The fall of the Spanish Empire: that period in the nineteenth century when it lost its colonies in Spanish America and the Philippines. How did it happen? What did the process of the "end

of empire" look like? *Empire's End* considers the nation's imperial legacy beyond this period, all the way up to the present moment. In addition to scrutinizing the political, economic, and social implications of this "end," these chapters emphasize the cultural impact of this process through an analysis of a wide range of representations—literature, literary histories, periodical publications, scientific texts, national symbols, museums, architectural monuments, and tourist routes—that formed the basis of transnational connections and exchange. The book breaks new ground by addressing the ramifications of Spain's imperial project in relation to its former colonies, not only in Spanish America, but also in North Africa and the Philippines, thus generating new insights into the circuits of cultural exchange that link these four geographical areas that are rarely considered together. *Empire's End* showcases the work of scholars of literature, cultural studies, and history, centering on four interrelated issues crucial to understanding the end of the Spanish empire: the mappings of the Hispanic Atlantic, race, human rights, and the legacies of empire.

Filipinos make up one of the largest immigrant groups in Canada and the majority continue to retain their Roman Catholic faith long after migrating. Drawing on archival and ethnographic research in Canada and the Philippines from 1880 to 2017, *Bayanihan and Belonging* aims to understand the role of religion within present-day Filipino Canadian communities. With a focus on Winnipeg, home to Canada's oldest and largest Filipino Canadian community, Alison R. Marshall showcases current church-based and domestic religious routines of migrant Filipinos. From St. Edward the Confessor Church, the principal site of worship for Filipino Catholics in Manitoba, to home chapels, and healing traditions, Marshall explores the day-to-day celebrations of bayanihan, or communal spirit. Drawing on experiences from Manitoba's Filipino population, *Bayanihan and Belonging* reveals that religious practise fulfills not only a need for spiritual guidance, but also for community.

This work looks at the problematic relationship between the Philippines and the US. It argues that when faced with a national crisis or a compelling need to reestablish its autonomy, each nation paradoxically turns to its history with the other to define its place in the world.

The great novel of the Philippines In more than a century since its appearance, José Rizal's *Noli Me Tangere* has become widely known as the great novel of the Philippines. A passionate love story set against the ugly political backdrop of repression, torture, and murder, "The Noli," as it is called in the Philippines, was the first major artistic manifestation of Asian resistance to European colonialism, and Rizal became a guiding conscience—and martyr—for the revolution that would subsequently rise up in the Spanish province. By the early twentieth century, as Woodrow Wilson would later declare, the United States had become both the literal embodiment of all the earth's peoples and a nation representing

all other nations and cultures through its ethnic and cultural diversity. This idea of connection with all peoples, Nathaniel Cadle argues, allowed American literary writers to circulate their work internationally, in turn promoting American literature and also the nation itself. Reexamining the relationship between Progressivism and literary realism, Cadle demonstrates that the narratives constructed by American writers asserted a more active role for the United States in world affairs and helped to shift global influence from Europe to North America. From the novels of Henry James, William Dean Howells, and Abraham Cahan to the political and social writings of Woodrow Wilson and W. E. B. Du Bois, Cadle identifies a common global engagement through which realists and Progressives articulated a stronger and more active cultural, political, and social role for the United States.

"Menace to Empire is a profoundly original and ambitious book, a history of race and empire that traces both the colonial violence and the anticolonial rage that the United States spread across the Pacific between the Philippine-American War and World War II. Author Moon-Ho Jung argues that the US national security state as we know it was born out of attempts to repress and silence colonized subjects, from the Philippines and Hawai'i to California and beyond, whose anticolonial aspirations challenged US claims to sovereignty. Jung examines how the contradictions of race, nation, and empire generated waves of revolutionary movements spanning the Pacific--anticolonial, antiracist, and labor movements that exposed and confronted the US empire. In response, the US state closely monitored and brutally suppressed

those movements by racializing particular politics and distinct communities as seditious, exaggerating fears of pan-Asian solidarities and sowing anti-Asian racism under the guise of national security. Menace to Empire transforms familiar themes in American history to highlight the critical role of colonial violence in the formation of radical movements and the antiradical origins of anti-Asian racism. Radicalized by their opposition to the US empire and racialized as threats to US security, peoples in and from Asia pursued a revolutionary politics that gave rise to the national security state--the heart and soul of the US empire ever since"--

The act of converting people to certain beliefs or values is highly controversial in today's postcolonial, multicultural world. Proselytization has been viewed by some as an aggressive act of political domination. 'Proselytization Revisited' offers a comprehensive overview of the many arguments for and against proselytization in different regions and contexts. Proselytization is examined in the context of rights talk, globalisation and culture wars. The volume brings together essays demonstrating the global significance of proselytization, ranging from Christians in India to Turkish Islamic Movements and the Wiccan use of modern media technologies. The cross-cultural and multidisciplinary nature of this collection of essays provides a fresh perspective and the book will be of value to readers interested in the dynamic interaction of beliefs, ideas and cultures.

Nusantaria - often referred to as 'Maritime Southeast Asia' - is the world's largest archipelago and has, for centuries, been a vital cultural and trading hub. Nusantara, a Sanskrit, then Malay, word referring to an island realm, is here adapted to become Nusantaria - denoting a slightly wider world but one with a single linguistic, cultural and trading base. Nusantaria encompasses the lands and shores created by the melting of the ice following the last Ice Age. These have long been primarily the domain of the Austronesian-speaking peoples and their seafaring traditions. The surrounding waters have always been uniquely important as a corridor connecting East Asia to India, the Middle East, Europe and Africa. In this book, Philip Bowring provides a history of the world's largest and most important archipelago and its adjacent coasts. He tells the story of the peoples and lands located at this crucial maritime and cultural crossroads, from its birth following the last Ice Age to today.

Contemporary popular culture stereotypes Filipina women as sex workers, domestic laborers, mail order brides, and caregivers. These figures embody the gendered and sexual politics of representing the Philippine nation in the Filipina/o diaspora. Gina K. Velasco explores the tensions within Filipina/o American cultural production between feminist and queer critiques of the nation and popular nationalism as a form of resistance to neoimperialism and globalization. Using a queer diasporic analysis, Velasco examines the politics of nationalism within Filipina/o American cultural production to consider an essential question: can a queer and feminist imagining of the diaspora reconcile with gendered tropes of the Philippine nation? Integrating a transnational feminist analysis of globalized gendered labor with a consideration of queer cultural politics, Velasco envisions forms of feminist and queer diasporic belonging, while simultaneously foregrounding nationalist movements as vital instruments of struggle.

Classic story of the last days of Spanish rule in the Philippines.
Trade, Translation, and Visual Culture of Entangled Empires (1565-1898) Routledge

Between the sixteenth and nineteenth centuries, competing European empires, notably Spain, Portugal, Great Britain, the

Netherlands, Germany, France, Belgium, and others vied for commercial and political control of transoceanic networks, particularly the transpacific routes between Asia and the Americas. The essays in *Transpacific Engagements: Trade, Translation, and Visual Culture of Entangled Empires (1565-1898)* address the resulting cultural and artistic exchanges with an emphasis on both the Spanish and American enterprises in the Asia-Pacific region. The essays are grouped into three parts entitled “Entangled Empires,” “Empires and Translations,” and “Empires and Trade.” A common thread in the diverse perspectives presented here is the importance of transpacific engagements to the global connections of the sixteenth century and beyond. While the focus is on the specific connection between the Asia-Pacific region and the Americas through the Philippines, we see how other parts of the world, notably South and Southeast Asia and Europe, were also participants impacted by these transpacific linkages. The goal is to convey the complexity of entangled networks of commercial, political, and religious interests that complicate the Spanish enterprise in the Pacific. Commercial ventures into Canton and Manila by the early American republic, for example, overlapped with and later replaced the Spanish galleons. East, South, and Southeast Asian polities and dynasties remained powerful players in what were often multilateral, rather than bilateral, exchanges. Contributors to this volume are based in Asia, the Americas, and Europe.
