help make it better.

*Chevelle Restoration and Authenticity Guide 1970-1972* Complete Book

The high-water mark of the muscle car era is usually credited as 1970, and for good reason; Chevrolet was now stuffing high-powered 454 engines into Chevelles. Adding a larger displacement above the still-available 396 (402) offered buyers the option to order the most powerful production car of that era. The 1970-1972 Chevelles remain the most collectible of the model to this day. Author and historian Dale McIntosh pairs with restoration expert Rick Nelson to provide this bible of authenticity on the legendary 1970, 1971, and 1972 Chevelle models. Everything about restoring your Chevelle back to bone-stock is covered meticulously, including step-by-step instructions for chassis and interior restoration. Understanding date variances on parts applicable to the build date of your Chevelle is vital to a factory-correct restoration, and including them in this book provides a depth of coverage on these cars that is unequalled. Restoring a 1970-1972 Chevelle back to concours correct takes a certain amount of expertise. Thankfully, Rick and Dale have done a lot of the heavy lifting on the research side. With this authenticity guide, you can be confident that you have all the

correct components and options accurately and expertly represented for your stock restoration. These fine details put the Chevelle Restoration and Authenticity Guide 1970-1972 a cut above the rest.

Journey with me into the abyss, a world far more dangerous than space! What's this book about? Life. Death. Imminent danger.

Unexpected reprieve. Victory. Defeat. Success. Failure. Thermo-nuclear war. True love. Loss. High drama. Low comedy. Ronald Reagan. Mikhail Gorbachev. And Bond, James Bond. They're all here. Ninety amazing and entirely true tales of swash-buckling adventure on the sea and beneath it, as a boy grows into manhood steadfastly pursuing his lifelong dream, wins a million-to-one shot to become a Hydronaut, and lives a life of high adventure undersea exploring the abyss, a world far more dangerous than space. The author states: I have been trapped on the seafloor twice. Deluged by flooding as I dove a submarine to its maximum depth. In control of a submerged submarine on fire. Alone on a sinking boat at night, bailing to stay alive. Out of air with empty lungs while diving 90 feet down. Next to a fool about to light his cigarette as we stood on 66,000 gallons of high-octane gasoline. And I have had the chance to do and see amazing things, enough for ten lives. I have sailed 100,000 miles in submarines, dove more than three miles to the abyssal seafloor of the Pacific, and explored an alien world far more dangerous than space. I have gone to places on Earth no one else ever will. I found the first naval aviator ever recovered from the abyss. I mapped the wreckage of USS Thresher. And I held thermonuclear targeting steady on Mother Russia as President Reagan met Gorbachev in Reykjavik. In this book, I tell those stories and more, 90 stories of a life spent undersea. These are the good parts, cooked down to short tales you can read on a bus, a lunch break, or in your bunk before lights out. Join me. I will take you places no one else can. You will survive, I promise, and have a good time along the way. So come on-dive in!" e; At turns gripping, compelling, and simply enchanting, Vetter's 30,000 Leagues Undersea is a door straight into a breathtaking world few human beings have ever touched ... or ever will." e; -- Holly Lisle. 30,000 Leagues Undersea. Fiction adventures Jules Verne might have written. But I lived them.
