Like children themselves, development is dynamic. In the chronologically organized *Child and Adolescent Development in Context*, award-winning author Tara L. Kuther frames development

research in real-life contexts, including gender, race and ethnicity, socioeconomic status, and more. Kuther presents highly relatable examples, vivid cross-cultural stories, and case studies of real individuals, consistently prompting students to reflect on chapter content with What do you think? questions. The book emphasizes three core themes: the centrality of context, the importance of research, and the applied value of developmental science; students will come away with an understanding of these themes that they will immediately be able to apply to their own lives and future careers. **INSTRUCTORS:** *Child and Adolescent Development in Context* is accompanied by a complete teaching and learning package!
