**Gods of the Upper Air** Dec 28 2020 2020 Anisfield-Wolf Book Award Winner Finalist for the National Book Critics Circle Award From an award-winning historian comes a dazzling history of the birth of cultural anthropology and the adventurous scientists who pioneered it—a sweeping chronicle of discovery and the fascinating origin story of our multicultural world. A century ago, everyone knew that people were fated by their race, sex, and nationality to be more or less intelligent, nurturing, or warlike. But Columbia University professor Franz Boas looked at the data and decided everyone was wrong. Racial categories, he insisted, were biological fictions. Cultures did not come in neat packages labeled "primitive" or "advanced." What counted as a family, a good meal, or even common sense was a product of history and circumstance, not of nature. In *Gods of the Upper Air*, a masterful narrative history of radical ideas and passionate lives, Charles King shows how these intuitions led to a fundamental reimagining of human diversity. Boas's students were some of the century's most colorful figures and unsung visionaries: Margaret Mead, the outspoken field researcher whose *Coming of Age in Samoa* is among the most widely read works of social science of all time; Ruth Benedict, the great love of Mead's life, whose research shaped post-Second World War Japan; Ella Deloria, the Dakota Sioux activist who preserved the traditions of Native Americans on the Great Plains; and Zora Neale Hurston, whose studies under Boas fed directly into her now classic novel, *Their Eyes Were Watching God*. Together, they mapped civilizations from the American South to the South Pacific and from Caribbean islands to Manhattan's city streets, and unearthed an essential fact buried by centuries of prejudice: that humanity is an undivided whole. Their revolutionary findings would go on to inspire the fluid conceptions of identity we know today. Rich in drama, conflict, friendship, and love, *Gods of the Upper Air* is a brilliant and groundbreaking history of American progress and the opening of the modern mind.

**History of King Charles the Second of England** Jun 14 2022 The reign of Charles the First, as will be seen by the history of his life in this series, was characterized by a long and obstinate contest between the king and the people, which brought on, at last, a civil war, in which the king was defeated and taken prisoner, and in the end beheaded on a block, before one of his own palaces. During the last stages of this terrible contest, and before Charles way himself taken prisoner, he was, as it were, a fugitive and an outlaw in his own dominions. His wife and family were scattered in various foreign lands, his cities and castles were in the hands of his enemies, and his oldest son, the prince Charles, was the object of special hostility. The prince incurred, therefore, a great many dangers, and suffered many heavy calamities in his early years. He lived to see these calamities pass away, and, after they were gone, he enjoyed, so far as his own personal safety and welfare were concerned, a tranquil and prosperous life. The storm, however, of trial and suffering which enveloped the evening of his father's days, darkened the morning of his own. The life of Charles the First was a river rising gently, from quiet springs, in a scene of verdure and sunshine, and flowing gradually into rugged and gloomy regions, where at last it falls into a terrific abyss, enveloped in darkness and storms. That of Charles the Second, on the other hand, rising in the wild and rugged mountains where the parent stream was engulfed, commences its course by leaping frightfully from precipice to precipice, with turbid and foaming waters, but emerges at last into a smooth and smiling land, and flows through it prosperously to the sea.

**A Royal Family** Apr 24 2023

**Charles I** Sep 17 2022 KING CHARLES THE FIRST was born in Scotland. It may perhaps surprise the reader that an English king should be born in Scotland. The explanation is this: They who have read the history of Mary Queen of Scots, will remember that it was the great end and aim of her life to unite the crowns of England and Scotland in her own family. Queen Elizabeth was then Queen of England. She lived and died unmarried. Queen Mary and a young man named Lord Darnley were the next heirs. It was uncertain which of the two had the strongest claim. To prevent a dispute, by uniting these claims, Mary made Darnley her husband. They had it son, who, after the death of his father and mother, was acknowledged to be the heir to the English throne, whenever Elizabeth's life should end. In the meantime he remained King of Scotland. His name was James. He married a princess of Denmark; and his child, who afterward was King Charles the First of England, was born before he left his native realm.

**The White King** Dec 20 2022 From the New York Times bestselling author and master of narrative nonfiction comes the tragic story of Charles I, his warrior queen, Britain's civil wars and the trial for his life. Less than forty years after England's golden age under Elizabeth I, the country was at war with itself. Split between loyalty to the Crown or to Parliament, war raged on English soil. The English Civil War would set family against family, friend against friend, and its casualties were immense—a greater proportion of the population died than in World War I. At the head of the disintegrating kingdom was King Charles I. In this vivid portrait -- informed by previously unseen manuscripts, including royal correspondence between the king and his queen -- Leanda de Lisle depicts a man who was principled and brave, but fatally blinkered. Charles never understood his own subjects or court intrigue. At the heart of the drama were the Janus-faced cousins who befriended and betrayed him -- Henry Holland, his peacocking servant whose brother, the New England colonialist Robert Warwick, engineered the king's fall; and Lucy Carlisle, the magnetic 'last Boleyn girl' and faithless favorite of Charles's maligned and fearless queen. The tragedy of Charles I was that he fell not as a consequence of vice or wickedness, but of his human flaws and misjudgments. *The White King* is a story for our times, of populist politicians and religious war, of manipulative media and the reshaping of nations. For Charles it ended on the scaffold, condemned as a traitor and murderer, yet lauded also as a martyr, his reign destined to sow the seeds of democracy in Britain and the New World.

**A History of England Under the Duke of Buckingham and Charles I., 1624-1628** Aug 04 2021

**King Charles** Jun 02 2021 An exhaustive and revealing biography of Britain's new monarch, King Charles III, with fresh reporting by the journalist the Wall Street Journal dubbed "the Godfather of royal reporting." With exclusive interviews and extensive research, King Charles delivers definitive insight into the extraordinary life of His Royal Highness, former Prince of Wales, as he takes the throne, a watershed moment in modern history and in the British monarchy. New York Times bestselling author Robert Jobson debunks the myths about the man who became king, going beyond banal, bogus media caricatures of Charles to tell his true story. Jobson—who has spent nearly thirty years chronicling the House of Windsor, and has met Charles on countless occasions—received unprecedented cooperation from Clarence House, what was the Prince's office, in writing this illuminating biography. King Charles divulges the full range of Charles's profoundly held political beliefs: the United Kingdom's special relationship to the United States, climate change, Brexit, and immigration—to ultimately portray the kind of monarch Charles III will be. Jobson taps a number of sources close to the now-King who have never spoken on the record before, plus members of the Royal Household who have served Charles during his decades of public life. This comprehensive profile also reveals the late Queen Elizabeth's plans to transition Charles to the throne; how at her insistence he already reads all government briefings; and why he feels it is his constitutional duty to relay his thoughts to ministers in his controversial "black spider memos." Moreover, King Charles reveals the truth about Charles's deeply loving but occasionally volatile relationship with his second wife and chief supporter, Camilla. The result is an intriguing new portrait of a man who at last has become king.

**History of King Charles the Second of England** Apr 19 2020 DigiCat Publishing presents to you this special edition of "History of King Charles the Second of England" by Jacob Abbott. DigiCat Publishing considers every written word to be a legacy of humankind. Every DigiCat book has been carefully reproduced for republishing in a new modern format. *History of King Charles the Second of England* Oct 26 2020 Our Prince Charles now becomes, by the death of his father, King Charles the Second, both of England and of Scotland. That is, he becomes so in theory, according to the principles of the English Constitution, though, in fact, he is a fugitive and an exile still. Notwithstanding his exclusion, however, from the exercise of what he considered his right to reign, he was acknowledged as king by all true Royalists in England, and by all the continental powers. They would not aid him to recover his throne, but in the courts and royal palaces which he visited he was regarded as a king, and was treated, in form at least, with all the consideration and honor which belonged to royalty.

**Narrative of the Attempted Escapes of Charles the First from Carisbrook Castle** Jan 29 2021

**History of King Charles I of England** Jul 27 2023 Abraham Lincoln raved that this series of historical biographies gave him "just that knowledge of past men and events which I need. I have read them with the greatest interest. To them I am indebted for about all the historical knowledge I have." Considered what we would now call "young adult" literature, this collection, first published between 1848 and 1871, was designed to present a clear, distinct, connected narrative of the lives of the great figures of world history, those people who have been most influential, at least as American author and educator JACOB ABBOTT (1803-1879) saw it from his 19th-century perspective. Wildly popular and republished many times under different collected names, this replica set mimics the 1904 reprint known as the "Makers of History" series. It will delight students of history as well as show the scholar how history telling has changed over the last few centuries. More than 30 other volumes in the series are also available from Cosimo Classics. This volume, dating from 1848, covers Charles I (1600-1649), from his childhood and early expedition to Spain through the

English Civil War and his trial and death.
