 In Songwriting For Geniuses, singer/songwriter Gene Burnett offers 25 tips to aspiring songwriters for writing better, more satisfying songs. The author's contention is that within each of us is a place that knows when a song works and when it does not.

This place of knowing is called many things: intuition, spirit, the unconscious. Burnett calls it your "genius," and it is to this inner genius that this book is addressed. A song that works, claims Burnett, is one that releases a "charge," first for the writer and then for the listener. With Burnett's simple and practical tips, you will learn to recognize this release as a guiding and shaping force in the songwriting process.

My mind was spinning at this point. Here I was - someone who grew up not believing in ghosts, a veteran journalist used to questioning everything - apparently having a conversation with a captain who fought at Gettysburg more than 150 years ago. Was it really possible? Was this some gigantic, wildly ingenious incredible hoax, or was this conversation somehow real? And what was it that brought me - a once dyed-in-the-wool paranormal doubter - to this haunted bridge in search of ghosts? - Don Allison After years of experiences that he could not rationally explain -- experiences that many people encounter, and do shrug off or rationalize - award winning newspaper editor and columnist Don Allison decided to search for answers. Experiences that Don and his grandson experienced in Gettysburg in the spring of 2015 finally convinced Don to present this serious look at the paranormal.. This is what noted paranormal investigator and historian Mark Nesbitt, author of the "Ghosts of Gettysburg" series of books, has to say about "I Met a Ghost at Gettysburg": "A great read. Very entertaining ... I think you've created an "Everyman's" explanation of paranormal experiences. Most people ignore or rationalize away true paranormal events. Your book covers the many types of paranormal events AS paranormal events, and explains how you came (reluctantly, in some cases) to those conclusions." Ghosts busted: Beyond the Fear Testimony throughout recorded history proves beyond a reasonable doubt that ghosts, or energy giving us the impression of ghosts, do indeed exist. People of impeccable reputations, with no reason to lie, have sworn to paranormal encounters. For whatever reason - perhaps fear, perhaps superstition - many people refuse to even

consider the possibility of ghosts. In fact, they will go on the attack against those who do share their experiences. Veteran award-winning daily newspaper editor Don Allison used to be among those devout skeptics, even going so far as to doubt his own grandmother's claims of experiences in a haunted house. But after encountering the unexplained many times, he reluctantly concluded he indeed had experienced the paranormal. Eventually, after what he described as a mind-blowing paranormal encounter at Gettysburg, Pa., he could contain his curiosity no longer. He decided to write about his experiences, and to go a step further - to share the science behind what he had encountered. The result is the latest volume from Faded Banner Publications, "I Met a Ghost at Gettysburg: A Journalist's Journey into the Paranormal." Allison said fear of people's reactions to a book on this topic made him think long and hard before tackling this project. "Once I decided to proceed with this book," he explains, "I realized I could hold nothing back. I am treating the paranormal as I would any other topic. I am sharing my own experiences and what I have learned from research. I am passing on what other people have told me about the subject and in some cases their own perceptions of what I have experienced."  Known as the City of Monuments for its jaw-dropping skyline of ancient ruins, magnificent towers, and stunning sculptures, Magnimar embodies the spirit of Varisia more than any other great city. Yet with Magnimar's explosive growth over the last century, life in the City of Monuments has become an adventure in and of itself. With strange monsters lurking amid the ancient ruins that form the city's foundation, roving bands of thieves, smugglers, and murderers battling for control over the city's alleys, and the increasingly decadent attitudes of its oldest families, Magnimar lies at a crossroads. Will it succeed despite the obstacles thrown in its path, or is the City of Monuments doomed to crumble under the pressure of its own runaway success? This Pathfinder sourcebook explores the city of Magnimar (first featured in the now classic Rise of the Runelords Adventure Path) in great detail. Each city district has its own unique flavor and role, and comes with pages of details on industries and institutions, leisure and markets, and politics and entertainment.

Dozens of shops, taverns, guildhalls, and more await discovery, many of which are presented with additional adventure hooks, memorable NPCs, and inspirational bits of lore. Examinations of regions ripe for adventuring or sinister groups worthy of defeat, along with a robust bestiary featuring commonly encountered NPCs or monsters closely associated with the City of Monuments completes this book, which will be an invaluable addition to your upcoming Shattered Star Adventure Path.

How to read photographs: the new essential primer In 1973, John Szarkowski, the revered director of photography at the Museum of Modern Art, New York, published his classic volume *Looking at Photographs: 100 Pictures from the Collection of The Museum of Modern Art*, offering a wide-ranging and accessible history of photography and an engaging primer. Now, American photographer and educator Stephen Frailey has borrowed Szarkowski's concept and format for his new book, *Looking at Photography: 100 great images and a page of text for each*. Frailey picks up where Szarkowski left off, updating the project to take stock of significant photographs from the early 1980s to the present day. Through a focused discussion on each individual work, Frailey articulates the themes and emerging sensibility of contemporary photography. Artists featured in this volume include Tina Barney, Jeff Wall, Steven Meisel, Nan Goldin, Helmut Newton, Martin Parr, Tim Walker and Wolfgang Tillmans, among others. Stephen Frailey (born 1957) is a photographer, writer, curator, editor and educator. His work has been shown, published

and collected internationally. He served as the Chair of Photography at the School of Visual Arts in New York from 1998 to 2018, and is the co-chair of its MPS Fashion Photography Program. In 2003 he founded the Auction for Photographic Education in Afghanistan to create a photography department at Kabul University. In 2007 he founded the photography magazine *Dear Dave*, and is its Editor in Chief. He is currently the Director of Education at Red Hook Labs.

When it comes to photography, it's all about the light. After spending more than thirty years behind the lens—working for National Geographic, Time, Life, and Sports Illustrated—Joe McNally knows about light. He knows how to talk about it, shape it, color it, control it, and direct it. Most importantly, he knows how to create it...using small hot shoe flashes. In *The Hot Shoe Diaries*, Joe brings you behind the scenes to candidly share his lighting solutions for a ton of great images. Using Nikon Speedlights, Joe lets you in on his uncensored thought process—often funny, sometimes serious, always fascinating—to demonstrate how he makes his pictures with these small flashes. Whether he's photographing a gymnast on the Great Wall, an alligator in a swamp, or a fire truck careening through Times Square, Joe uses these flashes to create great light that makes his pictures sing.

The seven shards of the Shattered Star have been recovered, and the Pathfinders prepare a grand festival on Magnimar's Irespan to celebrate this incredible achievement. The culmination of this celebration is to be the reassembly of the seven shards into the legendary Sihedron itself, rebuilt for the first time in over ten thousand years. But a lot can change in that amount of time, and as the ritual to reforge the artifact finishes, ancient contingencies rumble to life, and as the dead heart of Thassilon begins to beat once again, all of Magnimar is put in terrible danger. With the power of the Sihedron on their side, the heroes take a stance

against this risen evil - but will the aid of an ancient artifact be enough to save them all? The final chapter in the Shattered Star Adventure Path, *The Dead Heart of Xin* is a Pathfinder Roleplaying Game adventure for 15th-level characters. This volume also includes an essay on the ancient Runelords of Thassilon, complete with threads that reach to the modern day, plus new monsters fill the Pathfinder Bestiary and Bill Ward's Pathfinder Journal fiction concludes its exploration of the seedy underbelly of the scoundrel haven of Riddleport.

The source of any photograph is not the camera or even the scene viewed through the viewfinder-it is the mind of the photographer: this is where an image is created before it is committed to a memory card or film. In *The Photographer's Mind*, the follow-up to the international best-seller, *The Photographer's Eye*, photographer and author Michael Freeman unravels the mystery behind the creation of a photograph. The nature of photography demands that the viewer constantly be intrigued and surprised by new imagery and different interpretations, more so than in any other art form. The aim of this book is to answer what makes a photograph great, and to explore the ways that top photographers achieve this goal time and time again. As you delve deeper into this subject, *The Photographer's Mind* will provide you with invaluable knowledge on avoiding cliché, the cyclical nature of fashion, style and mannerism, light, and even how to handle the unexpected. Michael Freeman is the author of the global bestseller, *The Photographer's Eye*. Now published in sixteen languages, *The Photographer's Eye* continues to speak to photographers everywhere. Reaching 100,000 copies in print in the US alone, and 300,000+ worldwide, it shows how anyone can develop the ability to see and shoot great digital photographs. **Digital Asset Management for Photographers** Ammonite Press You will discover the answer to every human question ever yet, or to be, devised.
