**Under the Skin considers the motivation behind why people pierce, tattoo, cosmetically enhance, or otherwise modify their body, from a psychoanalytic perspective. It discusses how the therapist can understand and help individuals for whom the manipulation of the body is felt to be psychically necessary, regardless of whether the process of modification causes pain. In this book, psychoanalyst Alessandra Lemma draws on her work in the consulting room, as well as films, fiction, art and clinical research to suggest that the motivation for extensively modifying the surface of th. Tucked away in her tattoo studio in the port city of Halifax, Shaz draws meaning and symbolism onto the bodies of her clients. After the ransacking of her home, the brutal attack on her friend and the sudden appearance of her white father, Shaz is compelled to explore the racial divides in her life and in the city around her. A chance encounter with Rashid, a parkour-performing refugee from Sri Lanka, provides a stabilizing counterpoint to the tumultuous relationships in her life. Ultimately, Shaz discovers the complexities of truth, the meaning of loss and how we are all coloured by our experiences. In a narrative that explores racism, family dysfunction and the experiences of refugees, Under Her Skin paints the canvas of our landscape, making us aware of who we are. *have never seen a game I hate so much in which all the children involved are so happy. So begins Under Deadman's Skin, a deceptively simple-and compellingly readable-teachers' tale. Jane Katch, in the tradition of Vivian Paley and Jonathan Kozol, uses her student's own vocabulary and storytelling to set the scene: a class of five-and six-year-olds obsessed with what is to their teacher hatefully violent fantasy play. Katch asks, 'Can I make a place in school for understanding these fantasies, instead of shutting them out?' Over the course of the year she holds group discussions to determine what kind of play creates or calms turmoil; she illustrates (or rather the children illustrate) the phenomenon of very young children needing to make sense of exceptionally violent imagery; and she consults with older grade-school boys who remember what it was like to be obsessed by violence and tell Katch what she can do to help. Katch's classroom journey-one that leads her to rules and limits that keep children secure-is an enabling blueprint for any teacher or parent disturbed by violent children's play. A brilliantly told and beautifully written novel that defies categorization, Under the Skin introduces Isserley, a woman obsessed with picking up male hitchhikers— so long as they're well-muscled and alone. But why? As the story unfolds and the reason is made explicit, the reader is drawn inexorably into a completely unexpected and increasingly terrifying world. In the year 2368, humanity struggles to recuperate from a technocaust that has left a generation of orphans in its wake. Strict government regulations convince people that technology is dangerous; confusion and fear rule the earth. Blay Raytee is a government work-camp orphan. Her future seems as bleak as that of the world around her. But when she is chosen for a special mission by a guardian of the environment named Marrella, Blay begins to discover that all may not be as it seems. The secrets she uncovers could hold the key both to the healing of the world and to her own past. What she learns may just empower her to join those who struggle to restore democracy*

**-- and to discover at last who she really is. Master storyteller Janet McNaughton vividly imagines an all-too-believable future where one child's brave search for the truth could restore a broken world. 'Spotswood understands that [...] spending time with unforgettable characters is paramount.' - New York Times 'A loving, intricately plotted tribute to the great days of American noir.' - Daily Mail New York, 1946: The last time Will Parker let a case get personal, she walked away with a broken face, a bruised ego, and the solemn promise never again to let her heart get in the way of her job. But she called Hart and Halloway's Travelling Circus and Sideshow home for five years, and Ruby Donner, the circus's tattooed ingenue, was her friend. To make matters worse the prime suspect is Valentin Kalishenko, the man who taught Will everything she knows about putting a knife where it needs to go. To uncover the real killer and keep Kalishenko from a date with the electric chair, Will and Ms. Pentecost join the circus in sleepy Stoppard, Virginia, where the locals like their cocktails mild, the past buried, and big-city detectives not at all. The two swiftly find themselves lost in a funhouse of lies as Will begins to realize that her former circus compatriots aren't playing it straight, and that her murdered friend might have been hiding a lot of secrets beneath all that ink. Dodging fistfights, firebombs, and flying lead, Will puts a lot more than her heart on the line in the search of the truth. Can she find it before someone stops her ticker for good? Praise for Stephen Spotswood: 'Razor-sharp, tons of flair. A really good noir novel.' Tana French 'Spotswood's stellar debut puts a modern spin on classic hard-boiled fiction. . . . The deep and sensitive characterization of the two protagonists, coupled with rich description and tonally spot-on humour, make this a novel to remember. Spotswood is definitely a writer to watch.' On bookshelves around the world, surrounded by ordinary books bound in paper and leather, rest other volumes of a distinctly strange and grisly sort: those bound in human skin. Would you know one if you held it in your hand? Dozens of such books live on in the world's most famous libraries and museums.***

***Dark Archives* exhumes their origins and brings to life the doctors, murderers, and indigents whose lives are sewn together in this disquieting collection. ***From an award-winning writer at the New York Times Magazine and a contributor to the 1619 Project comes a landmark book that tells the full story of racial health disparities in America, revealing the toll racism takes on individuals and the health of our nation. In 2018, Linda Villarosa's New York Times Magazine article on maternal and infant mortality among black mothers and babies in America caused an awakening. Hundreds of studies had previously established a link between racial discrimination and the health of Black Americans, with little progress toward solutions. But Villarosa's article exposing that a Black woman with a college education is as likely to die or nearly die in childbirth as a white woman with an eighth grade education made racial disparities in health care impossible to ignore. Now, in Under the Skin, Linda Villarosa lays bare the forces in the American health-care system and in American society that cause Black people to "live sicker and die quicker" compared to their white counterparts. Today's medical texts and instruments still carry fallacious slavery-era assumptions that Black bodies are fundamentally different from white bodies. Study after study of medical settings show worse treatment and outcomes for Black patients. Black people live in dirtier, more polluted communities***
