Depending on how a document is written, a notarization serves to affirm the identity of a signer and the fact that they personally executed their signature. A notarization, or notarial act, officially documents the identity of a party to a document or transaction and the occasion of the signing that others can rely upon, usually at face value. A notary's authentication is intended to be reliable,

to avoid the inconvenience of having to locate a signer to have them personally verify their signature, as well as to document the execution of a document perhaps long after the lifetime of the signer and the notary. An oath is a sworn statement. In most cases a person will swear that a written statement, oral statement, or testimony they are about to give is true. A notary can document that the notary administered an oath to an individual. **Loan Disbursement Handbook** Asian Development Bank An encyclopedic view of doing business with Taiwan. Amazon Best Seller in Architecture History & Periods Amazon Best Seller in Art Subjects & Themes Seeing the World Through Shape How do humans make sense of the world? In answer to this timeless

question, award winning documentary filmmaker, Lois Farfel Stark, takes the reader on a remarkable journey from tribal ceremonies in Liberia and the pyramids in Egypt, to the gravity-defying architecture of modern China. Drawing on her experience as a global explorer, Stark unveils a crucial, hidden key to understanding the universe: Shape itself. The Telling Image is a stunning synthesis of civilization's changing mindsets, a brilliantly original perspective urging you to re-envision history not as a story of kings and wars but through the lens of shape. In this sweeping tour through time, Stark takes us from migratory humans, who imitated a web in round-

thatched huts and stone circles, to the urban ladder of pyramids and skyscrapers, organized by hierarchy and measurements, to today's world of interconnected networks. In *The Telling Image* Stark reveals how buildings, behaviors, and beliefs reflect humans' search for pattern and meaning. We can read the past and glimpse the future by watching when shapes shift. Stark's beautifully illustrated book asks of all its readers: See what you think. *Koehler V. Ellison* World Trade Press The Financial Crisis Inquiry Report, published by the U.S. Government and the Financial Crisis Inquiry Commission in early 2011, is the official

government report on the United States financial collapse and the review of major financial institutions that bankrupted and failed, or would have without help from the government. The commission and the report were implemented after Congress passed an act in 2009 to review and prevent fraudulent activity. The report details, among other things, the periods before, during, and after the crisis, what led up to it, and analyses of subprime mortgage lending, credit expansion and banking policies, the collapse of companies like Fannie Mae and Freddie Mac, and the federal bailouts of Lehman and AIG. It also discusses the aftermath of the fallout

and our current state. This report should be of interest to anyone concerned about the financial situation in the U.S. and around the world. THE FINANCIAL CRISIS INQUIRY COMMISSION is an independent, bipartisan, government-appointed panel of 10 people that was created to "examine the causes, domestic and global, of the current financial and economic crisis in the United States." It was established as part of the Fraud Enforcement and Recovery Act of 2009. The commission consisted of private citizens with expertise in economics and finance, banking, housing, market regulation, and consumer protection. They examined and reported on "the

collapse of major financial institutions that failed or would have failed if not for exceptional assistance from the government." News Dissector DANNY SCHECHTER is a journalist, blogger and filmmaker. He has been reporting on economic crises since the 1980's when he was with ABC News. His film In Debt We Trust warned of the economic meltdown in 2006. He has since written three books on the subject including Plunder: Investigating Our Economic Calamity (Cosimo Books, 2008), and The Crime Of Our Time: Why Wall Street Is Not Too Big to Jail (Disinfo Books, 2011), a companion to his latest film Plunder The Crime Of Our Time. There is a fundamental reason, the authors of this book contend, why national financial systems falter and collapse: the failure of central banks and

other supervisory authorities to deal promptly and decisively with insolvent banks. In *Preventing Financial Chaos*, Ramsey and Head, both well-known to the international banking community for their restructuring services in developing and transitional economies, take a no-nonsense attitude and show exactly how to usher a problem bank out of the financial system in any country. Their clearly defined rules and procedures build disciplined, competent action that activates political will and successfully curtails systemic chaos. With this nuts-and-bolts guide, policymakers, legislators, central bank officials, and representatives of

international financial institutions will be able to achieve the following: recognize, monitor and resolve bank failures; conduct timely and orderly closing of problem banks; and develop national legislation to prevent the spread of bank insolvency. The authors' firmly-held convictions about which choices should be made and why is sure to launch an important debate among lawyers, bankers and academics--a debate which will inevitably focus much-needed attention on one of the most urgent problems in today's interdependent world economic order.

The Department of Licensing has worked to keep the notary public application process as simple as possible. A prospective notary need only submit a complete application, proof of a \$10,000 surety bond, and appropriate fees to the Department of Licensing in order to begin the process. Once an applicant has completed all application requirements and proven that he or she is eligible, the Department will have a new certificate of

commission mailed out promptly. New in 2018, notaries public can also apply for an electronic records notary public endorsement, which allows the notary to perform notarial acts on electronic documents as well as paper documents. The application process is similar to the application process for the commission, and can be done at the same time or separately.
