**Essentials of Comparative Politics introduces students to the concepts that political scientists use to study and compare political systems and the particulars of specific political systems. The fourth edition has been revised and updated to include the most current and relevant examples and scholarship. The text is available with a corresponding casebook of 13 country studies and a corresponding reader; the three components can be used individually or in any combination. Building on the strengths of the second edition, this highly regarded textbook continues to provide the best introduction to the strategies of comparative research in political science. Divided into three parts, the book begins by examining different methods, applying these methods to dominant issues in comparative politics using a wealth of topical examples from around the world, and then discusses the new challenges in the area. New to this edition: features explanation of regression analysis with accompanied briefing boxes new discussion of the assumptions, research design, and the use of statistics characteristic of many-country comparisons single and multi-country studies - how to compare countries and address problems of comparison, especially the principles for selecting countries new chapter on the intersection between international relations and comparative politics all chapters have been updated with new publications and research output relevant to the discussion. Balancing reader friendly features with high quality analysis makes this popular academic text essential reading for everyone interested comparative politics and research methods. 'Bara and Pennington's edited volume successfully fills a huge void in the market for introductory textbooks to comparative politics which previously offered either descriptions of political processes and systems or overviews of the methodology of comparative analysis. By applying major political science theories to overviews of the core elements of political systems, the authors both enhance our understanding of these elements and provide readers an excellent introduction to comparative explanation' - Dr David Howarth, University of Edinburgh 'What is distinctive about this authoritative and comprehensive book on comparative politics is the way in which it is underpinned throughout by a theoretical analysis centred on a new institutionalist approach' -**

**Professor Wyn Grant, University of Warwick 'Comparative Politics takes a fresh and original approach to the field... it examines the role of structures, rules and norms in regulating the individual and collective behaviour of political actors. Each chapter provides a critical bibliography and key questions which will be particularly useful for students approaching Comparative Politics for the first time. Altogether this is a comprehensive and useful read which I warmly recommend' - Ian Budge, Professor Emeritus Professor of Government, University of Essex 'This is a most useful book. Teachers of comparative politics often scramble around, with out-of-date textbooks and photocopies of more or less compatible articles. Here is a new book that gives an up-to-date, comprehensive and systematic introduction to the major strands of institutional thought and applies these to the major institutions, processes and policy areas. It will be a great help for many of us, academics and students alike' - Peter Kurrild-Klitgaard, Professor of Comparative Politics, University of Copenhagen This book provides a distinctive new introduction to the study of comparative politics at undergraduate level. Rich in case study material and global in coverage, Comparative Politics sets out the basic theoretical and methodological foundations for studying different political systems as well as the key structures and actors of which they are comprised. Part One explores the nature of comparative methodology and introduces students to the major theoretical paradigms that seek to explain the operation of institutions in democratic states and facilitate comparison across different political systems. Part Two examines the institutional structures of the modern state, outlining the key features such as the electoral systems and territorial and functional divisions of government across a range of modern states. Part Three analyzes the role of key actors, such as voters and parties, interest groups and social movements, the bureaucracy and the judiciary. This book will be an essential primer for students on first-year courses in comparative government and politics as well as introductory courses in political science concepts and methods. Judith Bara is Senior Lecturer in Politics at Queen Mary, University of London and Research Fellow in Government, University of Essex. David S. Bell is Professor of French Government and Politics and Head of Social Studies and Law at the University of Leeds. Jocelyn Evans is Reader in Politics at the European Studies Research Institute, University of Salford. Catherine Needham is Lecturer in Politics at Queen Mary, University of London. Brendan O'Duffy is Senior Lecturer in Politics at Queen Mary, University of London. Mark Pennington is Senior Lecturer in Politics at Queen Mary, University of London. David Robertson is Professor of Politics, University of Oxford and Vice Principal, St Hugh's College, Oxford. This is a new introductory textbook on comparative politics and government, providing students with a guide to the literature and a new approach to the subject. Organized thematically around important questions in comparative politics—who rules? what explains political behavior? where and why?—Introducing Comparative Politics, Fifth Edition by Stephen Orvis and Carol Ann Drogus, integrates a set of extended case studies of 11 core countries directly into the narrative. Serving as touchstones, the cases are placed within the chapters where they make the most sense topically—not separated from the theory or in a separate volume—and vividly illustrate issues in cross-national context. The book's hybrid organization gives students a more holistic view of comparative politics. Offering a comprehensive introduction to the comparison of governments and political systems, this new edition helps students to understand not just the institutions and political cultures of their own countries but also those of a wide range of democracies and authoritarian regimes from around the world. This new edition offers: -A revised structure to aid navigation and understanding -New learning features, 'Using Theory' and 'Exploring Problems', designed to help students think comparatively -Empirical global examples, with increased coverage of non-Western**

**scholarship and analyses -Coverage of important contemporary topics including: minorities; LGBTQ+ issues; identity politics; women in politics; political trust; populism; Covid-19. Featuring a wide range of engaging learning features, this book is an essential text for undergraduate and postgraduate courses on Comparative Politics, Comparative Government, Introduction to Politics and Introduction to Political Science. Now available in a substantially revised 3rd edition covering the changes of the Seventeenth Party Congress and Eleventh National People's Congress and other recent developments, this major text by a leading academic authority provides a thorough introduction to all aspects of politics and governance in post-Mao China. Introducing Comparative Politics: The Essentials is organized thematically around the essential questions in comparative politics—Who rules? What explains political behavior? Where and why? Adapted from the authors' Introducing Comparative Politics, Fifth Edition, The Essentials version offers the same framework for understanding comparative politics in a briefer format. Stephen Orvis and Carol Ann Drogus introduce key comparative questions while providing equal strengths and weaknesses of commonly debated theories, structures, and beliefs that push students and generates in-class debate over key concepts used in the science of comparative politics. While detailed case studies can go in-depth on specific countries and political systems, Introducing Comparative Politics: The Essentials distills its country material into the narrative, increasing global awareness, current-event literacy, and critical-thinking skills. The book's organization allows you to teach the course the way you want to teach it. This systematic, user friendly, and refreshingly unusual introduction to comparative politics has not only been updated and refined in the third edition, but also fully revised to reflect the impact of major new developments in world politics. Designed to teach students how to think comparatively and theoretically about the world they live in, the book is organized around a set of critical questions—why are poor countries poor? why is East Asia relatively prosperous? what makes a democracy? how can we explain terrorism and genocide? what leads people to mobilize around a cause?—each the topic of a full chapter. These issue chapters are based on the solid methodological and theoretical foundation laid out in the first part of the book, and the entire text is enhanced with case studies and graphics. Timothy C. Lim is professor of political science at California State University, Los Angeles. "Comparative Politics" provides a comprehensive introduction to political systems around the world. It covers methods and theories; the nation-state; institutions; actors and processes; policies; and recent changes. First published in 1995. Routledge is an imprint of Taylor & Francis, an informa company. Balancing theory with application and featuring an engaging, student-friendly writing style, Updated to reflect today's political climate, INTRODUCTION TO COMPARATIVE POLITICS offers a country-by-country approach that allows students to examine similarities and differences among countries and within and between political systems. Each chapter offers detailed descriptions and analyses of a country's politics, political challenges and changing agendas. Pedagogy and a condensed narrative help students make connections and comparisons about the countries presented. The eighth edition presents case studies on 13 countries and the European Union, providing an interesting sample of political regimes, levels of economic development and geographic regions. Students contemplate the dramatic Brexit vote, the impeachment of Brazil's president, Russia's drift toward authoritarianism and the polarizing elections of Donald Trump and Emmanuel Macron, among other recent political developments. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version. "A comprehensive and systematic introduction to the institutions and patterns of behavior of political systems worldwide. The book is concept rather than country based, looking in the depth at the key elements necessary to**

an understanding of political institutions and political change. It also looks at the part played by bureaucracies, the military and the courts in political life and the extent to which people participate directly in politics"--Provided by publisher. First published in 1995. Routledge is an imprint of Taylor & Francis, an informa company. This accessible introduction to comparative politics offers a fresh, state-centered perspective on the fundamentals of political science. **Comparative Politics: A Global Introduction** presents a uniquely comprehensive approach to the study of politics in a variety of countries. Part I surveys the core topics of comparative politics and equips students with the concepts and analytical methods they need to understand the complexities of today's political world. Part I enhances critical thinking skills by explaining in a step-by-step fashion how the basic techniques of the scientific method, such as qualitative hypothesis testing, can be used to understand political realities. Part II provides in-depth studies of many major countries, using the concepts and analytical techniques introduced in Part I. By combining rich conceptualization, analytical methods, and extensive coverage of a diversity of countries, this engaging text teaches introductory-level students how to think about politics for themselves, logically and systematically. A thematically-organised introduction to the governance and politics of Europe, this text provides an accessible guide to both the institutions and the issues that matter in a continent where the boundaries between East and West, and between domestic and EU affairs are breaking down. The classic introduction to political science and comparative politics has been comprehensively updated for this new edition. Retaining the clarity of expression and breadth of coverage that has made it the introduction of choice for generations of students, it provides a lively and up-to-date account of the events and forces shaping politics in today's interconnected world. The new edition includes separate chapters on theoretical approaches and research strategies in political science as well as increased coverage of security, media, culture, law and regulation. Carefully designed learning features illustrate the text throughout. These include: • full-page Profiles on individual countries and the European Union, with associated Spotlights linked to each chapter • on-page glossary definitions for key terms and timelines of key events • guides to additional learning resources for each chapter • a companion website providing additional resources and activities Based on O'Neil, Fields, and Share's market-leading textbook and casebook, **Cases and Concepts in Comparative Politics: An Integrated Approach** integrates concepts and cases in one volume. Students get all of the materials in a straightforward, easy-to-use, and cost-effective way. This brief, lively, and well-written textbook is intended for upper-level classes on comparative politics where several small studies are used instead of one large text. Appropriate course titles are Introduction to Comparative Politics, Politics of Developing Areas, World Politics, and Comparative Development, all found in the political science department. The book is designed to motivate student interest by focusing on current trends, issues, and controversies. It introduces students to the field, traces the history and development of comparative politics, assesses the newer approaches to the field in sequential and systematic fashion, and takes account of recent events. Updated to reflect today's political climate, the seventh edition of **INTRODUCTION TO COMPARATIVE POLITICS** offers a country-by-country approach that allows students to fully examine similarities and differences among countries and within and between political systems. Each chapter offers an analysis of political challenges and changing agendas within countries and provides detailed descriptions and analyses of the politics of individual countries. The text offers a condensed narrative and student-friendly pedagogy, such as marginal key terms and questions that will help them make meaningful connections and comparisons about the countries presented. This edition consists of 13 country case studies, as well as a case

study on the European Union, providing an interesting sample of political regimes, levels of economic development, and geographic regions. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version. For *Introducing Comparative Politics: The Essentials*, the driving force is the pluralist, objective stance on introducing students to core concepts in Comparative Politics. Authors Stephen Orvis and Carol Ann Drogus introduce key comparative questions while providing equal strengths and weaknesses of commonly debated theories, structures, and beliefs that push students beyond memorization of country profiles and ever-changing statistics and generate in-class debate over key concepts used in the science of comparative politics. While detailed case studies can go in-depth on specific countries and political systems, *Introducing Comparative Politics: The Essentials*, distills its country material into paragraph-long examples woven seamlessly into the narrative of the text, increasing diverse global awareness, current-event literacy, and critical-thinking skills. A fully revised fourth edition of a popular introduction to the comparative politics of Europe, written by a highly respected authority on the subject. This lively and thematically organised text provides an accessible guide to the institutions and the issues that matter in a continent where the boundaries between East and West, and between domestic and European affairs are increasingly breaking down. Covering a wide array of countries it is a concise yet comprehensive overview of one of the world's most important and fascinating regions. Written in an approachable style and packed with up-to-date, real-world examples and information, this is the ideal place for students to begin and to deepen their understanding of Europe's politics. It can be adapted as a standalone text on modules on Comparative European Politics and will be of use as a key reading on undergraduate courses on Comparative Politics more broadly, as well as European Union Politics. New to this Edition: - Updated throughout to provide coverage of developments such as the Eurozone crisis, the growth of left and right-wing populism, the rise of nationalism and Europe's on-going immigration challenge - Includes a short concluding chapter, rounding up and considering the future of the book's core themes of Europeanization and multilevel governance - Additional country profiles on Croatia and Greece to ensure representative treatment of the key countries in Europe today Organized thematically around important questions in comparative politics, *Introducing Comparative Politics, Fourth Edition* by Stephen Orvis and Carol Ann Drogus integrates a set of extended case studies of 11 core countries into the narrative. Serving as touchstones, the cases are set in chapters where they make the most sense topically—not separated from theory or in a separate volume—and vividly illustrate issues in cross-national context. The book's organization allows instructors flexibility and gives students a more accurate sense of comparative study. In this edition, a brand new chapter on Contentious Politics covers ethnic fragmentation, social movements, civil war, revolutions, and political violence. New case studies on this topic include the Occupy and Tea Party movements in the US; Zapatista rebellion in Mexico; Boko Haram in Nigeria; and; and revolutions in China and Iran. The chapter on States and Identity has been substantially revised to better introduce students to the concept of identity and how countries handle identity-based demands. Case studies include nationalism in Germany; ethnicity in Nigeria; religion in India; race in the US; gender in Iran; and sexual orientation in Brazil. Content on states and markets, political economy, globalization, and development has all been consolidated into a new Part III of the book, focusing in a sustained way on economic issues. This revised and updated edition of a core textbook - one of the most well-established texts in the field of comparative politics - offers a comprehensive introduction to the comparison of governments and political systems, helping students to

understand not just the institutions and political cultures of their own countries but also those of a wide range of democracies and authoritarian regimes from around the world. The book opens with an overview of key theories and methods for studying comparative politics and moves on to a study of major institutions and themes, such as the state, constitutions and courts, elections, voters, interest groups and political economy. In addition, two common threads run throughout the chapters in this edition - the reversal of democracy and declining trust in government - ensuring that the book fully accounts for the rapid developments in politics that have taken place across the world in recent times. Written by a team of experienced textbook authors and featuring a range of engaging learning features, this book is an essential text for undergraduate and postgraduate courses on comparative politics, comparative government, introduction to politics and introduction to political science. New to this Edition: - New and extended coverage of important topics such as authoritarian states, identities, ethnicity and political violence - A brand new chapter on political economy - An engaging new page design, in full colour for the first time - An enhanced companion website, now providing an extensive testbank of questions for lecturers - Publishing alongside John McCormick's new book on Cases in Comparative Government and Politics (October 2019), which offers more detailed coverage of the cases covered in this text. Building on the strengths of the third edition, this highly regarded textbook continues to provide the best introduction to the strategies of comparative research in political science. Divided into three parts, the book begins by examining different methods, applying these methods to dominant issues in comparative politics using a wealth of topical examples from around the world, and then discusses the new challenges in the area. This thoroughly revised and updated edition features: Additional contemporary case studies including the democratisation of technology and the Arab Spring; Detailed discussion of regression analysis and diffusion; More analysis of justice, inequality, and compliance; Reflection on new methods and treatments of contemporary comparative politics. Balancing reader friendly features with high quality analysis makes this popular academic text is essential reading for everyone interested in comparative politics and research methods. Updated to reflect today's political climate, the Sixth Edition of INTRODUCTION TO COMPARATIVE POLITICS offers a country-by-country approach that allows students to fully examine similarities and differences among countries and within and between political systems. Each chapter offers an analysis of political challenges and changing agendas within countries and provides detailed descriptions and analyses of the politics of individual countries. The Sixth Edition offers a condensed narrative and student-friendly pedagogy such as marginal key terms and focus questions that will help students make meaningful connections and comparisons about the countries presented. INTRODUCTION TO COMPARATIVE POLITICS, Sixth Edition, consists of 13 country case studies, selected for their significance in terms of the comparative themes and because they provide an interesting sample of types of political regimes, levels of economic development, and geographic regions. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version. Long established as the leading text in the field, the new edition has been comprehensively updated and rewritten. Accessible, student-friendly and truly international in its coverage, this edition includes more on authoritarian states as well as a much wider variety of country studies more generally. Written by a distinguished group of comparativists, this innovative and accessible introductory text surveys 12 key countries organized according to their level of political development: established democracies, transitional democracies, and non-democracies. The country studies illuminate four comparative themes in a global context: the world of states, examining the interaction of

states within the international order; governing the economy, covering the role of the state in economic management; the democratic idea, discussing the pressure for more democracy and the challenges of democratization; and the politics of collective identities, studying the political impact of diverse attachments and sources of group identity. *Principles of Comparative Politics* offers the most comprehensive and up-to-date introduction to comparative inquiry, research, and scholarship. In this thoroughly revised Third Edition, students now have an even better guide to cross-national comparison and why it matters. The new edition retains a focus on the enduring questions with which scholars grapple, the issues about which consensus has started to emerge, and the tools comparativists use to get at the complex problems in the field. Among other things, the updates to this edition include a thoroughly-revised chapter on dictatorships that incorporates a discussion of the two fundamental problems of authoritarian rule: authoritarian power-sharing and authoritarian control; a revised chapter on culture and democracy that includes a more extensive examination of cultural modernization theory and a new overview of survey methods for addressing sensitive topics; a new section on issues related to electoral integrity; an expanded assessment of different forms of representation; and a new intuitive take on statistical analyses that provides a clearer explanation of how to interpret regression results. Examples from the gender and politics literature have been incorporated into various chapters, the Problems sections at the end of each chapter have been expanded, and the empirical examples and data on various types of institutions have been updated. Online videos and tutorials are available to address some of the more methodological components discussed in the book. The authors have thoughtfully streamlined chapters to better focus attention on key topics. *Comparative Politics: A Global Introduction* shows new students of world politics how the methods and concepts of comparative politics can lead them to ask critical questions to better understand the complex world around them. The majority of undergraduates in introductory comparative politics courses do not plan to pursue graduate education in political science nor embark upon careers as political scientists. Most hope to take part in public and perhaps international affairs as elected officials, civil servants, or engaged citizens. As such they will need to make countless decisions about public policy, including foreign policy, throughout their careers. *Comparative Politics: A Global Introduction* equips students to make better, more informed decisions. Central to that task are three important goals: (1) to introduce readers to the conceptual foundations of comparative politics, (2) to enhance their analytical and critical-thinking skills through an introduction to basic empirical techniques of political and social science, and (3) to promote their understanding of a wide range of countries and political leaders.
