range of individual and business tax benefits that had expired at the end of 2016. The IRS has now reprogrammed its processing systems to handle the three benefits most likely to be claimed on returns filed early in the tax season. As a result, taxpayers can now file returns claiming: \* Exclusion from gross income of discharge of qualified principal residence indebtedness (often, foreclosure-related debt forgiveness), claimed on Form 982, \* Mortgage insurance premiums treated as qualified residence interest, generally claimed by low- and middle-income filers on Schedule A, and \* Deduction for qualified tuition and related expenses claimed on Form 8917. This is Volume 2 of 12 of the current version of Title 26 including changes incorporated for the 2017 Tax Cuts and Jobs legislation that was signed by the President.
