Agastya Sen, known to friends by the English name August, is a child of the Indian elite. His friends go to Yale and Harvard. August himself has just landed a prize government job. The job takes him to Madna, "the hottest town in India," deep in the sticks. There he finds himself surrounded by incompetents and cranks, time wasters, bureaucrats, and crazies. What to do? Get stoned, shirk work, collapse in the heat, stare at the ceiling. Dealing with the locals turns out to be a lot easier for August than living with himself. English, August is a comic masterpiece from contemporary India. Like *A Confederacy of Dunces* and *The Catcher in the Rye*, it is both an inspired and hilarious satire and a timeless story of self-discovery.

INTERVIEW GUIDE FOR CIVIL SERVICES EXAMINATION Arihant Publications India limited

Constitutional law in Latin America embodies a mosaic of national histories, political experiments, and institutional transitions. No matter how distinctive these histories and transitions might be, there are still commonalities that transcend the mere geographical contiguity of these countries. This Handbook depicts the constitutional landscape of Latin America by shedding light on its most important differences and affinities, qualities and drawbacks, and by assessing its overall standing in the global enterprise of democratic constitutionalism. It engages with substantive and methodological conundrums of comparative constitutional law in the region, drawing meaningful comparisons between constitutional traditions. The volume is divided into two main parts. Part I focuses on exploring the constitutions for seventeen jurisdictions, offering a comprehensive country-by-country critique of the historical foundations, institutional architecture, and rights-based substantive identity of each constitution. Part II presents comparative

analyses on the most controversial constitutional topics of the region, exploring central concepts in institutions and rights. The Oxford Handbook of Constitutional Law in Latin America is an essential resource for scholars and students of comparative constitutional law, and Latin American politics and history. Written by leading experts, it comprehensively examines constitutions, controversies, institutions, and constitutional rights in Latin America.

This book is an outcome of sheer hard work of successful candidates.

Previously; I had given thought to publish the success stories last year too but it could not materialize.

Subsequently; when I came in contact with successful candidates; I realized that some had so unique journeys that I could not resist myself to give shape to the idea which was in mind since long. Again; the question arose to whom should I approach since I had known only limited number of successful candidates. In this book you will find a unique success pattern of each successful officer. Some of them come from backward areas; some have average educational qualification; so that you may realize that successful candidates

not born with a silver spoon. Some of them were already in job; it is interesting to see how they could sale through their arduous journey and made it to the destination.
