Through 18 chapters, this book draws on policy lessons from successful countries that have managed to overcome political economy constraints and reach upper-middle-income emerging market economy status to examine how Senegal can achieve per capita growth rates of four to five percent per year over a 20-year period, as well as lessons for other low-income countries. Contributors working in academia, civil society, and government in Senegal, as well as at the World Bank, in peer countries like Mauritius, Morocco, and Seychelles, and the International Monetary Fund, address creating a sound, balanced, and efficient fiscal framework through new revenue-raising measures, expenditure rationalization, and more efficient public investment; promoting an inclusive and deeper financial sector; relieving constraints on doing business and promoting private investment, including foreign direct investment; and achieving high, sustained, and inclusive growth. They discuss Senegal's macroeconomic environment and what it means to be an upper-middle-income emerging market economy, including the country's industrial framework, the Plan Senegal

emergent growth targets, and dimensions of inclusive growth; revenue mobilization, public expenditure efficiency and rationalization, and debt sustainability; ways to make Senegal's financial system more stable, deeper, and more inclusive in the context of the West African Economic and Monetary Union; aspects of structural reform in the country and ways to implement reforms to achieve growth; and social inclusion and protection in Senegal.

With the adoption of the Lisbon Treaty, the profile of human rights issues has greatly risen in relation to EU policies, whether internal or external. The EU has thereby made the commitment to ensure that all its actions are compliant with human rights, and seek to promote them. Yet, the EU's commitment has

come under scrutiny, not only for its ground-breaking character, but also because recent events have put it to the test. This volume has been designed to take stock of these developments, to comprehensively discuss the conceptualization and operationalization of the EU's commitment to human rights throughout the EU's relationships, policies, actions and legislative activity, and to critically assess its outcome. This title is divided into four parts:

'Framework' presents the issues related to human rights promotion by the EU; 'Actors' delves into the relationships that play a part, at home or abroad, in regards to human rights policies and judgements; 'Policies' takes a case-study approach and systematically reviews a range of EU internal and external policies to assess their human rights impact and implementation; and finally, 'Strategies' provides an integrated assessment of the design and implementation of the EU's commitment to human rights. This book brings together essays from around the world, each discussing different aspects of EU commitment, and evaluating the extent to which the EU is delivering on it. Each chapter provides an introduction to the state of affairs, discusses opportunities and challenges, and provides recommendations. As such, it is an essential reference book on human rights policies throughout the EU and their impact throughout the world.

The EU Fundamental Rights Agency (FRA) was established to provide evidence-based policy advice to EU institutions and Member States. By blending social science research with traditional normative work, it aims to influence human rights policy processes

through new ways of framing empirical realities. The contributors to this volume critically examine the experience of the Agency in its first decade, exploring FRA's historical, political and legal foundations and its evolving record across major strands of EU fundamental rights. Central themes arising from these chapters include consideration of how the Agency manages the tension between a mandate to advise and the more traditional approach of human rights bodies to 'monitor', and how its research impacts the delicate equilibrium between these two contesting roles. FRA's experience as the first 'embedded' human rights agency is also highlighted, suggesting a role for alternative and less oppositional orientations for human rights research. While authors observe the benefits of the technocratic approach to human rights research that is a hallmark of FRA's evidence-based policy advice, they also note its constraints. FRA's policy work requires a continued awareness of political realities in Brussels, Member States, and civil society. Consequently, the complex process of determining the Agency's research agenda reflects the strategic priorities of key actors. This is an important factor in the Agency's role in the EU human rights landscape. This pioneering position of the Agency should invite reflection on new forms of institutionalized human rights research for the future.

Speak With Confidence John Wiley & Sons

Have you ever shied away from a project presentation in your class? Have you ever made silly excuses to avoid a seminar presentation at your work place? Have you ever admired someone and wished that if you could speak like him/her? If you are like most people,

speaking in public sends shivers down your spine. Many of you would like to avoid this problem entirely by finding some excuses, but this is hard to do in today's competitive world. Whether we study or work, eventually, we will need to speak in public to get certain tasks accomplished or make our ideas heard. It could be your project presentation in the class room, or doing a welcome speech at the School Annual day functions, or doing a short presentation at your office, or it could be attending an interview, eventually you will have to face the public. It's also difficult to get very far, either professionally or socially, without being able to speak well in public. 'Speak With Confidence' is a book for all levels of public speaking competency: beginner, intermediate and advanced. Written using several examples and powerful narration, this book is a wholesome learning material for public speaking. This book begins with the most essential component of public speaking - Confidence. The author explains the various ways in which readers can improve their confidence so that once they go on stage, they have no fear. Whether you want to improve your performance in sales, leadership, interpersonal skills, communications, presentations or customer service, you'll find resources here that perfectly work for you. Public speaking can be a scary thing the first few times you try it, but people who speak often have a few tricks that help improve their performance. In this book you will learn how to prepare a winning speech, deliver it with maximum impact, and leave a lasting impression on the audience. More than what you speak, what is crucial is how you speak and hence delivery is the most important factor in public speaking. "Speak with Confidence" could answer

many of your queries, anxieties and doubts about public speaking. The chapter on 'Writing and Delivering a speech' will help you to write and deliver a powerful speech. There are chapters on delivering impromptu speeches which will provide you tools, tips and strategies to speak at short notice anywhere. There are speeches for various occasions; you could use some of the strategies when you emcee or organize events at your work place, neighborhood or school. Public speaking is an art that will always remain important and relevant to you, any time anywhere. The author shares his personal story of joining a Toastmasters club in Singapore to learn to speak to strangers on topics other than his professional subjects. Be amazed at how you can unleash your true potential and be able to enthral, entertain, engage and enlighten any audience.

This open access volume of the AIDA Europe Research Series on Insurance Law and Regulation offers the first comprehensive legal and regulatory analysis of the Insurance Distribution Directive (IDD). The IDD came into force on 1 October 2018 and regulates the distribution of insurance products in the EU. The book examines the main changes accompanying the IDD and analyses its impact on insurance distributors, i.e., insurance intermediaries and insurance undertakings, as well as the market. Drawing on interrelations between the rules of the Directive and other fields that are relevant to the distribution of insurance products, it explores various topics related to the interpretation of the IDD - e.g. the harmonization achieved under it; its role as a benchmark for national legislators; and its interplay

with other regulations and sciences - while also providing an empirical analysis of the standardised pre-contractual information document. Accordingly, the book offers a wealth of valuable insights for academics, regulators, practitioners and students who are interested in issues concerning insurance distribution.--

"Demographic dividend, as defined by the United Nations Population Fund (UNFPA) means, ""The economic growth potential that can result from shifts in a population's age structure, mainly when the share of the working-age population (15 to 64) is larger than the non-working-age share of the population (14 and younger, and 65 and older)."" In other words, it is a boost in economic productivity that occurs when there are growing numbers of people in the workforce relative to the number of dependents. UNFPA stated, ""A country with both increasing numbers of young people and declining fertility has the potential to reap a demographic dividend." Due to the dividend between young and old, many argue that there is a great potential for economic gains, which has been termed the ""demographic gift"". In order for economic growth to occur, the younger population must have access to quality

education, adequate nutrition and health including access to sexual and reproductive health. In near future India will be the largest individual contributor to the global demographic transition. A 2011 International Monetary Fund Working Paper found that substantial portion of the growth experienced by India since the 1980s is attributable to the country's age structure and changing demographics. By 2026, India's average age would be 29, which is least among the global average."

Nonprofit leadership is messy Nonprofits leaders are optimistic by nature. They believe with time, energy, smarts, strategy and sheer will, they can change the world. But as staff or board leader, you know nonprofits present unique challenges. Too many cooks, not enough money, an abundance of passion. It's enough to make you feel overwhelmed and alone. The people you help need you to be successful. But there are so many obstacles: a micromanaging board that doesn't understand its true role; insufficient fundraising and donors who make unreasonable demands; unclear and inconsistent messaging and marketing; a leader who's a star in her sector but a difficult boss... And yet, many nonprofits do thrive. Joan Garry's *Guide to Nonprofit Leadership* will show you how to do just that. Funny, honest, intensely actionable, and based on her decades of experience, this is the book Joan Garry wishes she had when she led GLAAD out of a financial crisis in 1997. Joan will teach you how to: Build a powerhouse board Create an impressive and sustainable fundraising program Become seen as a 'workplace of choice' Be a compelling public face of your

nonprofit This book will renew your passion for your mission and organization, and help you make a bigger difference in the world.

Boston Whalers are the quintessential American motorboats. Born from innovation, risk, and above all hard work, their reputation for reliability, fun, and safety has changed the way the people go boating. The first Whalers hit the water in 1958, but the "Unsinkable Legend" was created with a daring launch in 1961, when Boston Whaler founder Richard "Dick" Fisher sawed a boat in half before the cameras of Life magazine -- and then piloted the back half of the hull around Wompatuck Pond in Hanson, Massachusetts. People were shocked and delighted, and the company made its mark on the history of boating by proving that it had created something altogether new and absolutely unsinkable. *Unsinkable: The History of Boston Whaler* is the first book to tell the story of these iconic boats. Published to celebrate the company's 60th anniversary, author Matthew Plunkett relays a fascinating and engaging tale beginning with how Dick Fisher came to create Boston Whaler and then detailing how the company evolved over the decades. From the original 13' hull, unflatteringly known as the "blue bathtub," to its current flagship, the 420 Outrage, this book covers the whole story of a truly

American company. Drawing on dozens of interviews with employees who were there in the plants, at the dealerships, and on the boats, *Unsinkable: The History of Boston Whaler* is filled with previously untold stories as well as never before published images, including photos from the families of Dick Fisher and legendary designer Bob Dougherty, Mr. Unsinkable himself. This intimate look into the creation, culture, and ongoing legacy of Boston Whaler reveals just how influential this company has been both within the industry and for its legions of diehard fans around the world.

This novel belongs to the genre of Philosophical Fiction. Philosophical Fiction is the pastiche of the Baroque, the Cubism of Picasso and the rhythms of jazz. Aesthetics, Philosophy and autobiography all weave into a tapestry of idiosyncratic catharsis. As a novel, this work is an oeuvre of art. This novel bridges passion and reason into an eclectic fusion of art.
