BPP Learning Media's CISI Masters in Wealth Management are exam focused to allow those working with high net worth clients to gain

academic recognition for their competence and keep up-to-date with changes and new practices in the industry. The exam books have been carefully written using student friendly language and a layout you will find easy to understand. Each topic has been broke down into EXAM NOTES which are more concise than general psychology text books but more comprehensive than standard revision guides. These books have been specially developed and written by experienced teachers and examiners to help students achieve the best possible grade in their psychology exam. ü Reduce frustration - All exam notes are presented in an easy way for you to learn ü Prevent nail biting - No more "I don't get this!" Key theories and studies are written in an easy peasy friendly way. ü Prevent Hair loss - Don't pull your hair out over the evaluation part. We have written it all for you! ü Reduce panic attacks - We have given you lots of exam questions at the end of the exam notes to practise (to prevent shock in the real exam if you haven't seen any before!). ü Prevent confusion - Use the revision checklist as you study to tell you what and how much you need to know. Computer Literacy for IC3 was written to align with a certification called "Internet and Computing Core Certification (IC3)". This certification is for users who want to demonstrate critical computer and Internet skills valued in today's academic and professional environments. The Computer Literacy for IC3 text is written to meet the certification standards and provide readers with a broad understanding of the key components of computer literacy in order to prepare for the exam. This certification has 3 units: * Unit 1: Computing Fundamentals (computer concepts) * Unit 2: Using Productivity Software * Unit 3: Living Online (the Internet) Each of these units is available as a separate Computer Literacy for IC3 text. This text contains: Unit 1: Computing Fundamentals and covers basic computer concepts including computer hardware, computer software, and using an operating system. The second edition of Computer Literacy for IC3 has been revised to keep up with the IC3 program's evolution, which reflects the recent changes in computers and technology. Instead of publishing one large, comprehensive text, the three units are now available as separate, smaller texts. Warm, feisty, and intelligent, the Delany sisters speak their

mind in a book that is at once a vital historical record and a moving portrait of two remarkable women who continued to love, laugh, and embrace life after over a hundred years of living side by side. Their sharp memories show us the post-Reconstruction South and Booker T. Washington, Harlem's Golden Age and Langston Hughes, W. E. B. Du Bois, and Paul Robeson. Bessie breaks barriers to become a dentist; Sadie quietly integrates the New York City system as a high school teacher. Their extraordinary story makes an important contribution to our nation's heritage—and an indelible impression on our lives.
