Born during the Great Depression and the height of the modernist/fundamentalist controversies, Paul Emanuel Larsen entered pastoral ministries in the late fifties. Rooted in historical evangelical theology, he embarked on church planting through expository preaching and evangelism. In the mid-sixties, he also became politically involved in the civil rights movement. For over twenty-seven years, he pastored three churches while pursuing

advanced pastoral doctoral studies. In 1986, he was elected president of his denomination, the Evangelical Covenant Church. During his twelve years of service, he became involved in both national and international ecumenical affairs. For twelve years, he served as chair of the Annual Meeting of all United States Church Leaders. This included heads of Roman Catholic, Orthodox, mainline Protestant, and evangelical denominations. He aided his church in its emergence from its Swedish immigrant culture and its efforts to become an ethnically inclusive church body. During his tenure, the church grew by more than 50 percent. Retiring at age sixty-five, he spent the next twenty years pursuing evangelization and social justice on behalf of more than a half billion Indian Other Backward Castes and Dalits. He was the founding chair of both Truthseekers International USA and the William Carey Heritage Foundation. The former worked among the poorest of the poor, while the latter developed the first Indian university-accredited evangelical PhD in Christian studies. This book chronicles the way one pastor has sought to navigate the harsh ongoing polarizations in theology, race, and politics.

The volume attempts to gauge and analyse the level of denial and deprivation faced by Indian Muslims by evaluating their status after a gap of several years of Sachar Committee (2006) and Rangnath Mishra Commission (2007) Reports. It presents and discusses the current conditions with respect to outcome indicators such as population, education, economy, poverty, unemployment, consumption level, availability of bank loans, infrastructure and civic facilities and representation in government employment. By placing facts in perspective, it also discusses community-specific issues such as use of Urdu, madrasa education and Waqf. In the post-Sachar era, governments started many schemes to improve the condition of Muslims whose reach and impact is assessed with the help of latest data. It presents the social structure of Muslims, presence of OBCs and Dalits and suggests a practical pattern for reservation. It follows up the process of implementation of recommendations of these reports and highlights how the governments adopted tokenism, attempted to implement minor recommendations and shied away from major ones. The volume highlights the lopsided attitude of the previous UPA governments, hostile attitude of the present NDA regime and accelerated marginalization of Muslims in today's scenario due to open discrimination, mob-violence, lynching and hate crimes in the

name of various communal issues. Please note: Taylor & Francis does not sell or distribute the Hardback in India, Pakistan, Nepal, Bhutan, Bangladesh and Sri Lanka

This book examines the land question in neoliberal India based on a cohesive framework focusing on socio-legal and judicial interactions in a point of departure from the political-economy approach to land issues. It sheds light on several complex aspects of land matters in India and evolves a critical and multi-dimensional discourse by mapping out exchanges between social and political actors, the State, elites, citizenry, and the legal battle or judicial interpretations on land as right to property. Based on the themes of socio-legal policy and perspective on 'land' on the one hand and jurisprudence on the land question on the other, the volume discusses topics such as conclusive land

titling; urban land governance; governance of forest land; land-leasing practices, policies, and interventions from the perspective of women; land acquisition policies and laws; how land matters interface with environmental issues; and judicial debates on 'compensation' against land acquisitions. It covers a wide range of case studies from all over India by bringing together specialists from across backgrounds. Comprehensive and topical, this book will be useful to scholars and researchers of development studies, political studies, law, sociology, political economy, and public policy, as well as to professionals in NGOs, civil society organisations, think tanks, planning and public administration, lawyers, civil services and training institutes, and judicial and forest academies. Those working on rural and urban land issues in India, land management, land governance, environmental laws and governance, property rights, resource conflicts, social work, and rural development will find this book to be of special interest.
