In early 1749 a white woman and a black man are stranded in the wilderness of the South African interior. She is an educated woman, totally helpless in the wilds. He is a runaway slave. They know only each other. At

first their relationship is guarded, poisoned by the black and white in them both. But hesitantly there emerges between them a fellowship that engulfs their most private selves, as they face the long trek back to civilisation.

Africa's strong tradition of storytelling has long been an expression of an oral narrative culture. African writers such as Amos Tutuola, Naguib Mahfouz, Wole Soyinka and J. M. Coetzee have adapted these older forms to develop and enhance the genre of the novel, in a shift from the oral mode to print. Comprehensive in scope, these new essays cover the fiction in the European languages

from North Africa and Africa south of the Sahara, as well as in Arabic. They highlight the themes and styles of the African novel through an examination of the works that have either attained canonical status - an entire chapter is devoted to the work of Chinua Achebe - or can be expected to do so. Including a guide to further reading and a chronology, this is the ideal starting-point for students of African and world literatures.

On the one hand, nobody wants to be a dick. On the other hand, dicks are everywhere! They cut in line, talk behind our backs, recline into our seats, and even have the power to morph into trolls online. Their powers are impressive, but with a little foresight and thoughtfulness, we can take a stand against dickishness today. How Not to Be a Dick is packed with honest and straightforward advice, but it also includes playful illustrations showing two

well-meaning (but not always well behaved) young people as they confront moments of potential dickishness in their everyday lives. Sometimes they falter, sometimes they triumph, but they always seek to find a better way. And with their help, you can too.

A hundred years ago, a small settlement sprang up in the Northern Cape. A rich diversity of people moved in, as the children were born, Vatmaar became a village. A. H. M. Scholtz tells of Oom Chai, who in turn tells of a Vuurmaak, who in turn introduces someone else. Thus a chain of stories is created interlinking the fates of unforgettable characters like Lance-Corporal George Lewis and his Tswana wife, Rush, Sis Bet, Old Chetty,

Hendruk, January, Tant Vonnie and her daughters as they recount tales of the Anglo-Boer War, the diamond diggings, court cases and stokvels: the tricksters and the tricked, marriages and funerals, love and betrayal. A Place Called Vatmaar is a panoramic novel: compelling, wise and humane.

He is passing through rainforest, savannah, swamp, desert and lush delta oasis. He will cross seven, very different countries. No one has ever made this journey on foot. In this detailed, thoughtful, inspiring and dramatic book, recounting Levison Wood's walk the length of the Nile, he will

uncover the history of the Nile, yet through the people he meets and who will help him with his journey, he will come face to face with the great story of a modern Africa emerging out of the past. Exploration and Africa are two of his great passions - they drive him on and motivate his inquisitiveness and resolution not to fail, yet the challenges of the terrain, the climate, the animals, the people and his own psychological resolution will throw at him are immense. The

dangers are very real, but so is the motivation for this ex-army officer. If he can overcome the mental and physical challenges, he will be walking into history...

In an extraordinary debut, Megan Ross writes the uneasy truths about unexpected motherhood and all its emotional detritus. In deftly and

experimentally navigating the angst, joy and self-reckoning that comes with the choices and misadventures of young womanhood, this is a collection that brings together the evocative with the provocative, and the feminist with the personal, in a bold and startling poetic style. Hallucinatory, image-wet, and navigating the eternal tides of spirit and body, Milk Fever is a chimeric dreamscape in which a woman reconfigures, remembers and rebirths herself.

A Novel LAPA Uitgewers

This is what it is to be a slave: that everything is decided for you from out there. You just got to listen and do as they tell you. You don't say no. You don't ask questions. You just do what they tell you. But far at the back of your head you think: Soon there must come a day when I can say for myself: This and that I shall do, this and that I shall not. In Philida, longlisted for the Man Booker Prize, André Brink—"one of South

Africa's greatest novelists" (The Telegraph)—gives us his most powerful novel yet; the truly unforgettable story of a female slave, and her fierce determination to survive and to be free. It is 1832 in South Africa, the year before slavery is abolished and the slaves are emancipated. Philida is the mother of four children by Francois Brink, the son of her master. When Francois's father orders him to marry a woman from a prominent Cape Town family,

Francois reneges on his promise to give Philida her freedom, threatening instead to sell her to new owners in the harsh country up north. Here is the remarkable story—based on individuals connected to the author’s family—of a fiercely independent woman who will settle for nothing and for no one. Unwilling to accept the future that lies ahead of her, Philida continues to test the limits and lodges a complaint against the Brink family. Then she sets off on a

journey—from the southernmost reaches of the Cape, across a great wilderness, to the far north of the country—in order to reclaim her soul. *The Hidden Life of Hanna Why* HarperCollins ‘Reminds me of Khaled Hosseini, poignant and heartwarming... The Tragedy of Colonial Enlightenment

Random House
At this stalled and disillusioned juncture in

postcolonial history—when many anticolonial utopias have withered into a morass of exhaustion, corruption, and authoritarianism—David Scott argues the need to reconceptualize the past in order to reimagine a more usable future. He describes how, prior to independence, anticolonialists narrated the transition from colonialism to postcolonialism as romance—as a story of overcoming and vindication, of salvation

and redemption. Scott contends that postcolonial scholarship assumes the same trajectory, and that this imposes conceptual limitations. He suggests that tragedy may be a more useful narrative frame than romance. In tragedy, the future does not appear as an uninterrupted movement forward, but instead as a slow and sometimes reversible series of ups and downs. Scott explores the political and epistemological implications of how the past is conceived in

relation to the present and future through a reconsideration of C. L. R. James's masterpiece of anticolonial history, *The Black Jacobins*, first published in 1938. In that book, James told the story of Toussaint L'Ouverture and the making of the Haitian Revolution as one of romantic vindication. In the second edition, published in the United States in 1963, James inserted new material suggesting that that story might usefully be told as tragedy. Scott uses James's recasting of The

Black Jacobins to compare the relative yields of romance and tragedy. In an epilogue, he juxtaposes James's thinking about tragedy, history, and revolution with Hannah Arendt's in *On Revolution*. He contrasts their uses of tragedy as a means of situating the past in relation to the present in order to derive a politics for a possible future.  This 1981 book is a general introduction to linguistics and the study

of language, intended particularly for beginning students and readers with no previous knowledge or training in the subject. There is first a general account of the nature of language and of the aims, methods and basic principles of linguistic theory. John Lyons then introduces in turn each of the main sub-fields of linguistics: the sounds of language, grammar, semantics, language change, psycholinguistics: the sounds of language, grammar, semantics, language change,

psycholinguistics, language and culture. Throughout the book he emphasizes particularly those aspects of the discipline that seem fundamental and most likely to remain important. He stresses throughout the cultural at least as much as the biological context of human language, and shows how the linguist's concerns connect productively with those of the traditional humanities and the social sciences. Each chapter has a wide-ranging set of discussion questions and

revision exercises, and extensive suggestions for further reading. The exposition is marked throughout by the author's characteristic clarity, balance and authority.

This book is essentially about stereotypes as found in the literature and culture of South Africa. It deals specifically with those people referred to in the South African racial legislation as 'coloureds'. The book is also an illustration of the way in

which stereotypes function as a means of social control and repression. First published in 1981. Routledge is an imprint of Taylor & Francis, an informa company.

From the author of *The Aftermath* comes the story of a whirlwind friendship--and the dark secrets lurking beneath it. After a tumultuous marriage, Mary Wilson is happy in her uncomplicated life, focusing on her twelve-year-old son. She's always

been content with her little family--but then she finds an old postcard that throws her whole past into question... When an invitation arrives for her high school reunion, Mary jumps at the chance of a distraction from the shock discovery, and meeting her old classmate April feels like a gift. Despite barely remembering April, Mary throws herself into the new friendship and finds her previously quiet social life reinvigorated. But as the bonds between them are forged, Mary

finds herself drawn further and further into April's life and marriage, increasingly fearing that everything is not as perfect as it seems. Is her own painful past clouding her judgement, or is Mary right to suspect that the people she trusts most are the ones with the most to hide?

The development of Afrikaans is investigated within its sociohistorical context from the beginnings of the Afrikaans speech

community in the 17th century to the present. Language contact in the loose and heterogeneous early Cape society gave rise to a divergent variety of Dutch later to be named Afrikaans. There was extensive borrowing as well as creolisation due to the strong presence of foreigners who had to acquire Dutch rapidly and under adverse social conditions. Changes in the linguistic core and functions of Afrikaans are set forth in a number of chapters.
