For the past three decades, many history professors have allowed their biases to distort the way America's past is taught. These intellectuals have searched for instances of racism, sexism, and bigotry in our history while downplaying the greatness of America's patriots and the achievements of "dead white men." As a result, more emphasis is placed on Harriet Tubman than on George Washington; more about the internment of Japanese Americans during

World War II than about D-Day or Iwo Jima; more on the dangers we faced from Joseph McCarthy than those we faced from Josef Stalin. A Patriot's History of the United States corrects those doctrinaire biases. In this groundbreaking book, America's discovery, founding, and development are reexamined with an appreciation for the elements of public virtue, personal liberty, and private property that make this nation uniquely successful. This book offers a long-overdue acknowledgment of America's true and proud history. Touchstone Level 4 Full Contact Thomas Nelson Inc Viewpoint is an innovative course that's based on

extensive research into the Cambridge English Corpus, taking students from a high intermediate to advanced level of proficiency (CEFR: B2 to C1). Viewpoint Level 2 Student's Book is for young adult and adult students who have reached the advanced level of English proficiency (C1). Each of the 12 units in this level teaches the language, skills, and strategies

that students need to progress beyond upper-intermediate level and to speak and write in English naturally, effectively, and appropriately. From the same author team as the groundbreaking Touchstone series, Viewpoint also draws on the Cambridge International Corpus which underpins a highly effective approach to teaching English language.
