### The Witches' Blade Clarkson Potter

A journalist digs into the California cold case of a teenager murdered in his hometown in this disturbing true crime account. In April 1984, fourteen-year-old Foothill High freshman Tina Faelz took a shortcut on her walk home. About an hour later, she was found in a ditch, brutally stabbed to death. The murder shook the quiet East Bay suburb of Pleasanton and left investigators baffled. With no witnesses or leads, the case went cold and remained so for nearly thirty years. Then the investigation finally got a break in 2011. Improved forensics recovered DNA from a drop of blood found at the scene matching Tina's classmate, Steven Carlson. Through dusty police files, personal interviews, letters and firsthand accounts, journalist Joshua Suchon revisits his childhood home to uncover the story of a shocking crime and the controversial sentencing that brought long-awaited answers to a tormented community.

A New York Times Book Review Editors' Choice. Finalist for the Costa Biography Award and long-listed for the Andrew Carnegie Medal for Excellence. Named a Best Book of 2018 by Esquire and Foreign Policy. An Amazon Best Book of November, the Guardian Bookshop Book of November, and one of the Evening Standard's Books to Read in November "Now, thanks to Hilsum's deeply reported and passionately written book, [Marie Colvin] has the full accounting that she deserves." --Joshua Hammer, The New York Times The inspiring and devastating biography of Marie Colvin, the foremost war reporter of her generation, who was killed in Syria in 2012, and whose life story also forms the basis of the feature film *A Private War*, starring Rosamund Pike as Colvin. When Marie Colvin was killed in an artillery attack in Homs, Syria, in 2012, at age fifty-six, the world lost a fearless and iconoclastic war correspondent who covered the most significant global calamities of her lifetime. In *Extremis*, written by her fellow reporter Lindsey Hilsum, is a thrilling investigation into Colvin's epic life and tragic death based on exclusive access to her intimate diaries from age thirteen to her death, interviews with people from every corner of her life, and impeccable research. After growing up in a middle-class Catholic family on Long Island, Colvin studied with the legendary journalist John Hersey at Yale, and eventually started working for The Sunday Times of London, where she gained a reputation for bravery and compassion as she told the stories of victims of the major conflicts of our time. She lost sight in one eye while in Sri Lanka covering the civil war, interviewed Gaddafi and Arafat many times, and repeatedly risked her life covering conflicts in Chechnya, East Timor, Kosovo, and the Middle East. Colvin lived her personal life in extremis, too: bold, driven, and complex, she was married twice, took many lovers, drank and smoked, and rejected society's expectations for women. Despite PTSD, she refused to give up reporting. Like her hero Martha Gellhorn, Colvin was committed to bearing witness to the horrifying truths of war, and to shining a light on the profound suffering of ordinary people caught in the midst of conflict. Lindsey Hilsum's *In Extremis* is a devastating and revelatory biography of one of the greatest war correspondents of her generation.

Long before the waterboarding controversy exploded in the media, one CIA agent had already gone public. In a groundbreaking 2007 interview with ABC News, John Kiriakou called waterboarding torture—but admitted that it probably worked. This book, at once a confessional, an adventure story, and a chronicle of Kiriakou's life in the CIA, stands as an important, eloquent piece of testimony from a committed American patriot. In February 2002 Kiriakou was the head of counterterrorism in Pakistan. Under his command, in a spectacular raid coordinated with Pakistani agents and the CIA's best intelligence analyst, Kiriakou's field officers took down the infamous terrorist Abu Zubaydah. For days, Kiriakou became the wounded terrorist's personal "bodyguard." In circumstances stranger than fiction, as al-Qaeda agents scoured the streets for their captured leader, the best trauma surgeon in America was flown to Pakistan to make sure that Zubaydah did not die. In *The Reluctant Spy*, Kiriakou takes us into the fight against an enemy fueled by fanaticism. He chillingly describes what it was like inside the CIA headquarters on the morning of 9/11, the agency leaders who stepped up and those who protected their careers. And in what may be the book's most shocking revelation, he describes how the White House made plans to invade Iraq a full year before the CIA knew about it—or could attempt to stop it. Chronicling both mind-boggling mistakes and heroic acts of individual courage, *The Reluctant Spy* is essential reading for anyone who wishes to understand the inner workings of the U.S. intelligence apparatus, the truth behind the torture debate, and the incredible dedication of ordinary men and women doing one of the most extraordinary jobs on earth.

How mandated disclosure took over the regulatory landscape—and why it failed Perhaps no kind of regulation is more common or less useful than mandated disclosure—requiring one party to a transaction to give the other information. It is the iTunes terms you assent to, the doctor's consent form you sign, the pile of papers you get with your mortgage. Reading the terms, the form, and the papers is supposed to equip you to choose your purchase, your treatment, and your loan well. *More Than You Wanted to Know* surveys the evidence and finds that mandated disclosure rarely works. But how could it? Who reads these disclosures? Who understands them? Who uses them to make better choices? Omri Ben-Shahar and Carl Schneider put the regulatory problem in human terms. Most people find disclosures complex, obscure, and dull. Most people make choices by stripping information away, not layering it on. Most people find they can safely ignore most disclosures and that they lack the literacy to analyze them anyway. And so many disclosures are mandated that nobody could heed them all. Nor can all this be changed by simpler forms in plainer English, since complex things cannot be made simple by better writing. Furthermore, disclosure is a lawmakers' panacea, so they keep issuing new mandates and expanding old ones, often instead of taking on the hard work of writing regulations with bite. Timely and provocative, *More Than You Wanted to Know* takes on the form of regulation we encounter daily and asks why we must encounter it at all.

NEW YORK TIMES BUSINESS BEST SELLER • A suspenseful behind-the-scenes look at the dysfunction that contributed to one of the worst tragedies in modern aviation: the 2018 and 2019 crashes of the Boeing 737 MAX. An "authoritative, gripping and finely detailed narrative that charts the decline of one of the

great American companies" (New York Times Book Review), from the award-winning reporter for Bloomberg. Boeing is a century-old titan of industry. It played a major role in the early days of commercial flight, World War II bombing missions, and moon landings. The planemaker remains a cornerstone of the U.S. economy, as well as a linchpin in the awesome routine of modern air travel. But in 2018 and 2019, two crashes of the Boeing 737 MAX 8 killed 346 people. The crashes exposed a shocking pattern of malfeasance, leading to the biggest crisis in the company's history—and one of the costliest corporate scandals ever. How did things go so horribly wrong at Boeing? *Flying Blind* is the definitive exposé of the disasters that transfixed the world. Drawing from exclusive interviews with current and former employees of Boeing and the FAA; industry executives and analysts; and family members of the victims, it reveals how a broken corporate culture paved the way for catastrophe. It shows how in the race to beat the competition and reward top executives, Boeing skimped on testing, pressured employees to meet unrealistic deadlines, and convinced regulators to put planes into service without properly equipping them or their pilots for flight. It examines how the company, once a treasured American innovator, became obsessed with the bottom line, putting shareholders over customers, employees, and communities. By Bloomberg investigative journalist Peter Robison, who covered Boeing as a beat reporter during the company's fateful merger with McDonnell Douglas in the late '90s, this is the story of a business gone wildly off course. At once riveting and disturbing, it shows how an iconic company fell prey to a win-at-all-costs mentality, threatening an industry and endangering countless lives.
