when the earth was still young, before the fish in the sea and all the living things on land began to
be destroyed, a man named William Buelow Gould was sentenced to life imprisonment at the most
feared penal colony in the British Empire, and there ordered to paint a book of fish. He fell in love
with the black mistress of the warder and discovered too late that to love is not safe; he attempted
to keep a record of the strange reality he saw in prison, only to realize that history is not written by
those who are ruled. Acclaimed as a masterpiece around the world, Gould's Book of Fish is at once a
marvelously imagined epic of nineteenth-century Australia and a contemporary fable, a tale of
horror, and a celebration of love, all transformed by a convict painter into pictures of fish.

A Story of Loss, Love, and the Hidden Order of Life Hachette Books

The classic YA novel RUMBLE FISH, written by celebrated novelist S.E. Hinton and immortalized by
legendary film maker Francis Ford Coppola, now available as an eBook for the first time. Rusty
James wants to be just like his big brother Motorcycle Boy - tough enough to be respected by
everyone in the neighborhood. But Motorcycle Boy is also smart, so smart that Rusty James relies on
him to bail him out of trouble. The brothers are inseparable, and Motorcycle Boy will always be there
to watch his back, so there's nothing to worry about, right? Or so Rusty James believes, until his
world falls apart and Motorcycle Boy isn't there to pick up the pieces. From the author of THE
OUTSIDERS, S.E. Hinton looks into a world where hope is hard to find, and violence is a fact of life.
"Stylistically superb. . . . This packs a punch that will leave readers of any age reeling."—School
Library Journal "Sharper in focus and more mature in style than Hinton's The Outsiders."—Booklist

THE INSTANT #1 NEW YORK TIMES BESTSELLER "Sparkling with mystery, humor and the uncanny,
this is a fun read. But beneath its effervescent tone, more complex themes are at play." —San
Francisco Chronicle In his wildly entertaining debut novel, Hank Green—cocreator of Crash Course,

Vlogbrothers, and SciShow—spins a sweeping, cinematic tale about a young woman who becomes
an overnight celebrity before realizing she's part of something bigger, and stranger, than anyone
could have possibly imagined. The Carls just appeared. Roaming through New York City at three
a.m., twenty-three-year-old April May stumbles across a giant sculpture. Delighted by its appearance
and craftsmanship—like a ten-foot-tall Transformer wearing a suit of samurai armor—April and her
best friend, Andy, make a video with it, which Andy uploads to YouTube. The next day, April wakes
up to a viral video and a new life. News quickly spreads that there are Carls in dozens of cities
around the world—from Beijing to Buenos Aires—and April, as their first documentarian, finds herself
at the center of an intense international media spotlight. Seizing the opportunity to make her mark
on the world, April now has to deal with the consequences her new particular brand of fame has on
her relationships, her safety, and her own identity. And all eyes are on April to figure out not just
what the Carls are, but what they want from us. Compulsively entertaining and powerfully relevant,
An Absolutely Remarkable Thing grapples with big themes, including how the social internet is
changing fame, rhetoric, and radicalization; how our culture deals with fear and uncertainty; and
how vilification and adoration spring for the same dehumanization that follows a life in the public
eye. The beginning of an exciting fiction career, *An Absolutely Remarkable Thing* is a bold and
insightful novel of now.

An "excellent" (The New York Times) modern tribute to an ageless pastime, and a practical guide to
the art, philosophy, and rituals of fly fishing, by an expert, lifelong angler. In *The Optimist*, David
Coggins makes a case for the skills and sensibility of an enduring sport and shares the secrets,
frustrations, and triumphs of the great tradition of fly fishing, which has captivated anglers
worldwide. Written in wry, wise, and keenly observed prose, each chapter focuses on a specific
place, fish, and skill. Few individuals, for example, have the visual acuity required to catch the
nearly invisible bonefish of the Bahamas flats. Or the patience to land the elusive Atlantic salmon,
"the fish of a thousand casts," in eastern Canada. Pursuing these challenges, Coggins, "a confirmed
obsessive," travels to one fishing paradise after another, including the great rivers of Patagonia,
private chalk streams in England, remote ponds in Maine, and New York City's Jamaica Bay. In each
setting, he chronicles his fortunes and misfortunes with honesty and humor while meditating on how
fishing teaches focus, inner stillness, and a connection to the natural world. Perfect for the novice,
the enthusiastic amateur, and the devoted angler alike, *The Optimist* offers a practical path to
enlightenment while providing "a rueful, thoughtful, and very funny examination of an elegant
obsession" (Jay McInerney).

A NEW YORK TIMES BESTSELLER "Remarkable." --Andrew Solomon, The New York Times Book Review "At once a rigorous work of scholarship and a radical act of empathy." --Esquire "A ray of light into those isolated cocoons of darkness that, at one time or another, may afflict us all." --The Wall Street Journal "Essential." --The Boston Globe A landmark exploration of one of the most consequential and mysterious issues of our time: the rise of chronic illness and autoimmune diseases A silent epidemic of chronic illnesses afflicts tens of millions of Americans: these are diseases that are poorly understood, frequently marginalized, and can go undiagnosed and unrecognized altogether. Renowned writer Meghan O'Rourke delivers a revelatory investigation into this elusive category of "invisible" illness that encompasses autoimmune diseases, post-treatment

Lyme disease syndrome, and now long COVID, synthesizing the personal and the universal to help all of us through this new frontier. Drawing on her own medical experiences as well as a decade of interviews with doctors, patients, researchers, and public health experts, O'Rourke traces the history of Western definitions of illness, and reveals how inherited ideas of cause, diagnosis, and treatment have led us to ignore a host of hard-to-understand medical conditions, ones that resist easy description or simple cures. And as America faces this health crisis of extraordinary proportions, the populations most likely to be neglected by our institutions include women, the working class, and people of color. Blending lyricism and erudition, candor and empathy, O'Rourke brings together her deep and disparate talents and roles as critic, journalist, poet, teacher, and patient, synthesizing the personal and universal into one monumental project arguing for a seismic shift in our approach to disease. *The Invisible Kingdom* offers hope for the sick, solace and insight for their loved ones, and a radical new understanding of our bodies and our health.

In this third installment in the popular *Fish!* series, the authors examine change as a necessary, ongoing process that should never stop--at least not if one wants to keep the workplace vital and fully alive. Using a fictitious sushi restaurant as an example, this fable examines the three principles that Lundin, Christensen, and Paul believe are necessary for continuing success: Find It ("it" being each employee's personal vision of the business), Live It, and Coach It. Readers of the authors' previous books--*Fish! A Remarkable Way to Boost Morale and Improve Results* and *Fish! Tales*--should find its familiarity comforting. For those new to the series, this standalone volume is easy to read and highly valuable. --David Bombeck

A Wrinkle in Time is the winner of the 1963 Newbery Medal. It was a dark and stormy night—Meg Murry, her small brother Charles Wallace, and her mother had come down to the kitchen for a midnight snack when they were upset by the arrival of a most disturbing stranger. "Wild nights are my glory," the unearthly stranger told them. "I just got caught in a downdraft and blown off course. Let me sit down for a moment, and then I'll be on my way. Speaking of ways, by the way, there is such a thing as a tesseract." A tesseract (in case the reader doesn't know) is a wrinkle in time. To tell more would rob the reader of the enjoyment of Miss L'Engle's unusual book. A Wrinkle in Time, winner of the Newbery Medal in 1963, is the story of the adventures in space and time of Meg, Charles Wallace, and Calvin O'Keefe (athlete, student, and one of the most popular boys in high school). They are in search of Meg's father, a scientist who disappeared while engaged in secret work for the government on the tesseract problem.
