Person-Centered Therapy | Psychology Today

Care planning, involvement and person-centred care This section explores two key themes that are central to care planning within the MCA framework: involvement, and keeping the wishes of the person at the centre of their care and support. It emphasises that building relationships and good communication are critical to meaningful involvement.

Quick Guide to Developing Goals, Objectives, and Interventions

Person-centered therapy is a collaborative relationship between and clients and their therapists. The client; however, determines what course of action to take. The therapist aids in this process by helping the client get to self-actualization and personal understanding while clarifying the client's responses.

*Treatment Planning - Home | Perelman School of Medicine*

This regulation describes the action that providers must take to make sure that each person receives appropriate person-centred care and treatment that is based on an assessment of their needs and preferences.

Care planning, involvement and person-centred care - SCIE

Treatment Planning • Person Centered approach • Focus on the individual and their goals • Strengths, preferences, support systems • Necessary to identify current issues • Provides guidance for treatment • Allows for assessing progress over time • Collaborative effort • Responsibility and motivation is shared
