GABRIELLE VAUGHAN

Do It Yourself BookKeeping for Small Businesses □□□□□

This book describes a practical and easy to implement bookkeeping system, that anyone will be able to use without previous knowledge of finance, accounting or book-keeping. It provides a proven methodology that will enable you to:

- Create a simple book-keeping system that anyone can manage
- Create an easy to use system that controls the paperwork
- Calculate VAT liability or VAT refund figures
- Produce key financial figures concerning your business
- Exercise proper financial control over your business
- Reduce year-end accounting fees
- Reduce the stress from dealing with book-keeping and paperwork

If you can create a shopping list, then you can create a list of financial transactions and do your own book-keeping. It really is that simple!

Mastering Book-keeping Using Spreadsheets Wiley

"THIS GREAT AND EASY TO UNDERSTAND BOOK TEACHES A VERY USEFUL WAY TO ANALYZE DATA" - Accounting Manager of a Sportswear Company Did you know that being an Excel Champion increases your chances of getting promotions and better jobs? And believe me, you can save way much more time than just 1 hour a week. CLICK "BUY NOW" AND BECOME AN EXCEL CONDITIONAL FORMATTING CHAMPION!

The MS-DOS Handbook Sybex

Third edition (of a 1986 book!) presents details on versions 3.2 and 3.3 along with a guide to the difference among the many variants of DOS. No bibliography. Annotation copyrighted by Book News, Inc., Portland, OR

MS-DOS Power User's Guide John Wiley & Sons

The book explains the principles and practice of bookkeeping sequentially, including:

- The bank reconciliation
- Writing up the petty cash book
- Extracting a trial balance
- Accruals and prepayments
- Setting up a limited company
- Accounting for VAT

Plus step-by-step guides to compiling a balance sheet, depreciation, accounting for bad and doubtful debts and much more. The 10th edition also includes significant enhancements to reflect the teachings of the principle bookkeeping institutes as they endeavour to raise the professional competence of their members. For example, accounting staff are increasingly being required to extend their record keeping into management accounts areas. The new edition includes chapters on stock control and budgetary control accounting. In addition, it will include more detailed guidance on the significance and importance of ratio analysis and statements of sources and application of funds, plus the latest available IAB and ICB exam papers.

Bookkeeping and Accounting All-in-One For Dummies - UK Prentice Hall

The Definitive Guide to Managing the Numbers Sybex

During live CPE training sessions, and through Excel articles featured in magazines such as the Journal of Accountancy and California CPA Magazine, Jeff Lenning, founder of Click Consulting, Inc., has shown thousands of CPAs and accounting professionals across the country how to use Excel more effectively. Drawing on his experience as an auditor, a financial analyst in industry, an accounting manager at a public company, and a consultant, he has demonstrated how to leverage Excel in order to improve efficiency by reducing the time it takes to complete job tasks. Written to reach those he won't have the opportunity to meet in one of his CPE sessions, Lenning's series, Excel University: Microsoft Excel Training for CPAs and Accounting Professionals, offers a comprehensive collection of the features, functions, and techniques that are of direct benefit to accountants working in industry, public practice, consulting, or not-for-profit.

Concentrating on Excel for Windows, his books offer a hands-on approach to learning and include narrative, screenshots, video content, Excel practice files, and exercises that demonstrate the practical application of the items presented in each chapter. Visit <http://www.clickconsulting.com/books> to access the Excel University video library and to download the practice files.

Features, functions and techniques are presented in a sequential and progressive manner, so the books are best read in order. In Volume 1, the author presents material and information that will prove useful to every accountant, regardless of the type of work they do. Blown away by the power of Excel, readers are sure to find this series relevant, enlightening, and extremely easy-to-follow.

Financial Modeling for Decision Making McGraw Hill Professional Finance is a notoriously difficult core subject for business undergraduates, which many find difficult to understand. The area has been dominated by large and complex introductory texts - often from the US - which many lecturers find too detailed and unwieldy. This carefully developed and researched text will fill this gap by providing a succinct, modular, UK-focused introduction to the subject of financial management. Quality controlled by an academic review panel, the content and approach has been rigorously developed to answer the needs of non-finance students. The user-friendly features and design will be of great

appeal to the many undergraduates who find finance a difficult subject. Examples, models, formulas, and exercises are lucidly and clearly presented, supported by strong pedagogical features - learning objectives, worked examples, key learning points, further reading, practical assignments, references, case studies and teacher's guide. This ensures that Financial Management will prove the most accessible text for business and finance students.
