For the first time Calvin has published his Clinical Acupuncture Case Study book in English for clinicians and acupuncture students, 30 YEARS OF CLINICAL STUDIES This book is absolutely beautiful. It's easy for the beginner to read, understand, and follow.....the PERFECT pictorial atlas of acupuncture points. Not only has a description of each acu-point, but also has 3 different illustrations: graphic, overview of channels, and a photograph showing the acupuncture needle in position. I cannot say enough about this book." Chien AcupunctureAs a 3rd generation acupuncturist Calvin Chien has a lifetime of knowledge he utilizes in his acupuncture clinic daily. Chien's Acupuncture Clinic in Colorado Springs, CO continues to treat a variety of health concerns using traditional Chinese Medicine techniques including acupuncture, cupping, and herbal treatments. Calvin Chien diagnoses and treats his patients who suffer from numerous health concerns including chronic pain and the only practitioner and master in the fine art of "Master

Tung's Acupuncture" in Colorado. Provided patients with the highest level of care since opening his own practice in 1997. Master Tung's Points are fondly referred to as 'magic' because in most cases, these points deliver instant and lasting results. Less needling and long lasting results are not only preferable but also more effective. Since 2003 Calvin continues to teach at Master Tung's Acupuncture Association in Taiwan Special Instructor to Team USA Olympic medical staff, Colorado Springs, CO Team acupuncturist to MLB Los Angeles Dodgers, Los Angeles, CA Awards & Acknowledgements Authored three different books - "Clinical Acupuncture Case Study" that were published in Taiwan\*USA patent holder and inventor of the acupuncture device, Bio-Acueye Mechanic, in 2000

Although Master Tung's Acupuncture has been in the public domain since his untimely passing in 1975, very little information is available publicly on how to use the system in a practical and systematic way in English. In this book, I hope to guide my fellow colleagues into the intricacies of applying Master Tung Acupuncture in the clinic. Since I am also a practicing acupuncturist and deal

with pain, women's health, and internal medicine problems quite frequently, I am sharing my clinical experience in this book and the "secret" of creating the protocols that I use daily, with modification. I also attempt to explain why I choose a particular protocol and the modification to it. In this book, I introduce what I consider the "Best" of Master Tung's Acupuncture. There are many books on Master Tung's Acupuncture which introduce all of the 740 Tung family points. but often these books may be too much for the beginner and do not let the beginner grasp useful concepts or how to use Master Tung's Acupuncture immediately and effectively. Most acupuncturists simply add the Tung points to their already memorized TCM Acupuncture point prescriptions, and as a result, make a mess out of their acupuncture. They do not have a simple and elegant rationale for using the system. In my teaching of Master Tung's Acupuncture, I always choose points that are painless, easily accessible, and have powerful immediate results.

The first text on bloodletting therapy for Western practitioners of Chinese medicine, this authoritative text explores the theory and function of bloodletting, and provides detailed instruction on its clinical use. Bloodletting therapy, which works to remove internal and external

disruptions to the system through the withdrawal of small quantities of blood, has numerous benefits, especially concerning the treatment of complex or chronic disease. Yet the technique is often met with alarm in the West and side-lined in favour of less controversial treatments such as fine-needle acupuncture, and moxibustion. This book provides a concise overview of its theory, historical and contemporary relevance, and clinical guidance. With detailed reference to the classic texts, the author clarifies the fundamental Chinese medical theory related to blood and the network vessels, and provides an in-depth discussion of the benefits of and practice guidelines for bloodletting. The book includes a chapter on the classical acupuncture techniques of Tung Ching Chang whose work is attracting increasing attention in the West. Through the exploration of classic texts and contemporary standards, the book provides everything needed to gain a comprehensive understanding of the technique and to encourage its use as a viable treatment option in the West. It will be an invaluable addition to the resources available for acupuncturists, as well as students and practitioners of Chinese medicine more generally, including those interested in all Chinese approaches to health.

Information overload is something that humans have dealt with for millennia. During different historical eras, massive increases in what was available to know has motivated the creation of systems for sorting, indexing, and compiling information as well as concerns that the abundance of information might cause cultural anxiety or even drive people to madness. The digital age has renewed concerns about information overload and the detrimental effects it has on our ability to sort through the stream of online data, decide what is most important, or even to train our attention on it long enough to make sense of it. In *Abundance*, Pablo J. Boczkowski builds upon what we know about the historical and contemporary scholarship to develop a novel framework on the experience of living in a society that has more information available to the public than ever before, focusing on the interpretations, emotions, and practices of dealing with this abundance in everyday life. Drawing on extensive fieldwork and survey research conducted in Argentina, *Abundance* examines the role of cultural and structural factors that mediate between the availability of information and the actual consequences for individuals, media, politics, and society. Providing the first book-length account of information abundance in the Global South, Boczkowski concludes that the experience of information abundance is tied to an overall unsettling of society, a reconstitution of how we understand and perform our relationships with others, and a twin depreciation of facts and appreciation of fictions.

The book focuses on the therapeutic system of Tung's Acupuncture. Disorders covered in this book include therapeutic point selections and the analysis of reasoning and theoretical principles. The point selections are described according to the 14 meridians and explained in accordance with classical acupuncture and Master Young's personal clinical experience. Master Young also compares the therapeutic effect between the applications of the 14-meridians and Tung's acupuncture.

In this book, I use a lot of standard acupuncture points along with Master Tung's acupuncture and emphasize the use of channels and imaging for optimal clinical use. If a practitioner can use this work, they can have a turnkey approach in the clinic, simply by implementing these acupuncture and herbal protocols. The idea is for each disease, I have installed "cheat sheets" for the practitioner to immediately refer to and try to insert needles and prescribe herbs for. The fifth in the series of Master Tung's Acupuncture books, the idea is for someone to start with the Master Tung's Primer, The Best of Master Tung's Acupuncture, Master Tung's Acupuncture for Pain, and Master Tung's Acupuncture for Internal Medicine Disorders. With this manual, we will discuss the use of Master Tung's Acupuncture with herbals for even greater clinical success. The book is composed of monographs on each disease, best points to treat the problem, and high percentage success herbal prescriptions to give the patient as homework. Unique is that we only use a handful of both TCM and Master Tung points, and a small amount of herbal formulas for a turnkey approach to a clinic. This can be used as a roadmap for the new clinician, improve clinical success for the intermediate practitioner, or provide an alternative approach for the seasoned veteran. *Master Tung's Acupuncture for Internal Medicine Disorders* Createspace Independent Publishing Platform

Both an introduction to Chinese medicine psychology and a clinical guide for Chinese medicine, this book facilitates and promotes the management of mind and emotion-related illnesses. Based on recent and ancient Chinese sources, it explores and explains previously unavailable material on the generational and ancestral aspects of human mentality, as well as its context within the natural world and the evolution of human life. The first part of the book includes a detailed introduction to the theory of Chinese medicine psychology as well as the modern developments that surround it, whilst the second part is a guide to clinical practice. Chinese Medicine Psychology allows access to invaluable resources and is an indispensable guide for Chinese medicine practitioners, students and healthcare professionals.

An English Language First... (New Large book version) This Comprehensive Guide for students and practitioners is the ultimate path to understanding and using Abdominal Acupuncture .Mastering the Art of Abdominal Acupuncture is the first-of-its-kind to teach the powerful art of Abdominal Acupuncture (AA). One of the most revered and successful acupuncture systems in China, AA is relatively rarely or not as commonly used in the Western World. The reason for this is primarily due to an absence of professional knowledge and teaching expertise outside Asia. Now this book changes all that. Abdominal Acupuncture (Fu Zhen) is both a truly potent yet remarkably painless treatment, and in acquiring know-how and confidence in AA you will not only delight your clientele but gain an exceptional edge over your competition in the TCM field. With 15 years of clinical and teaching experience behind him, author Dave Shipsey offers you a unique insight into the history and rationale of this ancient medicinal art. By following the simple step-by-step chapters in this book, you will quickly and efficiently learn to treat even the most painful and complex conditions with success. Through this book you will: -Gain a deep comprehension of how this system works on many diverse levels-Be guided through the process of using Abdominal Acupuncture in a logical, easy to follow manner-Master a number of possible treatment options for a wide variety of painful conditions-Be taught to confidently locate AA points using two different methods-Benefit from real-world examples of how AA can be used to ameliorate pain and wow clients-Be given the tools and understanding to confidently formulate your own prescriptions-Learn from detailed descriptions and over 120 illustrations of points, prescriptions, functions and depths for best therapeutic results."I have come across a few books in my many journeys to China that focused on abdominal acupuncture, and by far this book surpasses those writings ... I can say professionally this is a must have book to help your medical practice and make your medical library complete" - Dr. Ryan Pedersen, DOM, L.Ac. CMTSo, don't delay - buy this book now! If you're an acupuncture student, practitioner or just genuinely interested in the culture of Traditional Chinese Medicine, you can either gain a new appreciation of this extraordinary system of acupuncture or use it to develop a unique selling point in your own clinical practice.

This book is a Primer, an introduction of the quintessential basics. Something that a person who has not attended my seminars could read quickly, and immediately familiarize themselves with the core concepts, imaging, channel methods, have a few "go-to" points, and immediately apply the magic of Master Tung's Acupuncture in the clinic. It is not exhaustive in theory, details, or intricacies, but shows the power of the system to a TCM trained acupuncturist and immediately benefit by it. When I first started working with Master Tung's Acupuncture in acupuncture school, I read the available books of that time and wished there was a simple book to present the information. Since the average acupuncturist already is familiar with over 400 points, why scrap that and begin another system? But in the way I wrote this Primer, they can simply add to the information they have and then immediately apply this in the clinic. There are many books on Master Tung's Acupuncture, but often these books may be too much for the beginner and do not let the beginner grasp useful concepts or how to use Master Tung's Acupuncture. But don't underestimate the power of the content of this book. It will certainly transform your practice. The idea of this book is to give you a simple and elegant rationale for using the system., use the powerful 14 Channel acupuncture you are already familiar with, and make use of the Master Tung

system immediately.

#### The Clinical Practice of Master Tung's Acupuncture

This book details the ingenious use of only five major acupuncture points to effectively treat a wide variety of ills. Written by one of the most experienced and well-known acupuncturists in California, this book is a must read for students and practitioners alike. It is written in a deceptively simple, unpretentious style characteristic of its author, but readers should not be deceived. The theory it contains is profound, stemming from the Four Great Masters of the Jin-Yuan dynasties.

#### Practical Atlas of Tung's Acupuncture

The Six Healing Sounds has a long history in China. Used as a self-cultivation tool, it is based on the principles of Chinese Medicine where sounds have a connection to the internal organs. The Chinese name is Liu Zi Jue, meaning, literally, "six characters knack or secrets." The real meaning behind them is to use the sound syllable to vibrate and massage the internal organs to maintain health, or to heal if one is sick. To the Chinese, to heal means to be in harmony or balance. In fact, that is the goal of all the Chinese healing arts - to bring one into balance. The Six Healing Sounds will strengthen what is deficient, and will sedate what is excess. Six Healing Sounds Made Simple is a bold step to introduce the art to the West in its authentic form. Although there are many schools of Six Healing Sounds that are taught here, most are focusing on making loud sounds with the throat alone, and do not address the intricacies and practice of a healing nature. Hendrik Santo has made a simplified method in which the practitioner can learn and practice and immediately benefit. It is used as a method of self-healing, and can be used by anyone. Six Healing Sounds in a nutshell, can be described as almost like humming to oneself with breathing, while in meditative seating, and mental state in Samadhi. To sum it up that simply, is an over-simplification, as it takes some time to cultivate those steps. In his teachings, Hendrik Santo pays close attention to the

details of mental state, physical posture, relaxation, breathing, timing, sound, mouth formation, rhythm, and duration of the Six Healing Sounds. These are further supplemented with understanding the Chinese Medicine principles and concepts behind them.

Although Master Tung's Acupuncture has been in the public domain since his untimely passing in 1975, very little information is available publicly on how to use the system in a practical and systematic way in English. In this book, I hope to guide my fellow colleagues into the intricacies of applying Master Tung Acupuncture in the clinic. Since I am also a practicing acupuncturist and deal with Internal Medicine problems quite frequently, I wrote these based on the protocols that I use daily. Each of these protocols has been personally used by me one time or another in the clinic. Many of these are also the same protocols I used when I work daily in my private clinic. Since I am a visual person, and I like things in a simple manner, I have placed the pictures of the points indicated for the various ailments together, to make it as simple as possible for the practicing acupuncturist to use in his or her clinic. I dislike overly drawn out discussions on theory, but prefer that application be one's guide. I also dislike secrecy, so I hold back no "alleged" secrets from anyone who wants to learn the real art. My goal is to help end suffering in the world and help

English speaking acupuncturists improve their proficiency through the vehicle of Master Tung's Acupuncture.

In this book, I hope to guide my fellow colleagues into the intricacies of Chinese Medicine Traumatology and the use of Master Tung's Acupuncture in Acute Care, and share the principles and concepts that make it a highly useful in the clinical setting. I discuss here the principles and concepts that are used in the clinic and practical use to the Licensed Acupuncturist who is also studied in Chinese Herbal Medicine. The Chinese Martial Artist will also like my approach, as I give the background on the herbology of Dit Da (Traumatology), the composition of formulas, discuss many famous remedies and their constitution, teach to make your own custom Rx's, and use common patents for acute care, and in addition, use classical and Master Tung's Acupuncture. This has not been done before by any Tung practitioner. The book is extensively done in Pin Yin and Chinese characters to help practitioners new to the subject to be able to cross reference the herbals in other books. There are thousands of prescriptions for Traumatology and Orthopedics and after studying the subject for over 30 years and reading major books on the subject in Chinese, I distilled the essentials and approached the work in a practical straightforward manner to use clinically on a daily basis. It is hoped that the reader can use these principles and concepts here and achieve amazing results in his or her practice, as these are what I use in my own practice daily with amazing results!
