 Winner of the Wellcome Book Prize 2017.  
 Longlisted for the Man Booker  
 International Prize 2016. Now a major  
 French film, REPARER LES VIVANTS/HEAL  
 THE LIVING, directed by Katell Quillevere  
 and starring Emmanuelle Seigner. A  
 twenty-four-hour whirlwind of death and  
 life. In the depths of a winter's night, the  
 heart of Simon Limbeau is resting,  
 readying itself for the day to come. In a  
 few hours' time, just before six, his alarm  
 will go off and he will venture into the  
 freezing dawn, drive down to the beach,  
 and go surfing with his friends. A trip he  
 has made a hundred times and yet, today,  
 the heart of Simon Limbeau will encounter  
 a very different course. But for now, the

black-box of his body is free to leap, swell,  
 melt and sink, just as it has throughout the  
 years of Simon's young life. 5.50 a.m. This  
 is his heart. And here is its story.

"A cross between Carry On, Warrior and  
 Everybody's Got Something, The Other  
 Side of Yet is a powerful memoir about  
 loss, faith, and the power of the human  
 spirit. Starting her professional career as a  
 producer at America's Most Wanted,

Michelle Hord was no stranger to tragedy.  
 But when the unimaginable happened in  
 her own family, Michelle's entire life  
 crashed down around her. As she sought  
 out a new blueprint for how to live in this  
 new world, The Book of Job became her  
 anchor, with one verse in particular  
 standing out: "Though he slay me, yet will  
 I trust in him" Job 13:15 King James  
 Version (KJV). For Michelle, the concept of  
 that 'yet' became an essential part of her  
 life--one shaped by loss, yet filled with  
 hope. This powerful memoir takes readers  
 on a journey about creating a life of  
 goodness and grace in the face of loss,  
 injustice, or hardship. Michelle isn't  
 interested in prosecuting her marriage,  
 dwelling on what happened to her  
 daughter, or pointing to God as her only  
 salvation. In the pages of The Other Side  
 of Yet, she invites readers to share not just  
 her story, but to draw inspiration from her

strength, her will to create goodness, and her defiant faith"--

In 1986, Afghanistan was torn apart by a war with the Soviet Union. This graphic novel/photo-journal is a record of one reporter's arduous and dangerous journey through Afghanistan, accompanying the Doctors Without Borders. Didier Lefevre's photography, paired with the art of Emmanuel Guibert, tells the powerful story of a mission undertaken by men and women dedicated to mending the wounds of war. Emmanuel Guibert's most recent book for First Second was the critically acclaimed *Alan's War*, the memoir of a WWII G.I. His close friendship with Didier Lefevre inspired him to combine art and photography to create this momentous book.

The first of two volumes presenting all of the world-renowned hardboiled crime graphic novels (one of which has never before been collected in English!). In the never-before-collected *Griffu*, the titular character is a legal advisor, not a private eye, but even he knows that when a sultry

blonde appears in his office after hours, he shouldn't trust her — and she doesn't disappoint. *Griffu* is soon ensnared in a deadly web of sexual betrayal, real estate fraud, and murder. In *West Coast Blues*, a young sales executive goes to the aid of an accident victim, and finds himself sucked into a spiral of violence involving an exiled war criminal and two hired assassins. This volume also offers a bonus, 21-page unfinished story by Manchette and Tardi, as well as a single page introduction to another incomplete story, both appearing in English for the first time.

AIHV is an international organisation whose membership spans the globe, from Los Angeles to Tokyo and from Helsinki to Adelaide. Since its creation 50 years ago, AIHV members have studied and reported on the extraordinary development of glass in all historical periods in the *Annales* of the AIHV. Next to containing numerous contributions on the use, manufacture and trade of glass in the Antique period, also the importance of glass in more recent historical periods, starting from the 15th century and ending in the 21st century, are dealt with in detail. Additionally, apart from contributions on stained glass, on glass decoration and the use of enamelling, a substantial series of papers dealing with the chemical analysis of glass form part of this proceedings volume. -- Book Jacket.

*Ghost Image* is made up of sixty-three short essays—meditations, memories, fantasies, and stories bordering on prose poems—and not a single image. Hervé Guibert's brief, literary rumination on photography was written in response to Roland Barthes's *Camera Lucida*, but its deeply personal contents go far beyond that canonical text. Some essays talk of Guibert's parents and friends, some describe old family photographs and films, and spinning through them all are reflections on remembrance, narcissism, seduction, deception, death, and the phantom images that have been missed. Both a memoir and an exploration of the artistic process, *Ghost Image* not only reveals Guibert's particular experience as a gay artist captivated by the transience and physicality of his media and his life, but also his thoughts on the more technical aspects of his vocation. In one essay, Guibert searches through a cardboard box of family portraits for clues—answers, or even questions—about the lives of his parents and more distant relatives. Rifling through vacation snapshots and the autographed images of long-forgotten film stars, Guibert muses, "I don't even recognize the faces, except occasionally that of an aunt or great-aunt, or the thin, fair face of my mother as a young girl." In other essays, he explains how he composes his photographs, and how—in writing—he seeks to escape and correct the inherent limits of his technique, to preserve those images lost to his technical failings as a photographer. With strains of Jean Genet and recurring themes that speak to the work of contemporary artists across a range of media, Guibert's *Ghost Image* is a beautifully written, melancholic ode to existence and art forms both fleeting and powerful—a unique memoir at the nexus of family, memory, desire, and photography.

Treasures of France, and other sources. The works of Limoges were created for important ecclesiastical and royal patrons.

The wealth of enameling preserved from the Treasury of the abbey of Grandmont, just outside Limoges, is due chiefly to the Plantagenet patronage of Henry II and his queen, Eleanor of Aquitaine. Enamels created during their reign resonate with the elegant style of the court, and the dramatic history of Henry's monarchy is evoked by such works as the.

The 40-year history of how Democrats chose political convenience over addressing inequality--and how the poor have paid the price. For decades, the Republican party has been known as the party of the rich: arguing for "business-friendly" policies like deregulation and tax cuts. But as our national and global economy confronts a crisis of inequality, the truth is that Democrats have been unwilling to take risks that would help eliminate poverty. In this incisive new book, political historian Lily Geismer shows how the Democratic party of the 80s and 90s -- particularly during the height of the Clinton years -- peddled policy ideas that centered on helping the poor without asking the rich to make any sacrifices: doing well by doing good. Micro-lending became a big business, and private programs to promote democracy and equality abroad grew trendy. But as social programs in the private sector boomed, the structure of the government began to weaken, contributing to a crisis that has now fully arrived. Geismer makes her case

through artful storytelling and a savvy eye, conjuring in meticulous detail the political moments that led to these fateful decisions. We've seen skyrocketing income inequality, huge discrepancies between the haves and have-nots, and growing poverty in America. This is the story of how we got ourselves into this mess, and where we can go from here. *Art Forms in the Plant World* MIT Press

The Optical Unconscious is a pointed protest against the official story of modernism and against the critical tradition that attempted to define modern art according to certain sacred commandments and self-fulfilling truths. The account of modernism presented here challenges the vaunted principle of "vision itself." And it is a very different story than we have ever read, not only because its insurgent plot and characters rise from below the calm surface of the known and law-like field of modernist painting, but because the voice is unlike anything we have heard before. Just as the artists of the optical unconscious assaulted the idea of autonomy and visual mastery, Rosalind Krauss abandons the historian's voice of objective detachment and forges a new style of writing in this book: art history that insinuates diary and art theory, and that has the gait and tone of fiction. The Optical Unconscious will be deeply vexing to modernism's standard-bearers, and to readers who have accepted the foundational principles on which their aesthetic is based. Krauss also gives us the story that Alfred Barr, Meyer Shapiro, and Clement Greenberg repressed, the story of a small, disparate group of artists who defied modernism's most cherished self-descriptions, giving rise to an unruly, disruptive force that persistently haunted the field of modernism from the 1920s to the 1950s and continues to disrupt it today. In order to understand why modernism had to repress the optical unconscious, Krauss eavesdrops on Roger Fry in the salons of Bloomsbury, and spies on the toddler John Ruskin as he amuses himself with the patterns of a rug; we find her in the living room of Clement Greenberg as he complains about "smart Jewish girls with their typewriters" in the 1960s, and in colloquy with Michael Fried about Frank Stella's love of baseball. Along the way, there are also narrative encounters with Freud, Jacques Lacan, Georges Bataille, Roger Caillois, Gilles Deleuze, and Jean-François Lyotard. To embody this optical unconscious, Krauss turns to the pages of Max Ernst's collage novels, to Marcel Duchamp's hypnotic Rotoreliefs, to Eva Hesse's luminous sculptures, and to Cy Twombly's, Andy

Warhol's, and Robert Morris's scandalous decoding of Jackson Pollock's drip pictures as "Anti-Form." These artists introduced a new set of values into the field of twentieth-century art, offering ready-made images of obsessional fantasy in place of modernism's intentionality and unexamined compulsions.

Intégrer les archives d'un écrivain - ses carnets, son journal personnel, sa correspondance, les avant-textes de ses œuvres publiées, voire ses notes de lecture - dans l'analyse de son œuvre canonique permet, on le sait, d'éclairer celle-ci autrement, d'en dégager un sens jusque-là inaccessible. Au Canada, même si quelques initiatives d'envergure se sont développées au cours des vingt dernières années, le versant francophone des archives d'écrivains est demeuré peu exploré par les chercheurs, surtout en ce qui concerne les corpus hors Québec. Cet ouvrage propose un état présent des recherches menées dans plusieurs fonds d'archives et des études portant sur différents corpus ponctuels composés des avant-textes et autres documents appartenant aux dossiers génétiques d'œuvres publiées. Si les études sur le corpus québécois (Roy, Guèvremont, Hébert, Ducharme, Aquin, Tremblay, etc.) dominant en nombre, celles portant sur l'Ontario (Poliquin), le Manitoba (Léveillé) et l'Acadie (Leblanc) sont aussi représentées. Les différentes collaborations permettent de mettre en lumière la multiplicité des perspectives sous lesquelles il est possible d'envisager les questionnements liés aux fonds d'archives - notamment génétique, thématique, sémiotique, historique, sociologique, diaristique -, tout en faisant ressortir la diversité et la richesse des différents fonds et les problèmes et lacunes qui leur sont inhérents. Une coédition avec le Centre de recherche en civilisation canadienne-française. Ce livre est publié en français. - Engaging with a writer's archives - their notebooks, personal journals, correspondence, drafts, and annotations - when analyzing their canonical work, enables us to shed a different kind of light on the latter, to penetrate a hitherto inaccessible meaning. Although some significant initiatives have emerged in Canada over the past two decades, the Francophone aspect of writers' archives has remained relatively untouched by researchers, especially with regard to the corpus outside Quebec. This work provides insight into the present state of research into several archival collections and of studies into different

unique collections comprising drafts and other documents that are part of genetic records of published works. While the studies on the Quebec corpus (Roy, Guèvremont, Hébert, Ducharme, Aquin, Tremblay, etc.) are more numerous, those

on Ontario (Poliquin), Manitoba (Léveillé) and Acadia (Leblanc) are also represented. The various collaborations emphasize the range of possible approaches towards working with archives – including genetic, thematic, semiotic, historical, sociological, and diaristic – while highlighting the

diversity and richness of different collections as well as their inherent problems and gaps. A copublication with the Centre de recherche en civilisation canadienne-française. This book is published in French.
