ARMSTRONG TRISTIN

Carnosine and Oxidative Stress in Cells and Tissues

Rockport Publishers

A piercing howl of a novel and "a tart pleasure...with echoes of Zadie Smith and Sally Rooney," about one young woman's endless quest for an apartment of her own and the aspirations and challenges faced by the Millennial generation as it finds its footing in the world, from a shockingly talented debut author (Kirkus, starred review). "A woman must have money and a room of one's own." So said Virginia Woolf in her classic *A Room of One's Own*, but in this scrupulously observed, gorgeously wrought debut novel, Jo Hamya pushes that adage powerfully into the twenty-first century, to a generation of people living in rented rooms. What a woman needs now is an apartment of her own, the ultimate mark of financial stability, unattainable for

many. Set in one year, *Three Rooms* follows a young woman as she moves from a rented room at Oxford, where she's working as a research assistant; to a stranger's sofa, all she can afford as a copyediting temp at a society magazine; to her childhood home, where she's been forced to return, jobless, even a room of her own out of reach. As politics shift to nationalism, the streets fill with protestors, and news drip-feeds into her phone, she struggles to live a meaningful life on her own terms, unsure if she'll ever be able to afford to do so.

This book provides a comprehensive account of vascular biology

and pathology and its significance for health and disease. It systematically and chronologically explains how we came to our current understanding of the vasculature and its function today, and describes in an entertaining way the diverse flaws and turns in science and medicine from the past. It thereby offers a complete and well-studied history on vascular biology and medicine. The book has an easy-to-read style and is written for students as well as scientists, physicians and lecturers in the field of biomedicine, human physiology, cardiology and hematology.

From Ferdinand Cheval's Palais Ideal (1879-1905) and Simon Rodia's Watts Towers (1921-1954) to Ant Farm's Cadillac Ranch (1974) and Richard Serra's Tilted Arc (1981), installation art has continually crossed boundaries, encompassing sculpture, architecture, performance, and visual art. Although unique in its power to transform both the site in which a work is constructed and the viewer's experience of being in a place, installation art has not received the critical attention accorded other art forms. In *Space, Site, Intervention*, some of today's most prominent art critics, curators, and artists view installation art as a diverse, multifaceted, and international art form that challenges institutional assumptions and narrow conceptual frameworks. The contributors discuss installation in relation to the genealogy of modern art, community and corporate space, multimedia cyberspace, public and private ritual, the gallery and the museum, public and private patronage, and political action. This ambitious volume focuses on issues of class, sexuality, cultural identity, race, and gender, and highlights a wide range of artists whose work is often marginalized by mainstream art history and

criticism. Together, the essays in *Space, Site, Intervention* investigate how installation resonates within modern culture and society, as well as its ongoing influence on contemporary visual culture.

What the Scarecrow Said Springer Science & Business Media

"This comprehensive anthology collects works of fiction, poetry, drama, and essay-writing from a pivotal time in Japanese history. In addition to their literary achievements, the texts reflect the political, social, and intellectual changes that occurred in Japanese society during this period, including exposure to Western ideas and literature, the rise of nationalism, and the complex interaction of traditional and modern forces. The volume offers outstanding, often new translations of classic texts by such celebrated writers as Nagai Kafu, Shimazaki Toson, Natsume Soseki, Kawabata Yasunari, and Yosano Akiko. The editors have also unearthed works from lesser-known women writers, many of which have never been available in English. Organized chronologically and by genre within each period, the volume reveals the major influences in the development of modern Japanese literature: the Japanese classics themselves, the example of Chinese poetry, and the encounter with Western literature and culture. Modern Japanese writers reread the classics of Japanese literature, infused them with contemporary language, and refashioned them with an increased emphasis on psychological elements. They also reinterpreted older aesthetic concepts in light of twentieth-century mentalities. While modern ideas captured the imagination of some Japanese writers, the example of classical Chinese poetry remained important for others. Meiji writers continued to compose poetry in classical

Chinese and adhere to a Confucian system of thought. Another factor in shaping modern Japanese literature was the example of foreign works, which offered new literary inspiration and opportunities for Japanese readers and writers."--Publisher's description.

Generations of Basques in New York have vibrantly exercised their culture, language, values, and traditions, transmitting to their children a robust sense of ethnic identity. In today's world of globalization it is often assumed that particular communities are disappearing as a consequence of the factors of homogenization. However, the Basques have proved this false. Depicting Basque mutual aid societies, language courses, musical and dance

troupes, cuisine classes, community activities, sport, political involvement, and ties to homeland institutions are just a few of the ingredients which mix to compose the chapters of this work. Readers will learn about the history and reasons why Basques left the Pyrenees of northern Spain and southern France from the personal experiences of political and economic exiles' oral histories. Original archival research allows us to discover the features of the early 1900s Centro Vasco-Americano, the Basque Government-in-exile Delegation in New York, and the development of Basque organizations. "Basqueness" is being redefined in this transnational cosmopolitan community, and with the pioneer spirit of their ancestors, latter generation Basques are nurturing and promoting Basque culture and identity to the world.

In 1939, as the Nazis closed in, Alfred Berger mailed a desperate letter to an American stranger who happened to share his last name. He and his wife, Viennese Jews, had found escape routes for their daughters. But now their money, connections, and emotional energy were nearly exhausted. Alfred begged the American recipient of the letter, "You are surely informed about the situation of all Jews in Central Europe.... By pure chance I got your address.... My daughter and her husband will go... to America.... Help us to follow our children.... It is our last and only hope...." After languishing in a California attic for decades, Alfred's letter ended up in the hands of Faris Cassell, a journalist who couldn't rest until she discovered the ending of the story. Traveling across the United States as well as to Austria, the Czech Republic, Belarus, and Israel, she uncovered an

extraordinary story of heart-wrenching loss and unforgettable love that endures to this day. Did the Bergers' desperate letter find a response? Did they—and their daughters—survive? Did they leave living descendants? You will find the answers here. A story that will move any reader, *The Unanswered Letter* is a poignant reminder that love and hope never die.

What would it take for one young Black man not only to rise above statistics but also become a Navy SEAL, actor, entrepreneur, writer, and successful husband and father? In *Transformed*, Remi Adeleke takes you back to stories from his childhood, from living as Nigerian royalty to losing his father early in life and being stripped financially of everything by the Nigerian government. Following his father's death, he and his mother and brother relocated permanently to the Bronx where his single mother struggled to provide for the family. Statistics tell us that African American males who grow up in a single-parent household are nine times more likely to drop out of high school and twenty times more likely to end up in prison than any other demographic. While it would have been easy to believe that he could never beat those odds, Remi Adeleke refused to fall victim to that premise. Sharing his incredible journey through the struggles of his life, Remi doesn't shy away from his illegal activities as a young man that threatened to derail his future as a

Navy SEAL. He shares: How perseverance transformed his life despite all odds How taking ownership of his mistakes and shortcomings led him to success His hard-earned wisdom gained over years of struggle Belief that the adversities, trials, and tribulations he went through were specific moves by God At every turn, including throughout his naval career, Adeleke found a way to overcome the odds, even when it didn't make sense. Remi Adeleke's journey of following God's voice, rising above statistics, and experiencing true personal transformation will inspire and move you.

The Films of Kore-eda Hirokazu: An Elemental Cinema draws readers into the first 13 feature films and 5 of the documentaries of award-winning Japanese film director Kore-eda Hirokazu. With his recent top prize at the Cannes Film Festival for Shoplifters, Kore-eda is arguably Japan's greatest living director with an international viewership. He approaches difficult subjects (child abandonment, suicide, marginality) with a realistic and compassionate eye. The lyrical tone of the writing of Japanese film scholar Linda C. Ehrlich perfectly complements the understated, yet powerful, tone of the films. From An Elemental Cinema, readers will gain a special understanding of Kore-eda's films through a novel connection to the natural elements as reflected in Japanese traditional aesthetics. An Elemental Cinema presents Kore-eda's oeuvre as a connected whole with overarching thematic concerns, despite frequent generic experimentation. It

also offers an example of how the poetics of cinema can be practiced in writing, as well as on the screen, and helps readers understand the films of this contemporary director as works of art that relate to their own lives.

This book series gives a comprehensive overview of the adverse effects of botanical medicines. It provides introductory information on Botany, Chemistry, Pharmacology and Uses, followed by an Adverse Reaction Profile subdivided according to organ and function. The third contribution to the series gives important information about eighteen specific medicinal herbs and important plant constituents. The herbs and constituents have been selected for several reasons, such as a prominent place in phytotherapy, clinical expectations about therapeutic potential and recent concern about a serious adverse reaction. The World Health Organization Regional Office for Europe (Copenhagen) has supported the book in the form of an acknowledgement that has been prepared by this Office.
