### **Computational Science and Its Applications - ICCSA 2021**

Jun 25 2021 The ten-volume set LNCS 12949 - 12958 constitutes the proceedings of the 21st International Conference on Computational Science and Its Applications, ICCSA 2021, which was held in Cagliari, Italy, during September 13 - 16, 2021. The event was organized in a hybrid mode due to the Covid-19 pandemic. The 466 full and 18 short papers presented in these books were carefully reviewed and selected from 1588 submissions. Part X of the set includes the proceedings of the following workshops: International Workshop on Smart and Sustainable Island Communities (SSIC 2021); International Workshop on Science, Technologies and Policies to Innovate Spatial Planning (STP4P 2021); International Workshop on Sustainable Urban Energy Systems (SUREN-SYS 2021); International Workshop on Ports of the future - smartness and sustainability (SmartPorts 2021); International Workshop on Smart Tourism (SmartTourism 2021); International Workshop on Space Syntax for Cities in Theory and Practice (Syntax\_City 2021); International Workshop on Theoretical and Computational Chemistry and its Applications (TCCMA 2021); International Workshop on Urban Form Studies (UForm 2021); International Workshop on Urban Space Accessibility and Safety (USAS2021); International Workshop on Virtual and Augmented Reality and Applications (VRA 2021); International Workshop on Advanced and Computational Methods for Earth Science applications (WACM4ES 2021).

*New Metropolitan Perspectives* Sep 28 2021 This book presents

the outcomes of the symposium “NEW METROPOLITAN PERSPECTIVES,” held at Mediterranea University, Reggio Calabria, Italy on May 26–28, 2020. Addressing the challenge of Knowledge Dynamics and Innovation-driven Policies Towards Urban and Regional Transition, the book presents a multi-disciplinary debate on the new frontiers of strategic and spatial planning, economic programs and decision support tools in connection with urban–rural area networks and metropolitan centers. The respective papers focus on six major tracks: Innovation dynamics, smart cities and ICT; Urban regeneration, community-led practices and PPP; Local development, inland and urban areas in territorial cohesion strategies; Mobility, accessibility and infrastructures; Heritage, landscape and identity; and Risk management, environment and energy. The book also includes a Special Section on Rregion United Nations 2020-2030. Given its scope, the book will benefit all researchers, practitioners and policymakers interested in issues concerning metropolitan and marginal areas.

**OECD Public Governance Reviews Citizens’ Voice in Lebanon The Role of Public Communication and Media for a More Open Government** Jun 13 2020

Public communication is an essential element of government policy and crucial for transparency, integrity, accountability and stakeholder participation. This OECD Review analyses public communication in Lebanon, by reviewing the relevant governance structures and procedures across the public administration, along with the prevailing use of core competencies for this function and their application to support transparency and stakeholder participation in public life.

*Implant Restorations* Sep 09 2022 The fourth edition of *Implant Restorations: A Step-by-Step Guide* provides a wealth of updated and expanded coverage on detailed procedures for restoring dental implants. Focusing on the most common treatment

scenarios, it offers concise literature reviews for each chapter and easy-to-follow descriptions of the techniques, along with high-quality clinical photographs demonstrating each step.

Comprehensive throughout, this practical guide begins with introductory information on incorporating implant restorative dentistry in clinical practice. It covers diagnosis and treatment planning and digital dentistry, and addresses advances in cone beam computerized tomography (CBCT), treatment planning software, computer generated surgical guides, rapid prototype printing and impression-less implant restorative treatments, intra-oral scanning, laser sintering, and printing/milling polymer materials. Record-keeping, patient compliance, hygiene regimes, and follow-up are also covered. Provides an accessible step-by-step guide to commonly encountered treatment scenarios, describing procedures and techniques in an easy-to-follow, highly illustrated format Offers new chapters on diagnosis and treatment planning and digital dentistry Covers advances in cone beam computerized tomography (CBCT), computer generated surgical guides, intra-oral scanning, laser sintering, and more An excellent and accessible guide on a burgeoning subject in modern dental practice by one of its most experienced clinicians, Implant Restorations: A Step-by-Step Guide, Fourth Edition will appeal to prosthodontists, general dentists, implant surgeons, dental students, dental assistants, hygienists, and dental laboratory technicians.

De Minimis Aid Under EU Law Aug 20 2023 This book deals with de minimis aid and demonstrates that it is both a sui generis legal concept in the context of State aid and subject to a complex regime. On the one hand, it is a sui generis concept in that (i) it seeks to strike a balance between simplifying the grant process and not distorting competition in the internal market, while being a tool that Member States are able to apply easily and (ii) it is subject to ex ante control by Member States. On the other hand, it is complex in that (i) it requires determining the sectors of

economic activity it applies to; (ii) a few notions specific to the regime are not easy to understand, such as the notion of "single undertaking"; and (iii) it requires combining four de minimis regimes (one general and three special), which in turn requires reconciling those regimes with each other and with other aid, not least because of the cumulation rules. Lastly, these particularities were also reflected in the recovery regime for unlawful de minimis aid. Aimed at lawyers, legal consultants and those working in undertakings as well as students, the book provides a comprehensive overview of the current de minimis regimes and is clear and complete, while also proposing a fresh view on the area of EU State aid law. Ricardo Pedro is Researcher at the Centro de Investigação de Direito Público (CIDP), Universidade de Lisboa, Portugal.

*A Guide to the Project Management Body of Knowledge (PMBOK® Guide) – Seventh Edition and The Standard for Project Management (ENGLISH)* Aug 16 2020 PMBOK® Guide is the go-to resource for project management practitioners. The project management profession has significantly evolved due to emerging technology, new approaches and rapid market changes. Reflecting this evolution, The Standard for Project Management enumerates 12 principles of project management and the PMBOK® Guide – Seventh Edition is structured around eight project performance domains. This edition is designed to address practitioners' current and future needs and to help them be more proactive, innovative and nimble in enabling desired project outcomes. This edition of the PMBOK® Guide: Reflects the full range of development approaches (predictive, adaptive, hybrid, etc.); Provides an entire section devoted to tailoring the development approach and processes; Includes an expanded list of models, methods, and artifacts; Focuses on not just delivering project outputs but also enabling outcomes; and Integrates with PMIStandards+™ for information and standards application content based on project type, development approach, and

industry sector.

**The Complete Bordeaux Vintage Guide** Oct 18 2020 The Complete Bordeaux Vintage Guide 1870–2020 breaks new ground in wine publishing, being the first volume to cover in depth 150 years of vintages and totally unique in its cultural scope. For wine lovers and collectors this is the indispensable guide, not only for finding out what happened in a particular season, but providing wider historical and social context. Every single year is accompanied by one event or milestone, one song or musical composition and one film that encapsulates the spirit of the time as well as the world into which the vintage was born. Wine writer Neal Martin offers a personal, witty take on the traditional wine handbook, with notes on not just the growing seasons, harvests and wines themselves, but cultural phenomena ranging from Sherlock Holmes through Casablanca to Beyoncé. Innovative, inspired and addictively dip-in-able, The Complete Bordeaux Vintage Guide is an essential addition to your bookshelf as well as your cellar.

[Philip's 2020 Stargazing Month-by-Month Guide to the Night Sky Britain & Ireland](#) Dec 12 2022 "I WILL CONTINUE TO ENJOY STARGAZING AS THE MONTHS GO BY" Helen Sharman, astronaut "VERY USEFUL INDEED" Chris Lintott, Sky at Night presenter "IF YOU BUY JUST ONE GUIDE... YOU WON'T DO BETTER THAN THIS" BBC Sky at Night Magazine Philip's Month-by-Month Stargazing 2020 is the new, bestselling and most-up-to-date guide for Stargazers in Britain and Ireland. The new 2020 edition has been completely revised to make it even more essential for exploring the night skies - making the night sky accessible to beginners and experts alike. · 12 month-by-month Night Sky Maps for year-round stargazing · Monthly Calendar of moon phases and special events in 2020 · Planet Watch: the best viewing days for planets in 2020 · Dark Sky Map of the UK - find the darkest skies · How to photograph the night skies - with cameras and smartphones · The major astronomical events of

2020 · Month-by-month Top 20 Sky Sights 2020 · Plus new, illustrated Jargon Buster Plus: · Expert advice on what to see each month from Heather Couper and Nigel Henbest, Philip's internationally renowned authors. · The Solar System 2020 explains the movement of the planets, with particular attention paid to their positions in 2020. Solar and lunar eclipses, meteor showers and comets are also described. · Expert Robin Scagell's Equipment Review looks at the pros and cons of Stargazing with reflector or refractor telescopes. · And all superbly illustrated with photographs taken by the best amateur photographers illustrating the night skies. About the Authors Philip's Stargazing Month by Month 2020 is written by two of the UK's best-known and respected astronomers. Prof. Heather Couper and Prof. Nigel Henbest are qualified astrophysicists, dedicated to sharing their love of the cosmos to everyone. They work in TV and radio broadcasting, international presentations, and have written over fifty popular books between them.

#### Higher Education Learning Methodologies and Technologies

Online Jul 07 2022 This book constitutes the thoroughly refereed post-conference proceedings of the Third International Workshop on Higher Education Learning Methodologies and Technologies Online, HELMeTO 2021, held in Pisa, Italy, in September 2021. Due to the COVID-19 pandemic the conference was held online. The 26 revised full papers and 3 short papers presented were carefully reviewed and selected from a total of 65 submissions. The papers present recent research on challenges of implementing emerging technology solution for online, online learning pedagogical frameworks, facing COVID19 emergency in higher education teaching and learning, online learning technologies in practice, online learning strategies and resources, etc.

The Manager's Guide to Statistics, 2020 Edition Apr 04 2022 This business statistics textbook, used in the graduate core curriculum at Wharton, Harvard, and other business schools, is for an MBA

or undergraduate introductory statistics course and covers data visualization, probability, hypothesis testing, correlation, multiple regression.

The Astronomical Almanac (2020 - 2024) Jul 27 2021 Written by a former freelance writer for Astronomy magazine, the guide provides almost daily data and information on the Moon and planets and lists details of hundreds of astronomical events. Included in the guide are: \* Graphical depictions of the Moon and planets throughout the month \* Data tables for the Moon and planets including position, magnitude, apparent diameter and elongation from the Sun. \* Conjunctions between the Moon, planets and bright stars (including angular separations for planetary conjunctions.) \* Lunar and Solar eclipses \* Annual summaries of when to observe the planets \* Annual summaries of notable close planetary conjunctions \* Peak dates for the major meteor showers with moon phase \* Inferior and superior conjunctions for Mercury and Venus \* Greatest eastern and western elongations for Mercury and Venus \* Oppositions and solar conjunctions for the outer planets \* Dates of the equinoxes and solstices PLUS \* Twenty-four star charts with accompanying lists of suggested deep sky objects Whether you're an expert astronomer or a casual star gazer, the almanac is the essential guide for observers everywhere. Praise for previous editions: "For a guy like me, that is always out observing and shooting the stars with my telescope, this book is VERY informative. Lots of great info. I will definitely refer to it before I go out with my scope. Thanks." - Peter Guerra, September 21st 2014 (Amazon US) "Love it! In the last few years my interest in astronomy has grown tremendously. This book will definitely come in handy." - Michael Dylo, October 26th 2014 (Amazon US) "I can't imagine how much work it took to bring together all the information in this book! With that said, it will be my constant observing companion observing for the next few years!" - WJohnson, September 20th 2014 (Amazon US) "This is a superb book, well laid out and easy

to follow even if you are a complete novice or keen astronomer." - Mr Fletcher, October 26th 2014 (Amazon UK) "I found this book very user friendly and instinctive, it is exactly what I have been looking for." - K. J. Simmill, November 3rd 2014 (Amazon UK) "Very concise guide to the sky over the next few years, written with more advanced amateurs in mind, but could be used by anyone with more than a passing interest." - Amazon Customer, November 11th 2014 (Amazon UK)

**SAT Math Prep 2019 - 2020** Jan 13 2023 The only prep book you will ever need to succeed on the SAT Math Test! Published By: Effortless Math Education [www.EffortlessMath.com](http://www.EffortlessMath.com)  
*Cost-Inclusive Evaluation* Nov 18 2020 Is a given treatment, intervention, or program worth it? How can a program do more or better with less? Evaluating the costs of a program can be the missing link between a superficial evaluation and one that will get changes made and funding delivered. In accessible language and without complex formulas, this book provides a roadmap for measuring program costs and outcomes and analyzing cost-effectiveness, cost-benefit, and cost-utility. Also explained are simplified ways to use economic appraisal methodologies--such as net present valuation, internal rate of return computation, and payback period determination--in a cost-inclusive evaluation. Instructive examples span a range of human services, education, and health care contexts. Other evaluator- and student-friendly features include helpful graphics, procedure steps, end-of-chapter discussion questions, a list of acronyms, and a glossary of key terms.

Governing Sustainability in the EU Aug 08 2022 Governing Sustainability in the EU examines the recent novelties in the EU agenda for sustainable development, illustrating how the process of policy change has occurred at different levels, comprising general priorities, specific objectives and policy instruments. The book focuses on the evolution of the principle of policy integration and analyses its implementation by specific policy instruments across three policy areas: energy efficiency (the Covenant of Mayors), innovation (the Eco-Innovation Programme) and regional development (ERDF regional programmes regarding sustainable urban development). It specifically examines two domestic contexts (Italy and the UK) with the aim of understanding how the goals and means envisaged by the EU have been translated into concrete policy practices on the ground, and which factors have influenced the creation of new policy and governance practices necessary for the achievement of sustainable development objectives. This text will be of key

interest to scholars, students and practitioners of sustainable development, European Union Politics, and Environmental Politics.

**Understanding and Reducing Landslide Disaster Risk** Jan 01 2022 This book is a part of ICL new book series "ICL Contribution to Landslide Disaster Risk Reduction" founded in 2019. ### **A Spiritual Traveler's Guide to Sacred Mount Shasta** Jun 18

2023 Susan Isabelle brings you an astounding Prophecy and reveals a documented series of events starting in 2014 lasting through 2020! She weaves global prophecy and beliefs to bring you the incredible messages in the heavens, the earth and within, while explaining the deeper, true spiritual side of Mt Shasta! She gives locations of sacred spiritual sites at Mt Shasta, of local Native beliefs, how to attend a Sweat lodge, her stories of meeting Lemurians, their songs, Angels, UFO's, and Bigfoot! Susan's spiritual quest to Mt Shasta in 1999 changed her life when she met the Lemurians who asked her to go on 36 missions to assist humanity! She became Keeper of the Maya 13th Crystal Skull in 2000 on the third assignment. A Native Elder gave her and her partner a task to do so the skull could be used to assist humanity as fully intended. They were successful. This story is told for the first time. She offered the 13th Skull, the Heart of the Child, back to the Creator in fulfillment of the Maya prophecy to start the New Dream for humanity. Learn how you may become the Spiritual Traveler and what that really means! Of Iroquois lineage, Susan Isabelle has been living in the Mt Shasta area for ten years. She teaches at her Shambhala Center in Mt Shasta and across the entire earth! Susan shares her vast spiritual insights and gives you an opportunity to visit the Lemurian sites that she brings her students to. She gives you information as to how to prepare yourself, and lots of helpful information to enhance your experience while at Mt Shasta. She writes to you of her extensive adventures while she has lived in Mount Shasta over the past ten years. She speaks to you of Kuan Yin's Temple that she has located, and of local Native American beliefs. Yes, UFO's, and Bigfoot are a part of her experiences too! She has included a special meditation to assist the reader to reconnect back to the Divine Template; to restore the true essence of their own being,

[business.itu.edu](http://business.itu.edu)

and of the the first things to do at Shasta. Susan gives solid advice through personal experiences and example. She also brings you a glimpse of prophecy through 2020 and how the true Spiritual Traveler has come to assist humanity. The True Spiritual Seeker will not be disappointed! The stories are real page turners! She has written this book to help the Traveler to attain deep Spiritual knowledge, to understand the processes, and to find what their soul is truly seeking while at Mount Shasta.

Joint Public Procurement and Innovation Jun 06 2022 Innovation in public procurement is essential for sustainable and inclusive growth in an increasingly globalized economy. To achieve that potential, both the promises and the perils of innovation must be investigated, including the risks and opportunities of joint procurement across borders in the European Union and the United States. This in-depth research investigates innovation in public procurement from three different perspectives. First, leading academics and practitioners assess the purchase of innovation, with a particular focus on urban public contracting in smart cities involving meta-infrastructures, public-private partnership arrangements and smart contracts. A second line of inquiry looks for ways to encourage innovative suppliers. Here,

[business.itu.edu](http://business.itu.edu)

the collected authors draw on emerging lessons from the US and Europe, to explore both the costs and the benefits of spurring innovation through procurement. A third perspective looks to various innovations in the procurement process itself, with a focus on the effects of joint and cross-border procurement in the EU and US landscapes. The chapters review new technologies and platforms, the increasingly automated means of selecting suppliers, and the related efficiencies that “big data” can bring to public procurement. Expanding on research in the editors’ prior volume, *Integrity and Efficiency in Sustainable Public Contracts: Balancing Corruption Concerns in Public Procurement Internationally* (Bruylant 2014), this volume builds on a series of academic conferences and exchanges to address these issues from sophisticated academic, institutional and practical perspectives, and to point the way to future research on the contractual models that are emerging from new procurement technologies.

*City Diplomacy* Feb 19 2021 This edited volume provides an inclusive explanation of what, why, and how cities interact with global counterparts as well as with nation states, non-governmental organizations, and foreign publics. The chapters present theoretical and analytical approaches to the study of city diplomacy as well as case studies to capture the nuances of the practice. By bringing together a diverse group of authors in terms of their geographic location, academic and practitioner backgrounds, the volume speaks to multiple disciplines, including diplomacy, political science, communication, sociology, marketing and tourism.

[Emergency Response Guidebook](#) Nov 11 2022 Does the identification number 60 indicate a toxic substance or a flammable solid, in the molten state at an elevated temperature? Does the identification number 1035 indicate ethane or butane? What is the difference between natural gas transmission pipelines and natural gas distribution pipelines? If you came upon an

overturned truck on the highway that was leaking, would you be able to identify if it was hazardous and know what steps to take? Questions like these and more are answered in the Emergency Response Guidebook. Learn how to identify symbols for and vehicles carrying toxic, flammable, explosive, radioactive, or otherwise harmful substances and how to respond once an incident involving those substances has been identified. Always be prepared in situations that are unfamiliar and dangerous and know how to rectify them. Keeping this guide around at all times will ensure that, if you were to come upon a transportation situation involving hazardous substances or dangerous goods, you will be able to help keep others and yourself out of danger. With color-coded pages for quick and easy reference, this is the official manual used by first responders in the United States and Canada for transportation incidents involving dangerous goods or hazardous materials.

### **Developments in Information & Knowledge Management for Business Applications**

Mar 03 2022 This book discusses incentives for information management, usage of information for existing practices to become more efficient, the acceleration of executive learning, and an evaluation of the information management impact on an organization. In today's COVID-influenced volatile world, companies face a variety of challenges. And the most crucial of them are high levels of uncertainty and risk. Therefore, companies are constantly under pressure to provide sustainable solutions. Accordingly, previously gathered knowledge and information can be extremely helpful for this purpose. Hence, this fourth book of our subseries continues to accentuate on different approaches, which point to the importance of continuous progress in structural management for sustainable growth. It highlights the permanent gain and usage of information. We would be pleased if the book can stimulate further research on this subject matter.

**A Scrum Book** Jul 19 2023 Building a successful product usually involves teams of people, and many choose the Scrum approach to aid in creating products that deliver the highest possible value. Implementing Scrum gives teams a collection of powerful ideas they can assemble to fit their needs and meet their goals. The ninety-four patterns contained within are elaborated nuggets of insight into Scrum's building blocks, how they work, and how

to use them. They offer novices a roadmap for starting from scratch, yet they help intermediate practitioners fine-tune or fortify their Scrum implementations. Experienced practitioners can use the patterns and supporting explanations to get a better understanding of how the parts of Scrum complement each other to solve common problems in product development. The patterns are written in the well-known Alexandrian form, whose roots in architecture and design have enjoyed broad application in the software world. The form organizes each pattern so you can navigate directly to organizational design tradeoffs or jump to the solution or rationale that makes the solution work. The patterns flow together naturally through the context sections at their beginning and end. Learn everything you need to know to master and implement Scrum one step at a time—the agile way.

**GMAT Official Guide 2020** Dec 20 2020 Are you still unprepared for the GMAT? Catch up with the Official Guide. GMAT Official Guide 2021 is the only study guide written by the Graduate Management Admission Council, the makers of the GMAT exam. Get a competitive edge by studying the guide's 950+ questions. **Financial Instruments in ESIF Programmes 2014-2020** May 17 2023 This short reference guide is designed to provide an

overview of the main elements of the 2014- 2020 legislation as pertains to financial instruments. Further to feedback from stakeholders it will be supplemented with more detailed specific guidance as relevant, including in complementarity with fi-compass, the unique platform for advisory services on financial instruments under the ESIF.

Unity 2020 By Example May 05 2022 Learn Unity game development with C# through a series of practical projects ranging from building a simple 2D game to adding AR/VR experiences and machine learning capabilities in a simple yet effective way Key FeaturesGain a high-level overview of the Unity game engine while building your own games portfolioDiscover best practices for implementing game animation, game physics, shaders, and effectsCreate fully featured apps, including Space shooter and a 2D adventure game, and develop AR/VR experiences and Game AI agentsBook Description The Unity game engine, used by millions of developers around the world, is popular thanks to its features that enable you to create games and 3D apps for desktop and mobile platforms in no time. With Unity 2020, this state-of-the-art game engine introduces enhancements in Unity tooling, editor, and workflow, among many other additions. The third edition of this Unity book is updated to the new features in Unity 2020 and modern game development practices. Once you've quickly got to grips with the fundamentals of Unity game development, you'll create a collection, a twin-stick shooter, and a 2D adventure game. You'll then explore advanced topics such as machine learning, virtual reality, and augmented reality by building complete projects using the latest game tool kit. As you implement concepts in practice, this book will ensure that you come away with a clear understanding of Unity game development. By the end of the book, you'll have a firm foundation in Unity development using C#, which can be applied to other engines and programming languages. You'll also be able to create several real-world projects

to add to your professional game development portfolio. What you will learn

- Learn the fundamentals of game development, including GameObjects, components, and scenes
- Develop a variety of games in C# and explore the brand new sprite shaping tool for Unity 3D and 2D games
- Handle player controls and input functionality for your Unity games
- Implement AI techniques such as pathfinding, finite state machines, and machine learning using Unity ML-Agents
- Create virtual and augmented reality games using UnityVR and AR Foundation

Explore the cutting-edge features of Unity 2020 and how they can be used to improve your games

Who this book is for

If you are a game developer or programmer new to Unity and want to get up and running with the game engine in a hands-on way, this book is for you. Unity developers looking to work on practical projects to explore new features in Unity 2020 will find this book useful. A basic understanding of C# programming is required.

**How to Start a Farm In 2020** Apr 23 2021 How to start a farm in 2020
