VP Menon Apr 28 2021 With his initial plans for an independent India in tatters, the desperate viceroy, Lord Mountbatten, turned to his seniormost Indian civil servant, Vappala Pongunni Menon—or VP—giving him a single night to devise an alternative, coherent and workable plan for independence. Menon met his stringent deadline, presenting the Menon Plan, which would change the map of the world forever. Menon was unarguably the architect of the modern Indian state. Yet startlingly little is known about this bureaucrat, patriot and visionary. In this definitive biography, Menon's great-granddaughter, Narayani Basu, rectifies this travesty. She takes us through the highs and lows of his career, from his determination to give women the right to vote; to his strategy, at once ruthless and subtle, to get the princely states to accede to India; to his decision to join forces with the Swatantra Party; to his final relegation to relative obscurity. Equally, the book candidly explores the man behind the public figure—his unconventional personal life and his private conflicts, which made him channel his energy into public service. Drawing from documents—scattered, unread and unresearched until now—and with unprecedented access to Menon's papers and his taped off-the-record and explosively frank interviews—this remarkable biography of VP Menon not only covers the life and times of a man unjustly consigned to the footnotes of history but also changes our perception of how India, as we know it, came into being.

A History of India Apr 16 2020 A history of India upto 1300 AD introducing the beginnings of India's cultural dynamics

Who Is Bharat Mata? On History, Culture and the Idea of India Mar 28 2021 An unprecedented and timely collection of writings by and on Jawaharlal Nehru--the man who shaped newly independent India; and the icon whose legacy is the subject of intense and often angry debate today. 'Who is this Bharat Mata, whose victory you wish?' asked Jawaharlal Nehru--a leading light of the Indian freedom movement who would become the country's first prime minister--at a public gathering in 1936. And then he explained: the mountains and rivers, forests and fields were of course dear to everyone, but what counted ultimately were 'the people of India...spread out all over this vast land. Bharat Mata, Mother India, [is] essentially these millions of people, and victory to her [is] victory to these people.' This collection of writings and speeches by and on Nehru shows us the mind--the ideology, born of experience, observation and deep study--behind this democratic and inclusive idea of India. It is a book of particular relevance at a time when 'nationalism' and the slogan 'Bharat Mata ki Jai' are being used to construct a militant and purely emotional idea of India that excludes millions of residents and citizens. 'Who Is Bharat Mata?' contains selections from Nehru's classic books--An Autobiography, Glimpses of World History and The Discovery of India; his speeches, essays and letters from the pre- and post-Independence years; and some of his most revealing interviews. The concluding section of the book comprises reminiscences and assessments of Nehru by his contemporaries--among them, Mahatma Gandhi, Bhagat Singh, Sardar Patel, Maulana Azad, Aruna Asaf Ali, Sheikh Abdullah, Ramdhari Singh Dinkar, Ali Sardar Jafri, Martin Luther King Jr and Atal Bihar Vajpayee. In this carefully put-together anthology--which also carries an illuminating introduction--Nehru emerges as a remarkable man of ideas and action who had an instinctive understanding of India's civilizational spirit, as also a clear commitment to the scientific temper; and as a leader who, despite the compulsions of politics, remained a true democrat. His legacy continues to be extremely relevant--for, in the words of the editor, an understanding of 'Nehru's political and intellectual journey is a pre-condition for India's survival as a democratic polity and as a humane, compassionate society'.

Makers of Modern India Jul 12 2022 Modern India is the world's largest democracy, a sprawling, polyglot nation containing one-sixth of all humankind. The existence of such a complex and distinctive democratic regime qualifies as one of the world's bona fide political miracles. Furthermore, India's leading political thinkers have often served as its most influential political actors--think of Gandhi, whose collected works run to more than ninety volumes, or Ambedkar, or Nehru, who recorded their most eloquent theoretical reflections at the same time as they strove to set the delicate machinery of Indian democracy on a coherent and just path. Out of the speeches and writings of these thinker-activists, Ramachandra Guha has built the first major anthology of Indian social and political thought. Makers of Modern India collects the work of nineteen of India's foremost generators of political sentiment, from those whose names command instant global recognition to pioneering subaltern and feminist thinkers whose works have until now remained obscure and inaccessible. Ranging across manifold languages and cultures, and addressing every crucial theme of modern Indian history--race, religion, language, caste, gender, colonialism, nationalism, economic development, violence, and nonviolence--Makers of Modern India provides an invaluable roadmap to Indian political debate. An extensive introduction, biographical sketches of each figure, and guides to further reading make this work a rich resource for anyone interested in India and the ways its leading political minds have grappled with the problems that have increasingly come to define the modern world.

Letters for a Nation Jan 06 2022 In October 1947, two months after he became independent India's first prime minister, Jawaharlal Nehru wrote the first of his fortnightly letters to the heads of the country's provincial governments—a tradition he kept until a few months before his death. This carefully selected collection covers a range of themes and subjects, including citizenship, war and peace, law and order, governance and corruption, and India's place in the world. The letters also cover momentous world events and the many crises the country faced during the first sixteen years after Independence. Visionary, wise and reflective, these letters are of great contemporary relevance for the guidance they provide for our current problems and predicaments.

The British Discovery of Hinduism in the Eighteenth Century Oct 15 2022 One of the incidental consequences of the success of British

arms in eighteenth-century India was the appearance of a number of publications which reflect the intense curiosity of contemporary Europeans about strange peoples, their manners and religions. Of the three principal religions of India, Hinduism attracted the most attention. European contact with Islam was several centuries old, while few travellers could identify Buddhism with any certainty. This book reprints some of the most significant English contributions to the early European understanding of Hinduism.

The Argumentative Indian Dec 25 2020 A Nobel Laureate offers a dazzling new book about his native country India is a country with many distinct traditions, widely divergent customs, vastly different convictions, and a veritable feast of viewpoints. In *The Argumentative Indian*, Amartya Sen draws on a lifetime study of his country's history and culture to suggest the ways we must understand India today in the light of its rich, long argumentative tradition. The millenia-old texts and interpretations of Hindu, Buddhist, Jain, Muslim, agnostic, and atheistic Indian thought demonstrate, Sen reminds us, ancient and well-respected rules for conducting debates and disputations, and for appreciating not only the richness of India's diversity but its need for toleration. Though Westerners have often perceived India as a place of endless spirituality and unreasoning mysticism, he underlines its long tradition of skepticism and reasoning, not to mention its secular contributions to mathematics, astronomy, linguistics, medicine, and political economy. Sen discusses many aspects of India's rich intellectual and political heritage, including philosophies of governance from Kautilya's and Ashoka's in the fourth and third centuries BCE to Akbar's in the 1590s; the history and continuing relevance of India's relations with China more than a millennium ago; its old and well-organized calendars; the films of Satyajit Ray and the debates between Gandhi and the visionary poet Tagore about India's past, present, and future. The success of India's democracy and defense of its secular politics depend, Sen argues, on understanding and using this rich argumentative tradition. It is also essential to removing the inequalities (whether of caste, gender, class, or community) that mar Indian life, to stabilizing the now precarious conditions of a nuclear-armed subcontinent, and to correcting what Sen calls the politics of deprivation. His invaluable book concludes with his meditations on pluralism, on dialogue and dialectics in the pursuit of social justice, and on the nature of the Indian identity.

Nehru Apr 21 2023 Shashi Tharoor delivers an incisive biography of the great secularist who—alongside his spiritual father, Mahatma Gandhi—led the movement for India's independence from British rule and ushered his newly independent country into the modern world. The man who would one day help topple British rule and become India's first prime minister started out as a surprisingly unremarkable student. Born into a wealthy, politically influential Indian family in the waning years of the Raj, Jawaharlal Nehru was raised on Western secularism

and the humanist ideas of the Enlightenment. Once he met Gandhi in 1916, Nehru threw himself into the nonviolent struggle for India's independence, a struggle that wasn't won until 1947. India had found a perfect political complement to her more spiritual advocate, but neither Nehru nor Gandhi could prevent the horrific price for independence: partition. This fascinating biography casts an unflinching eye on Nehru's heroic efforts for, and stewardship of, independent India and gives us a careful appraisal of his legacy to the world.
