How far would you go to find yourself?

Imagine everything you thought you

knew about yourself turned out to be a

lie, and you didn't know who was telling

the truth. Imagine you possessed a

secret so dangerous that, if it were

exposed, it would reshape the entire

world. What would you do if that secret

were your very identity? In almost every

way, Palo Vista seems like a typical

California city, with office buildings,

schools, and homes sprawled out across

suburbia, filled with families making a

life for themselves at the dawn of the

new millennium. But two seniors at Mt.

MacMurray High are about to find out that nothing is as it seems. Jason Nix is a star athlete and honors student who can't seem to remember anything about his childhood. Elyse Van Auten is a budding artist from a broken home whose father left her mother two years ago - or so she's been led to believe. Like most teens entering adulthood, Elyse and Jason just want to find out who they really are. For them, however, the stakes go far beyond their own personal quest. Join them on a journey of self-discovery that becomes a desperate fight for survival against enemies determined to conceal the truth ... and find out what happens when that fight becomes personal.

The Memoirs of Juan Goytisolo, 1957-1982 Grand Central Publishing
From the New York Times Bestselling Author and Co-Star of Fox's American Grit comes a rare and powerful book on the art of being a sniper. Way of the Reaper is a step-by-step accounting of how a sniper works, through the lens of Irving's most significant kills - none of which have been told before. Each mission is an in-depth look at a new element of eliminating the enemy, from intel to luck, recon to weaponry. Told in a thrilling narrative, this is also a heart-pounding true story of some of The Reaper's boldest missions including the

longest shot of his military career on a human target of over half a mile. In Iraq and Afghanistan, Nick Irving earned his nickname in blood, destroying the enemy with his sniper rifle and in deadly firefights behind a .50 caliber machine gun. He engaged a Taliban suicide bomber during a vicious firefight, used nearly silent sub-sonic ammo, and was the target of snipers himself. Way of the Reaper attempts to place the reader in the heat of battle, experiencing the same dangers, horrors and acts of courage Irving faced as an elite member of the 3rd Ranger Battalion, 75th Ranger Regiment, while also examining the personal ramifications of taking another life. Readers will experience the rush of the hunt and the dangers that all snipers must face, while learning what it takes to become an elite manhunter. Like the Reaper himself, this explosive book blazes new territory and takes no prisoners.

300 Outrageous Facts Scholastic Inc.

'I have quite fallen for Adam -- his stylish waistcoat, encyclopaedic knowledge and use for everything -- and constantly find myself thinking "What Would Adam Do?" as I go about my daily gardening business.' Alys Fowler In the 1940s, Adam the Gardener was a national treasure. Each week in the Sunday Express he advised gardeners exactly what to plant and how - from carrots in the fourth week of May (but 'do this after sunset, when there is less chance of trouble from the carrot fly') to lily of the valley in the fourth week of November. Accompanied by wonderful illustrations, Adam's charm and expertise won over thousands. Here, the weekly world of Adam the Gardener has been brought back to life for today's gardener, who will be just as readily captivated by his quiet reliability and peerless knowledge. As well as techniques - pruning and potting, forcing and grafting - and planting instructions for an impressive range of flowers, fruits and vegetables, also learn how to plan a new garden, what gadgets you will need (including an earwig trap) and all about colour harmony in the garden. This is a period gem that will delight and inform enthusiasts of all kinds.

Rebecca Rusch is one of the great endurance athletes of our time. Known today as the Queen of Pain for her perseverance as a relentlessly fast runner, paddler, and mountain bike racer, Rusch was a normal kid from

Chicago who abandoned a predictable life for one of adventure. In her new book *Rusch to Glory: Adventure, Risk & Triumph on the Path Less Traveled*, Rusch weaves her fascinating life's story among the exotic locales and extreme conditions that forged an extraordinary athlete from ordinary roots. Rusch has run the gauntlet of endurance sports over her career as a professional athlete - climbing, adventure racing, whitewater rafting, cross-country skiing, and mountain biking--racking up world championships along the way. But while she might seem like just another superhuman playing out a fistful of aces, her empowering story proves that anyone can rise above self-doubt and find their true potential. First turning heads with her rock climbing and paddling skills, Rusch soon found herself spearheading adventure racing teams like Mark Burnett's Eco-Challenge series. As she fought her way through the jungles of Borneo, raced camels across Morocco, threaded the rugged Tian Shan mountains, and river-boarded the Grand Canyon in the dead of winter, she was forced to stare down her own demons. Through it all, Rusch continually redefined her limits, pushing deep into the pain cave and emerging ready for the next great challenge. At age 38, Rusch faced a tough decision: retire or reinvent herself yet again. Determined to go for broke, she shifted her focus to endurance mountain bike racing and rode straight into the record books at a moment when most athletes walk away. *Rusch to Glory* is more than an epic story of adventure; it is a testament to the rewards of hard work, determination, and resilience on the long road to personal and professional triumph.
