The Guardian's Best Science Book of 2017: the fascinating science and history of the air we breathe. It's invisible. It's ever-present. Without it, you would die in minutes. And it has an epic

story to tell. In Caesar's Last Breath, New York Times bestselling author Sam Kean takes us on a journey through the periodic table, around the globe, and across time to tell the story of the air we breathe, which, it turns out, is also the story of earth and our existence on it. With every breath, you literally inhale the history of the world. On the ides of March, 44 BC, Julius Caesar died of stab wounds on the Senate floor, but the story of his last breath is still unfolding; in fact, you're probably inhaling some of it now. Of the sextillions of molecules entering or leaving your lungs at this moment, some might well bear traces of Cleopatra's perfumes, German mustard gas, particles exhaled by dinosaurs or emitted by atomic bombs, even remnants of stardust from the universe's creation. Tracing the origins and ingredients of our atmosphere, Kean reveals how the alchemy of air reshaped our continents, steered human progress, powered revolutions, and

continues to influence everything we do. Along the way, we'll swim with radioactive pigs, witness the most important chemical reactions humans have discovered, and join the crowd at the Moulin Rouge for some of the crudest performance art of all time. Lively, witty, and filled with the astounding science of ordinary life, Caesar's Last Breath illuminates the science stories swirling around us every second.

Moby Dick is a novel by American writer Herman Melville. The work is an epic sea story of Captain Ahab's voyage in pursuit of Moby Dick, a great white whale. A contemporary commercial failure and out of print at the time of the author's death in 1891, its reputation rose during the twentieth century. D.H. Lawrence called it "the greatest book of the sea ever written." Jorge Luis Borges praised the style: "Unforgettable phrases abound." Today it is considered one of the Great American Novels and a leading work of American Romanticism. The opening line, "Call me Ishmael," is one of the most recognizable opening lines in Western literature. Ishmael then narrates the voyage of the whaleship Pequod, commanded by Captain Ahab. Ahab has one purpose: revenge on Moby Dick, a ferocious, enigmatic white whale which on a previous voyage destroyed Ahab's ship and severed his leg at the knee. The detailed and realistic descriptions of whale hunting and the process of extracting whale oil, as well as life aboard ship among a culturally diverse crew, are mixed with exploration of class and social status, good and evil, and the existence of God. Melville uses a wide range of styles and literary devices ranging from lists and catalogs to Shakespearean stage directions, soliloquies, and asides.

#### A Heart-Stopping Novel of Paranormal Romantic Suspense Montlake Romance

Sudden, extreme deaths have always fascinated us-- and now more than ever as athletes and travelers rise to the challenges of high-risk sports and journeys on the edge. In this spellbinding book, veteran travel and outdoor sports writer Peter Stark reenacts the dramas of what happens inside our bodies, our minds, and our souls when we push ourselves to the absolute limits of human endurance. Combining the adrenaline high of extreme sports with the startling facts of physiological reality, Stark narrates a series of outdoor adventure stories in which thrill can cross the line to mortal peril. Each death or brush with death is at once a suspense story, a cautionary tale, and a medical thriller. Stark describes in unforgettable detail exactly what goes through the mind of a cross-country skier as his body temperature plummets-- apathy at ninety-one degrees, stupor at ninety. He puts us inside the body of a doomed kayaker tumbling helplessly underwater for two minutes, five minutes, ten minutes.

He conjures up the physiology of a snowboarder frantically trying not to panic as he consumes the tiny pocket of air trapped around his face under thousands of pounds of snow. These are among the dire situations that Stark transforms into harrowing accounts of how our bodies react to trauma, how reflexes and instinct compel us to fight back, and how, why, and when we let go of our will to live. In an increasingly tamed and homogenized world, risk is not only a means of escape but a path to spirituality. As Peter Stark writes, "You must try to understand death intimately and prepare yourself for death in order to live a full and satisfying life." In this fascinating, informative book, Stark reveals exactly what we're getting ourselves into when we choose to live-- and die-- at the extremes of endurance.

This thrilling new 'Pride and Prejudice' variation will take you far beyond the events of Jane Austen's novel, hurling Mr Darcy and Miss Elizabeth into a dramatic adventure neither could ever have imagined. After his unfortunate marriage proposal, Darcy writes Elizabeth a letter and, in his attempt to hand it to her, everything changes - both of them are kidnapped. In just a few days, Elizabeth finds herself floundering in fear, loneliness and despair, facing a terrible future at the hands of heartless mercenaries, while Darcy, injured, is left behind. Determined to save the lady who holds his heart, Darcy embarks on an uncertain journey to rescue Elizabeth. Together with his cousin, Colonel Fitzwilliam, he discovers the power of love, friendship and trust, which goes beyond any familial connection. In this romantic, dramatic adventure, involving sea travels, mercenary pirates and bloody fights able to determine life or death, Darcy and Elizabeth come

to realise that they must never let hope die. Hope and their mutual love are all they have to keep them alive. Until their last breath. EXTRACT Richard was now very curious about how Darcy had managed to bear the journey from London to Portsmouth in his present condition. Darcy chuckled at his enquiries. "Richard, you know me well enough to guess I could not stay back when so much is at stake, when Elizabeth's life is in such danger." He looked around and all eyes were on him. He became serious again. "They say that love and hate are the two most powerful forces to move a man. I can guarantee you all, I have plenty of both." ABOUT THE AUTHOR As a non-fiction writer and polyglot, I am fascinated by the beauty of writing, and the gift of combining words and sentences to achieve the perfect expression of ideas and critical analysis. But writing fiction also takes one a step further and expresses, at a much deeper level, not only creativity, but feelings and emotions. And that is my intention from now on: to write stories that can arouse people's feelings and dreams. And what could be better than starting it with something I just love? As a huge fan of Pride and Prejudice - my favourite book by far - I have spent the last two years reading not only the original, but also hundreds and hundreds of P&P variations. As a result, while increasing my knowledge of the

English language on an academic level, I decided I would like to start writing my own versions. I can only hope you enjoy reading them as much as I have enjoyed writing them. POST SCRIPTUM - 27th Sep 2018 Please, allow me to add a small comment about some of the reviews I have received in USA. Indeed, English is not my native language, but contrarily to what was said, I am aware of my limitations and had this story analysed by an editor and copyedited by a registered professional. Unfortunately, as it seems, I was not very happy with my choices. I can just add that I have a deep respect for my readers, and that I have already corrected those mentioned mistakes.
