Being a fugitive is hard work. Running from the law is taking its toll on James McRiley (Ridder of Vermin) and his best friend, Kevin Nichols. They've never been east of Las Vegas, and these native Southern Californians have no idea what's in store for them on their journey to keep James out of prison. James's justified punishments, as he calls his three murders, the fourth was an accident, he swears, have caught up with him, and now he faces an uncertain future with a chance every day to be seen, to be identified, and to be caught. His constant nightmares of impending imprisonment have left this twenty-nine-year-old paranoid killer beside himself with fear. Needing a rest, the friends stop in historic New Orleans. A whole new world opens up for the two musicians, and they discover they are definitely not in Southern California anymore. Local sentiment is foreign and cultures sometimes clash. Can James keep it together long enough to maintain the obscurity he desperately needs for escape? Or will his alter ego, The Pied Piper, rise up once again to rid the world of its incessant vermin?

Hardcore pornographic films combine fantasy and real sex to create a unique genre of entertainment. Pornographic films are also historical documents that give us access to the sexual behavior and eroticism of different historical periods. This book shows how the making of pornographic films is a social process that draws on the fantasies, sexual scripts, and sexual identities of performers, writers, directors, and editors to produce sexually exciting videos and movies. Yet hardcore pornographic films have also created a body of knowledge that constitutes, in this digital age, an enormous archive of sexual fantasies that serve as both a form of sex education and self-help guides. *Sex, Society, and the Making of Pornography* focuses on sex and what can be learned about it from pornographic representations.

'What I want is an off the shelf sex partner. I want to be able to use a woman whenever and however I want. And when I'm tired or bored I simply want to put her away.' - Leonard Lake Jeffrey Dahmer who was obsessed with dead animals when he was younger, later got sexual satisfaction from eating his victims as he felt like they became a part of him. John Wayne Gacy toured the children's wards in hospitals, dressed in a clown costume of his design, but beneath the exterior, laid the killer of 30 boys and men. Rose West met Fred West when she was 15. Even before marrying in 1972, violence, rape, incest, torture voyeurism and paedophilia were already part of a normal day for the couple. *Chambers of Horror* is a study of the warped thinking that went into some of the world's most macabre crimes, as well as a clinical examination of the purpose-built rooms, hidden spaces, and soundproof dungeons prepared for victims, including quotes from the criminals. From the massive 'Murder Castle' once used by Dr. H. H. Holmes to prey upon those attending the 1893 Chicago World's Fair to the hand-tooled box under the bed where Cameron Hooker kept his 'sex slave', *Chambers of Horror* covers famous cases of the past along with many from the modern age. John Marlowe takes the reader on a disturbing journey through a world of murder and mayhem, providing insight into evil and the motivations of monsters.

“Humorous and forthright...[Gaby] Dunn makes facing money issues seem not only palatable but possibly even fun....Dunn’s book delivers.” —Publishers Weekly The beloved writer-comedian expands on his popular podcast with an engaging and empowering financial literacy book for Millennials and Gen Z. In the first episode of his *Bad With Money* podcast, Gaby Dunn asked patrons at a coffee shop two questions: First, what’s your favorite sex position? Everyone was game to answer, even the barista. Then, she asked how much money was in their bank accounts. People were aghast. “That’s a very personal question,” they insisted. And therein lies the problem. Dunn argues that our inability to speak honestly about money is our #1 barrier to understanding it, leading us to feel alone, ashamed, and anxious, which in turns makes us feel even more overwhelmed by it. In *Bad With Money*, he reveals the legitimate, systemic reasons behind our feeling of helplessness when it comes to personal finance, demystifying the many signposts on the road to getting our financial sh*t together, like how to choose an insurance plan or buy a car, sign up for a credit card or take out student loans. He speaks directly to her audience, offering advice on how to make that #freelance life work for you, navigate money while you date, and budget without becoming a Nobel-winning economist overnight. Even a topic as notoriously dry as money becomes hilarious and engaging in the hands of Dunn, who weaves his own stories with the perspectives of various comedians, artists, students, and more, arguing that—even without selling our bodies to science or suffering the indignity of snobby thrift shop buyers—we can all start taking control of our financial futures.

Hello Sailor! Xlibris Corporation

This book is inspirational for people who let their past life determine their future. You don’t have to be the same person you were twenty years ago. There’s a path already set out and set up just for you. All you have to do is follow it, believe it, and follow your heart. Just like Feline Fe Fe. It’s scary, it’s courageous, it’s a lot of work, but it’s worth it. A whore can become a faithful housewife, a murderer can become a doctor, a thief can become a lawyer, and so on and so forth. No matter what your past looks like. No matter what you look like. His will shall be done. No weapons formed shall prosper.

The Sandringham Mystery Grosvenor House Publishing

During the early twentieth century, a diverse group of African American women carved out unique niches for themselves within New York City’s expansive informal economy. LaShawn Harris illuminates the labor patterns and economic activity of three perennials within this kaleidoscope of underground industry: sex work, numbers running for gambling enterprises, and the supernatural consulting business. Mining police and prison records, newspaper accounts, and period literature, Harris teases out answers to essential questions about these women and their working lives. She also offers a surprising revelation, arguing that the burgeoning underground economy served as a catalyst in working-class black women’s creation of the employment opportunities, occupational identities, and survival strategies that provided them with financial stability and a sense of labor autonomy and mobility. At the same time, urban black women, all striving for economic and social prospects and pleasures, experienced the conspicuous and hidden dangers associated with newfound labor opportunities.

Pleasure Activism Entangled: Amara

How do we make social justice the most pleasurable human experience? How can we awaken within ourselves desires that make it impossible to settle for anything less than a fulfilling life? Editor adrienne maree brown finds the answer in something she calls “Pleasure Activism,” a politics of healing and happiness that explodes the dour myth that changing the world is just another form of work. Drawing on the black feminist tradition, including Audre Lourde’s invitation to use the erotic as power and Toni Cade Bambara’s exhortation that we make the revolution irresistible, the contributors to this volume take up the challenge to rethink the ground rules of activism. Writers including Cara Page of the Astraea Lesbian Foundation For Justice, Sonya Renee Taylor, founder of *This Body Is Not an Apology*, and author Alexis Pauline Gumbs cover a wide array of subjects—from sex work to climate change, from race and gender to sex and drugs—they create new narratives about how politics can feel good and how what feels good always has a complex politics of its own. Building on the success of her popular *Emergent Strategy*, brown launches a new series of the same name with this volume, bringing readers books that explore experimental, expansive, and innovative ways to meet the challenges that face our world today. Books that find the opportunity in every crisis!

All over the world, men as well as women exchange sex for money and other forms of reward, sometimes with other men and sometimes with women. In contrast to female prostitution, however, relatively little is known about male sex work, leaving questions unanswered about the individuals involved: their identities and self-understandings, the practices concerned, and the contexts in which they take place. This book updates the ground-breaking 1998 volume of the same name with an entirely new selection of chapters exploring health, social, political, economic and human rights issues in relation to men who sell sex. Looking at Europe, North America, Latin America and the Caribbean, Africa and the Asia-Pacific, each chapter explores questions such as: What is known about the different ways in which men exchange sex for money or other forms of reward? What are the major contexts in which sexual exchange takes place? What meanings do such practices carry for the different partners involved? What are the health and other implications of contemporary forms of male sex work? *Men Who Sell Sex* seeks to push the boundaries both of current personal and social understandings and the practices to which these give rise. It is an important reference work for academics and researchers interested in sex work and men’s health including those working in public health, sociology, social work, anthropology, human geography and development studies.

Sylvia Plath Day by Day, Volume 1 Kings Road Publishing

When gays had to be closeted, ships were the only places where homosexual men could not only be out but also camp. And on some liners to the sun and the New World, queens and butches had a ball. They sashayed and minced their way across the world’s oceans. Never before has the story been told of the masses. These are the thousands of queer seafarers, mainly stewards, who sometimes even outnumbered the straight men in the catering departments of ships that were household names and the pride of the British fleet. *Hello Sailor!* uniquely shows what it was like to be queer at sea at a time when land meant straightness.
