For many people, a well-maintained automobile is a source of pride and peace of mind. But for others, the idea of routine maintenance is daunting. How to Make Your Car Last Forever will

guide you through the minefield of preventative maintenance, repair, extended warranties, and magic elixirs that claim to cure everything from oil consumption to male-pattern baldness!

Author, car repair expert, and host of satellite radio show America's Car Show with Tom Torbjornsen, Tom Torbjornsen has seen it all in his 40 years in the automobile industry. Let him show you how to extend the life of your car indefinitely. In *How to Make Your Car Last Forever*, he explains the what, when, and why's of automotive maintenance and repairs in easy-to-understand terms. Simple how-to projects supplement the learning with step-by-step instructions that will save you time and money. While you may not want your car to last forever, Torbjornsen's advice will help you preserve it indefinitely while maximizing resale value down the road. Preventative maintenance is the key to the automotive fountain of youth. Let Tom Torbjornsen show you the way!

### **Popular Science**

The author of the bestselling *The Third Man Factor* examines the shockingly common phenomenon of the “Angel Effect”: when

people feel visited by an otherworldly presence in times of great danger or desperation. Do “angels” exist? If so, are they heaven-sent or products of the human brain? After the publication of the bestseller *The Third Man Factor*, which examined the phenomenon of explorers who found themselves at the edge of death and experienced a benevolent presence that led them out of the impossible, John Geiger was inundated with firsthand accounts from people who had the same experience—a vivid presence that aided them as they faced crises ranging from physical and sexual

assaults to automobile accidents, airplane crashes, serious illness, childbirth, and depression. *The Angel Effect* examines this phenomenon, and Geiger argues that it has the potential to aid us, even to save us, and asks whether it is a trainable skill. He investigates the numerous experiences along with historical accounts and scientific research as he reveals compelling discoveries about the human brain and our innate capacity to hope.
