Tamburitza America is the story of an Old-World music tradition, the tamburitza of the South Slavs, which came to America with the immigrants in the late 1800s and early 1900s. It has flourished through several American-born generations. Milan Opacich documents the history of the instrument and features the fine musicians and orchestras and their major contributions both to tamburitza and to American music. Other traditional

instruments the flute or frula, the bagpipes or gajde, and the gusle are spotlighted along with the violin, a relative newcomer to tamburitza but an integral part of many popular orchestras. *Tamburitza America* is also a historic journey through America to the origins of the tamburitza tradition in the country's industrial towns where work once revolved around mines, mills, and factories. It recalls the vibrant communities where tamburitza music was heard, first in the boarding houses, pool halls, and saloons and, later, in the taverns, church halls, night clubs, restaurants, and ballrooms. Today, musicians and fans gather throughout the country to hear the bright and happy sound of the tamburitza. *Tamburitza America* celebrates this rich musical heritage of the South Slavs in America.

Poetry. LGBT Studies. "Michael Broder's moving and lucid poems have heart, music, audacity—and they give a quiet, lasting pleasure, like an ancient Greek torso reshaped for the space age. THIS LIFE NOW is full of salt, sex, TV, and other riveting varieties of poised explosiveness, to which his lucky reader blissfully surrenders."—Wayne Koestenbaum "Dare I confess that this wise and sassy and heartbreaking collection made me scour YouTube for past episodes of *Buffy the Vampire Slayer*? Such are the subtle, ethereal, and playful gifts of Michael Broder's poems that a reader won't want to miss any allusion. No matter how bittersweet or fleeting, these poems, which span more than thirty years of an emerging queer consciousness, chart an unflinching poetics for the missing and unaccounted for. The book makes so many foundational moments and episodes of a thriving culture reappear and cohere, with such grim acceptance and celebration, that it takes our breath away."—Peter Covino

*Kin* is a dazzling family epic from one of Croatia's most prized writers. In this sprawling narrative which spans the entire twentieth century, Miljenko Jergović peers into the dusty corners of his family's past, illuminating them with a tender, poetic precision. Ordinary, forgotten objects - a grandfather's beekeeping journals, a rusty benzene lighter, an army issued raincoat - become the lenses through which Jergović investigates the joys and sorrows of a family living through a century of war. The work is ultimately an ode to Yugoslavia - Jergović sees his country through the devastation of the First World War, the Second, the Cold, then the Bosnian war of the 90s; through its changing street names and borders, shifting seasons, through its social rituals at graveyards, operas, weddings, markets - rendering it all in loving, vivid detail. A portrait of an era. Routledge

Beautiful eighteen-year-old waif Felicita Galvão is penniless, almost starving and all alone in the world when the Duchesse de Monreuil finds her desperately trying to sell her needlework at The Grand Hotel in Lisbon. Struck by Felicita's deep blue eyes - so different from those of any Portuguese girl she has ever seen - she agrees to buy everything the girl has to sell and offers her a ride to her home in her smart carriage. Something about this young beauty strongly reminds the Duchesse of herself at the same age when she first found the love of her life, Juan, the Marques de Oliveira Vasconles - said by everyone to be 'the most handsome and the most exciting gentleman in the whole of Portugal'. Still deeply bitter over the way that the Marques Juan

has abandoned her to marry another 'whose blood is the equal of mine', the Duchesse suddenly sees a way to use this young innocent beauty to wreak the revenge that she has been dreaming of and planning for years. Moving Felicita into her rented Villa, she persuades her to impersonate the Duchesse's niece, the Comtesse Felicity de Monreuil, and in that guise meet the current Marques Alvaro de Oliveira Vasconles. The Duchesse means to break the heart of her lost love's son as hers was broken so cruelly by his father. But it seems that love or Fate or both will combine to deny her vengeance.

After the Battle of Kosovo in 1389 and the destruction of Serbian nationhood, 500 years of Ottoman slavery ensued in the Balkans with the inevitable decline of the Serbian Orthodox faith and music. During this Turkish occupation, Serbs were forbidden to own property, to learn to read and write and were even denied the use of musical instruments. The Serbs however were tenacious and maintained an oral history through folk poems and songs. The only defenders of Serbian art and culture in these difficult centuries were the peasants who played the Gusle, a one-stringed instrument. As their punishment for playing a musical instrument many of these musicians were blinded by their oppressors resulting in thousands of such punishments. Being denied the right to music or dance, the Serbs invented a silent kolo (dance) in which the syncopation of the pounding feet became a sort of musical accompaniment to the dancers. This dance is still performed today by Serbian people. The great poet and dramatist Goethe so loved the Serbian people, their poetry and folklore that he learned to fluently speak their language. Goethe was also the major influence in encouraging Brahms, Loewe, and Josef Maria Wolfram to create musical compositions based on Serbian folk poems and literature. Brahms' famous lullaby is derived from a Serbian folk poem. When the Jews fled Spain the Serbs provided a hospitable environment in which the Jews resettled and prospered. The oldest Jewish Choir in the

modern world is in Belgrade. The formation of the Pancevo Church Choral Society in 1838 and the Belgrade Choral Society in 1853 resulted in each becoming centers for nurturing young talent. The first music schools were founded through the efforts of these choral societies. The Brilliant work of Serbian composers like Bajic, Stankovic, Mokranjac, Marinkovic, maksimovic, Djordjevic and Binicki accomplished in a hundred years what other cultures had the luxury of creating in several centuries. This books covers the history of over 40 of these composers.

In this "informative and delightful" (American Scientist) biography, Margaret Cheney explores the brilliant and prescient mind of Nikola Tesla, one of the twentieth century's greatest scientists and inventors. In *Tesla: Man Out of Time*, Margaret Cheney explores the brilliant and prescient mind of one of the twentieth century's greatest scientists and inventors. Called a madman by his enemies, a genius by others, and an enigma by nearly everyone, Nikola Tesla was, without a doubt, a trailblazing inventor who created astonishing, sometimes world-transforming devices that were virtually without theoretical precedent. Tesla not only discovered the rotating magnetic field -- the basis of most alternating-current machinery -- but also introduced us to the fundamentals of robotics, computers, and missile science. Almost supernaturally gifted, unfailingly flamboyant and neurotic, Tesla was troubled by an array of compulsions and phobias and was fond of extravagant, visionary experimentations. He was also a popular man-about-town, admired by men as diverse as Mark Twain and George Westinghouse, and adored by scores of society beauties. From Tesla's childhood in Yugoslavia to his death in New York in the 1940s, Cheney paints a compelling human portrait and chronicles a lifetime of discoveries that radically altered -- and continue to alter -- the world in which we live. *Tesla: Man Out of Time* is an in-depth look at the seminal accomplishments of a scientific wizard and a thoughtful examination of the obsessions and eccentricities of the man behind the science.
