*Violence Against Women as Bias Motivated
Hate Crime* SAGE Publications

Crimes of Hate: Selected Readings is the first comprehensive reader to offer an up-to-date, multidisciplinary examination of hate crimes. Editors Phyllis B. Gerstenfeld and Diana R. Grant include articles from a variety of disciplines, including criminal justice, criminology, sociology,

psychology, and political science. With introductions, discussion questions, and resource lists, this unique anthology combines the most current research on hate crimes with accessible articles from scholarly and legal journals in a single, easily understood format. Developed as a companion to Gerstenfeld's *Hate Crimes: Causes, Controls, and Controversies*, this innovative reader will provoke thought and discussion in undergraduate and graduate students in criminology, criminal justice, and sociology courses.

10 Ways to Fight Hate Basic Books

Is one person's terrorist another's freedom fighter? Is terrorism crime or war? Can there be a "War on Terror"? For many, the terrorist attacks of September 2001 changed the face of the world, pushing terrorism to the top of political agendas, and leading to a series of world events including the war in Iraq and the invasion of Afghanistan. The recent terror attacks in various European cities have shown that terrorism remains a crucial issue today. Charting a clear path through the efforts to understand and explain modern terrorism, Charles Townshend examines

the historical, ideological, and local roots of terrorist violence. Starting from the question of why terrorists find it so easy to seize public attention, this new edition analyzes the emergence of terrorism as a political strategy, and discusses the objectives which have been pursued by users of this strategy from French revolutionaries to Islamic jihadists. Considering the kinds of groups and individuals who adopt terrorism, Townshend discusses the emergence of ISIS and the upsurge in individual suicide action, and explores the issues involved in finding a proportionate response to the threat they present, particularly by liberal democratic societies. Analyzing the growing use of knives and other edged weapons in attacks, and the issue of "cyberterror," Townshend details the use of counterterrorist measures, from control orders to drone strikes, including the Belgian and French responses to the Brussels, Paris, Nice, and Rouen attacks.

ABOUT THE SERIES: The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area. These pocket-sized books are the perfect way to get ahead in

a new subject quickly. Our expert authors combine facts, analysis, perspective, new ideas, and enthusiasm to make interesting and challenging topics highly readable.

Causes, Controls, and Controversies SAGE

In the United States, some populations suffer from far greater disparities in health than others. Those disparities are caused not only by fundamental differences in health status across segments of the population, but also because of inequities in factors that impact health status, so-called determinants of health. Only part of an individual's health status depends on his or her behavior and choice; community-wide problems like poverty, unemployment, poor education, inadequate housing, poor public transportation, interpersonal violence, and decaying neighborhoods also contribute to health inequities, as well as the historic and ongoing interplay of structures, policies, and norms that shape lives. When these factors are not optimal in a community, it does not mean they are intractable: such inequities can be mitigated by social policies that can shape health in powerful ways. Communities in Action: Pathways to Health Equity seeks to

delineate the causes of and the solutions to health inequities in the United States. This report focuses on what communities can do to promote health equity, what actions are needed by the many and varied stakeholders that are part of communities or support them, as well as the root causes and structural barriers that need to be overcome.

Selected Readings Routledge

In The Name of Hate is the first book to offer a comprehensive theory of hate crimes, arguing for an expansion of the legal definitions that most states in the U.S. hold. Barbara Perry provides an historical understanding of hate crimes and provocatively argues that hate crimes are not an aberration of current society, but rather a by-product of a society still grappling with inequality, difference, fear, and hate.

Preventing Youth Hate Crime SAGE Publications

This engaging and thought-provoking text provides an accessible introduction to the subject of hate crime. In a world where issues of hatred and prejudice are creating complex challenges for society and for governments, this book provides an

articulate and insightful overview of how such issues relate to crime and criminal justice. It offers comprehensive coverage, including topics such as: Racist hate crime
Religiously motivated hate crime
Homophobic crime Gender and violence
Disablist hate crime
Critical Perspectives on Hate Crime
Rutgers University Press
This second edition of the acclaimed *American Swastika* provides an up-to-date perspective on the white power movement in America. The book takes readers through hidden enclaves of hate, exploring how white supremacy movements thrive nationwide and how we can work to prevent future violence. Filled with powerful case studies, interviews, and first-person accounts, the book explains the differences between various hate groups, then shows how white supremacy groups cultivate their membership through Aryan homes, parties, rituals, music festivals, and online propaganda. Featuring updated statistics and examples throughout, the second edition of *American Swastika* describes most of today's active white power groups and the legacy of recently disbanded groups. It

also discusses new players in the world of white power websites and music and shares new research on how people exit hate groups. As recent events have made clear that the idea of a "post-racial America" is a myth, *American Swastika* is essential reading for understanding both how hate builds and how we can work to prevent violence.
Hate Crimes SAGE
Who perpetrates hate crimes and why?
How do hate groups recruit members?
Why does so much controversy surround hate crime legislation? While hate crimes are becoming a popular area of academic study, many important questions about hate crimes remain unanswered. *Hate Crimes: Causes, Controls, and Controversies* addresses the many facets of hate crimes, providing a comprehensive examination of this complex problem. Author Phyllis B. Gerstenfeld explores the causes of prejudice, the history and operation of hate crime legislation, the activities of organized extremist groups, the international manifestations and solutions to hate crimes, and the consequences of hate crimes upon victims and communities. Considering a broad

range of issues from a variety of perspectives, this multidisciplinary text includes the latest legal developments and cutting-edge social research.
Fundamentals of Research in Criminology and Criminal Justice Routledge
Over the last five years, widespread concern about the effects of social media on democracy has led to an explosion in research from different disciplines and corners of academia. This book is the first of its kind to take stock of this emerging multi-disciplinary field by synthesizing what we know, identifying what we do not know and obstacles to future research, and charting a course for the future inquiry. Chapters by leading scholars cover major topics – from disinformation to hate speech to political advertising – and situate recent developments in the context of key policy questions. In addition, the book canvasses existing reform proposals in order to address widely perceived threats that social media poses to democracy. This title is also available as Open Access on Cambridge Core.
Hate Crimes Revisited Cambridge University Press

If you believe the news, today's America is plagued by an epidemic of violent hate crimes. But is that really true? In *Hoax*, Professor Wilfred Reilly examines over one hundred widely publicized incidents of so-called hate crimes that never actually happened. With a critical eye and attention to detail, Reilly debunks these fabricated incidents—many of them alleged to have happened on college campuses—and explores why so many Americans are driven to fake hate crimes. We're not experiencing an epidemic of hate crimes, Reilly concludes—but we might be experiencing an unprecedented epidemic of hate crime hoaxes.

Criminal Law and Identity Politics

Routledge

Fundamentals of Research in Criminology and Criminal Justice, Fourth Edition introduces students to the multifaceted subject of research methods and shows them why research is important in the field of criminology and criminal justice. This brief version of Ronet Bachman and Russell K. Schutt's successful textbook (*The Practice of Research in Criminology and Criminal Justice*) simplifies complex concepts with real-world research

examples found in everyday experiences in the criminology and criminal justice professions. The thoroughly updated Fourth Edition of this bestseller reflects the most recent developments in research methods, including the use of big data, increased coverage of crime mapping, evidence-based and web-based research, along with the most current research examples impacting the field. This is an excellent introductory text for undergraduate research courses, and is ideal for students who want to understand how and why criminal justice research is done to become critical consumers of research.

The Global Politics of Polarization SAGE Publications

This book offers the first collection of essays dedicated to the issue of hate crimes in Australia. Contributions address crimes against Aborigines, members of Australia's Arabic communities, Jews and lesbians and gay men. Through a systemic approach to explaining social and political marginalisation, they also look at histories of racism and neo-Nazi organisations in Australia, and the widening base of support and legitimation for hate crimes in

the 'symbolic violence' of popular contemporary discourse about minorities and an imagined homogeneous community of white, Christian and heterosexual Australians.

In the Name of Hate Routledge

Written by three nationally recognized experts in the field, *Criminal Courts: A Contemporary Perspective* explores all the fundamental topics (court structure, courtroom actors, and the trial and appeals process) as well as other groundbreaking topics, such as specialty courts and comparative court systems. This bestseller provides you with a foundation for understanding key concepts by reviewing the judicial function, the role and purpose of law, sources of law, the various types of law, and the American court system's structure and operations. You will build on this foundation by learning about participants in the system and the pretrial, trial, and post-trial processes. Packed with contemporary examples and new pedagogical tools, the Fourth Edition has been thoroughly revised with the most up-to-date content and resources to give you a more comprehensive understanding of the

criminal courts system.

The Rising Tide of Bigotry and Bloodshed
National Academies Press

This issue takes an interdisciplinary approach to examine the harms of hate crime and hate speech. Working definitions are situated within the broader context of intergroup relations, prejudice, aggression, and law and social policy. Theory and research from social psychology, criminology, and legal studies are utilized to describe this context. Several studies significantly contribute by including empirical observations of the impact of hate speech and hate crime. The studies that focus on the perpetrator add unique discussions regarding similar social attitudes between hate group members and ordinary youth in addition to crime motives of hate crime perpetrators.

The Cultural Politics of Hate Crimes SIU Press

This edited collection brings together many of the world's leading experts, both academic and practitioner, in a single volume handbook that examines key international issues in the field of hate crime. Collectively it examines a range of pertinent areas with the ultimate aim of

providing a detailed picture of the hate crime 'problem' in different parts of the world. The book is divided into four parts: An examination, covering theories and concepts, of issues relating to definitions of hate crime, the individual and community impacts of hate crime, the controversies of hate crime legislation, and theoretical approaches to understanding offending. An exploration of the international geography of hate, in which each chapter examines a range of hate crime issues in different parts of the world, including the UK, wider Europe, North America, Australia and New Zealand. Reflections on a number of different perspectives across a range of key issues in hate crime, examining areas including particular issues affecting different victim groups, the increasingly important influence of the Internet, and hate crimes in sport. A discussion of a range of international efforts being utilised to combat hate and hate crime. Offering a strong international focus and comprehensive coverage of a wide range of hate crime issues, this book is an important contribution to hate crime studies and will be essential reading for

academics, students and practitioners interested in this field.

Impact, Causes and Responses Hawkins Press

Although victimization of lesbians and gay men is not a new problem, its severity appears to be increasing. After several decades of denial and neglect, the problem of anti-gay violence has begun to receive some measure of societal recognition and response. Not only the lesbian and gay male community.

American Swastika Oxford University Press (UK)

In the early 1980s, a new category of crime appeared in the criminal law lexicon. In response to concerted advocacy-group lobbying, Congress and many state legislatures passed a wave of "hate crime" laws requiring the collection of statistics on, and enhancing the punishment for, crimes motivated by certain prejudices. This book places the evolution of the hate crime concept in socio-legal perspective. James B. Jacobs and Kimberly Potter adopt a skeptical if not critical stance, maintaining that legal definitions of hate crime are riddled with ambiguity and subjectivity. No matter how hate crime is

defined, and despite an apparent media consensus to the contrary, the authors find no evidence to support the claim that the United States is experiencing a hate crime epidemic—instead, they cast doubt on whether the number of hate crimes is even increasing. The authors further assert that, while the federal effort to establish a reliable hate crime accounting system has failed, data collected for this purpose have led to widespread misinterpretation of the state of intergroup relations in this country. The book contends that hate crime as a socio-legal category represents the elaboration of an identity politics now manifesting itself in many areas of the law. But the attempt to apply the anti-discrimination paradigm to criminal law generates problems and anomalies. For one thing, members of minority groups are frequently hate crime perpetrators. Moreover, the underlying conduct prohibited by hate crime law is already subject to criminal punishment. Jacobs and Potter question whether hate crimes are worse or more serious than similar crimes attributable to other anti-social motivations. They also argue that the effort to single out hate crime for

greater punishment is, in effect, an effort to punish some offenders more seriously simply because of their beliefs, opinions, or values, thus implicating the First Amendment. Advancing a provocative argument in clear and persuasive terms, Jacobs and Potter show how the recriminalization of hate crime has little (if any) value with respect to law enforcement or criminal justice. Indeed, enforcement of such laws may exacerbate intergroup tensions rather than eradicate prejudice.

Implications of Collective Action, Media Representations and Policy Making SAGE Publications

The Fourth Edition of *Hate Crimes: Causes, Controls, and Controversies* by Phyllis B. Gerstenfeld takes a multidisciplinary approach that allows students to explore a broad scope of hate crimes. Drawing on recent developments, topics, and current research, this book examines the issues that foster hate crimes while demonstrating how these criminal acts impact individuals, as well as communities. Students are introduced to the issue through first-person vignettes—offering a more personalized

account of both victims and perpetrators of hate crimes. Packed with the latest court cases, research, and statistics from a variety of scholarly sources, the Fourth Edition is one of the most comprehensive and accessible textbooks in the field.

Crimes of Hate Amsterdam University Press

Global Indian Diasporas discusses the relationship between South Asian emigrants and their homeland, the reproduction of Indian culture abroad, and the role of the Indian state in reconnecting emigrants to India. Focusing on the limits of the diaspora concept, rather than its possibilities, this volume presents new historical and anthropological research on South Asian emigrants worldwide. From a comparative perspective, examples of South Asian emigrants in Suriname, Mauritius, East Africa, Canada, and the United Kingdom are deployed in order to show that in each of these regions there are South Asian emigrants who do not fit into the Indian diaspora concept—raising questions about the effectiveness of the diaspora as an academic and sociological index, and presenting new and controversial insights in diaspora issues.

Global Indian Diasporas Wiley-Blackwell
This is a print on demand edition of a hard to find publication. Presents the annual estimates of rates and levels of violent crime (rape or sexual assault, robbery, aggravated assault, and simple assault), property crime (burglary, motor vehicle theft, and property theft), and personal theft (pocket picking and purse snatching).

It describes the year-to-year change from 2008 and trends for the 10-year period from 2000 through 2009. The Nat. Criminal Victimization Survey collects information on non-fatal crimes, reported and not reported to the police, against persons age 12 or older from a nationally representative sample of U.S. households.

This report also includes data on the characteristics of victims of crime; estimates of intimate partner violence; and use of firearms and other weapons during the crime. Illustrations.
