Simon and Schuster
Hermes is the Greek
god of the Word, of
thought and magic, the
swift-moving
messenger of the
Divine and guardian of
souls in the Afterlife. In
Ancient Egypt he was
the majestic god
Thoth, the Recorder,
the lord of
measurement and
science, the

brother/husband of Isis. In Rome, he was of course Mercury, flying through the Empyrean at the speed of idea by the aid of his winged helmet and boots. In this broad survey of the Hermetic arts, author Jacob Slavenburg brings an unparalleled depth of insight to the subject. He examines the historical Hermetic literature and details its relevance to modern occultism, from the symbolism of architecture and art to the mysteries of Freemasonry. The heavenly mysteries of astrology are explored as are the healing arts which derive from the spirit of scientific inquiry embodied by Thoth/Hermes. Slavenburg examines the magical writings of the Greek papyri and

their development into the contemporary magical practices of modern adepts. He sheds light on the workings of alchemy and the esoteric philosophy to the world of modern chemistry and physics. He explores the origin of evil and the realm of the afterlife, and the Hermetic doctrines of reincarnation and karma. In addition, the author provides a wealth of biographical data on the magi of Hermeticism, from Ficino to Agrippa, John Dee to Giordano Bruno.

His Legacy in Gnosticism, Paganism, and Freemasonry
 Jazzybee Verlag
 The first easily accessible translation of the esoteric writings that inspired some of the world's greatest

artists, scientists, and philosophers. Here is an essential digest of the Greco-Egyptian writings attributed to the legendary sage-god Hermes Trismegistus (Greek for thrice-greatest Hermes)?a combination of the Egyptian Thoth and the Greek Hermes. The figure of Hermes was venerated as a great and mythical teacher in the ancient world and was rediscovered by the finest minds of the Renaissance. The writings attributed to his hand are a time capsule of Egyptian and Greek esoteric philosophy and have influenced figures including Blake, Newton, Milton, Shelley, Shakespeare, Botticelli, Leonardo da Vinci, and Jung. Providing a fascinating

introduction to the intersection of the Egyptian and Hellenic cultures and the magico-religious ideas of the antique world, "The Hermetica" is a marvelous volume for anyone interested in understanding the West's roots in mystical thought. *A Pocketbook Edition of The Corpus Hermeticum, The Lost Wisdom of Pharaohs, The Divine Pymander* Nicolas-Hays, Inc. What do the Fourth Crusade, the exploration of the New World, secret excavations of the Holy Land, and the pontificate of Innocent the Third all have in common? Answer: Venice and the Templars. What do they have in common with Jesus, Gottfried Leibniz, Sir Isaac

Newton, Rene Descartes, and the Earl of Oxford? Answer: Egypt and a body of doctrine known as Hermeticism. In this book, noted author and researcher Joseph P. Farrell takes the reader on a journey through the hidden history of the Middle Ages, the Renaissance and early Enlightenment, connecting the dots between Venice, international banking, the Templars, and hidden knowledge. He draws out the connections between the notorious Venetian "Council of Ten," little known Venetian voyages to the New World, and the sack of Constantinople during the Fourth Crusade. The hidden role of Venice and Hermeticism reached far and wide, into the

plays of Shakespeare (a.k.a. Edward De Vere, Earl of Oxford), into the quest of the three great mathematicians of the Early Enlightenment for a lost form of analysis, and back into the end of the classical era, to little known Egyptian influences at work during the time of Jesus.

Gnostic Vision, Sacred Ecology, and the Future of Belief Feral House

This is the edition including all three books. The so-called Hermetic writings have been known to Christian writers for many centuries. The early church Fathers (Justin Martyr, Tertullian, Clement of Alexandria) quote them in defense of Christianity. Stobaeus collected fragments of

them. The Humanists knew and valued them. They were studied in the sixteenth and seventeenth centuries, and in modern times have again been diligently examined by many scholars. G. R. S. Mead has issued a translation of the whole body of extant literature, with extended prolegomena, commentary, etc. There is a wide difference of opinion as to the date at which this literature was produced. Mead believes that some of the extant portions of it are at least as early as the earliest Christian writings, while von Christ assigns them to the third Christian century, and thinks that they show the influence of neo-Platonism. To affirm

that they influenced New Testament usage would be hazardous, but they perhaps throw some light on the direction in which thought was moving in New Testament times.

Physicist Joseph Farrell is amazing sequel to 'The Giza Death Star' which takes us from the Great Pyramid of Giza to the asteroid belt and the so-called Pyramids of Mars. Farrell expands on his thesis that the Great Pyramid was a chemical maser, designed as a weapon and eventually deployed with disastrous results to

the solar system. The Great Pyramid as a weapon! Evidence of the Use of Weapons of Mass Destruction in Ancient Times! The Astonishing Technology used in the Giza Death Star! Evidence of a similar Death Star-Pyramid built on Mars! The mystery of the Asteroid Belt solved! Topics in this amazing book include: Exploding Planets: The Movie, the Mirro, and the Model; Dating the Catastrophe and the Compound; A Brief History of the Exoteric and Esoteric Investigations of the Great Pyramid; No Machines, Please!; The Stargate Conspiracy; The Scalar Weapons; Message or Machine?; A Tesla Analysis of the Putative Physics and Engineering of the Giza Death Star; Cohering

the Zero Point, Vacuum Energy, Flux: Synopsis of Scalar Physics and Paleophysics; Configuring the Scalar Pulse Wave; Inferred Applications in the Great Pyramid; Quantum Numerology, Feedback Loops and Tetrahedral Physic

Thrice Great Hermetica and the Janus Age

CreateSpace
The Corpus

Hermeticum is one of the primary works within the Hermetic Tradition. This Renaissance era craft is nonetheless based upon philosophical materials from far older times, namely the third or fourth century AD, from which the primordial material came. Credited to Hermes Trismegistus, the Divine Pyramander (sometimes spelled "Poemander") touches upon astronomy, science, nature, and a great deal of theological material. It is presented in the form of discourse; a format which will be familiar to anyone also familiar with Plato's "Republic" and some similar philosophical works of antiquity. Through his discourse with several individuals,

Trismegistus attempts to draw upon the overarching philosophy "as above, so below." Thus then, this work describes the very process and ideation behind all of existence, the purpose of life, and the nature of good and evil, all through its treatises upon various topics.

A Visual Sourcebook for the Modern Mystic

SCB Distributors

A firsthand, behind-the-scene account of the controversies surrounding modern explorations at Giza • Investigates the recent scandals at Giza and claims of secret excavations and tunneling inside the Great Pyramid • Reveals the historical evidence in support of secret chambers in the Great Pyramid and beneath the Great

Sphinx • Exposes the secret agendas behind the latest explorations on the Giza plateau Since 1993 Robert Bauval has been embroiled in the many controversies involving the search for the lost treasures of the pyramid builders and the quest for the legendary Hall of Records of Atlantis. The strange but true story that he unfolds implicates American business moguls, the prestigious National Geographic Society, several Ivy League universities, the Edgar Cayce Foundation, the Freemasons, Christian fundamentalists, Zionists, and the Egyptian government. In this fully updated edition of Secret Chamber, including new color photographs, Robert Bauval pursues

his in-depth investigation of clandestine events at Giza and the role played by the controversial ex-Minister of Antiquities Dr. Zahi Hawass. What lies behind the mysterious doors at the end of the star shafts in the Great Pyramid? What do the mysterious inscriptions found behind the Gantenbrink door mean? What is the real purpose of the Relief Chambers and the red ochre "graffiti" in them? Who is behind the secretly tunneling and excavating in these chambers, and why? Is there really a hidden Hall of Records from Atlantis beneath the Great Sphinx? Is the Great Pyramid just a tomb or does it serve a higher purpose involving a lost science

of immortality? Why do the ancient texts ascribe the Pyramid's design to the supreme god of wisdom Thoth, the writer of the fabled Books of Hermes? Will the Great Pyramid prove to be the "missing link" to our true origins or a "metaphysical machine" to access the world beyond?

Providing a firsthand account of the strange events that have taken place at the Giza plateau in the last three decades, Bauval reveals the hidden agendas behind these events and raises important questions about the meaning of Egypt's ancient structures and the very origins of civilization.

The Perfect Discourse of Hermes Trismegistus

SCB Distributors

This volume presents

in new English translations the scattered fragments and testimonies regarding Hermes Thrice Great that complete Brian Copenhaver's translation of the *Hermetica* (Cambridge, 1992). It contains the twenty-nine fragments from Stobaeus (including the famous *Kore Kosmou*), the Oxford and Vienna fragments (never before translated), an expanded selection of fragments from various authors (including Zosimus of Panopolis, Augustine, and Albert the Great), and testimonies about Hermes from thirty-eight authors (including Cicero, Pseudo-Manetho, the Emperor Julian, Al-Kindī, Michael Psellus, the Emerald Tablet,

and Nicholas of Cusa). All translations are accompanied by introductions and notes which cite sources for further reading. These Hermetic texts will appeal to a broad array of readers interested in western esotericism including scholars of Egyptology, the New Testament, the classical world, Byzantium, medieval Islam, the Latin Middle Ages, and the Renaissance. *The Divine Pyramander* SCB Distributors Hermetica is a category of literature dating from Late Antiquity that purports to contain secret wisdom, generally attributed to Hermes Trismegistus, "thrice-great Hermes," who is a syncretism of the Greek god Hermes and the Egyptian deity

Thoth. A collection of several such Greek texts from the 2nd and 3rd centuries, remnants of a more extensive previous literature, were compiled into a *Corpus Hermeticum* by Italian scholars during the Renaissance, notably by Marsilio Ficino, whose Latin translation went through eight incunable editions before 1500, and a further twenty-two by 1641. John Everard's historically important 1650 translation into English of the *Corpus Hermeticum*, entitled *The Divine Pyramander. Hermetic Cosmology, Finance, Politics and Culture in the Middle Ages through the Late Renaissance* BookRix "Perhaps Hermeticism has fascinated so many people precisely because it has made it

possible to produce many analogies and relationships to various traditions: to Platonism in its many varieties, to Stoicism, to Gnostic ideas, and even to certain Aristotelian doctrines. The Gnostic, the esoteric, the Platonist, or the deist has each been able to find something familiar in the writings. One just had to have a penchant for remote antiquity, for the idea of a Golden Age, in order for Hermeticism, with its aura of an ancient Egyptian revelation, to have enjoyed such outstanding success."—from the Introduction Hermes Trismegistus, "thrice-great Hermes," emerged from the amalgamation of the wisdom gods Hermes and Thoth and is one of

the most enigmatic figures of intellectual history. Since antiquity, the legendary "wise Egyptian" has been considered the creator of several mystical and magical writings on such topics as alchemy, astrology, medicine, and the transcendence of God. Philosophers of the Renaissance celebrated Hermes Trismegistus as the founder of philosophy, Freemasons called him their forefather, and Enlightenment thinkers championed religious tolerance in his name. To this day, Hermes Trismegistus is one of the central figures of the occult—his name is synonymous with the esoteric. In this scholarly yet accessible introduction to the history of Hermeticism and its

mythical founder, Florian Ebeling provides a concise overview of the Corpus Hermeticum and other writings attributed to Hermes. He traces the impact of Christian and Muslim versions of the figure in medieval Europe, the power of Hermeticism and Paracelsian belief in Renaissance thought, the relationship to Pietism and to Freemasonry in early modern Europe, and the relationship to esotericism and semiotics in the modern world.

The Secret History of Hermes

Trismegistus

CreateSpace
Hermes Trismegistus (the thrice-great Hermes) is the blending of the Greek god Hermes and the Egyptian god Thoth.

This writing attributed to Hermes Trismegistus is the record of a conversation between the goddess Isis and her son Horus, that explains the traditional belief that the Egyptian Gods came from the heavens, being sent to Earth by the Father of all to bring about civilization.

Not in His Image (15th Anniversary Edition)
Adventures Unlimited Press

The search for the real historical person known as John the Baptist and the traditions that began with him • Explores why John the Baptist is so crucially important to the Freemasons, who were originally known as “St. John’s Men” • Reveals how John and Jesus were equal partners and

shared a common spiritual vision to rebuild Israel and overcome corruption in the Temple of Jerusalem • Explains the connections between John as lord of the summer solstice, his mysterious severed head, fertility rites, and ancient Jewish harvest festivals Few Freemasons today understand why the most significant date in the Masonic calendar is June 24th--the Feast of the Birth of St. John the Baptist and the traditional date for appointing Grand Masters. Nor do many of them know that Masons used to be known as "St. John's Men" or that John the Baptist was fundamental to the original Masonic philosophy of personal transformation.

Starting with the mystery of John in Freemasonry, Tobias Churton searches out the historical Baptist through the gospels and ancient histories, unearthing the real story behind the figure lauded by Jesus's words "no greater man was ever born of woman." He investigates John's links with the Essenes and the Gnostics, links that flourish to this day. Exposing how the apostle Paul challenged John's following, twisting his message and creating the image of John as "merely" a herald of Jesus, the author shows how Paul may have been behind the executions of both John and Jesus and reveals a precise date for the crucifixion and the astonishing meaning of

the phrase “the third day.” He examines the significance of John’s severed head to holy knights, such as the Knights Templar, and of Leonardo’s famous painting of John. Churton also explains connections between John, the summer solstice, fertility rites, and ancient Jewish harvest festivals. Revealing John as a courageous, revolutionary figure as vital to the origins of Christianity as his cousin Jesus himself, Churton shows how John and Jesus, as equal partners, launched a covert spiritual operation to overcome corruption in the Temple of Jerusalem, re-initiate Israel, and resurrect Creation.

The Physics and Engineering of the

Great Pyramid Simon and Schuster

A comprehensive guide to the cosmic influences that underlie health and how to apply them for profound health and healing • Examines how ancient and modern traditions of healing interconnect through the doctrine of signatures, “As above, so below” • Reveals how one’s astrological chart has implications for personal health and healing • Explains how each sign of the zodiac corresponds not only to parts of the body and its chakras but also to specific plants, herbs, colors, and emotions • Explores how to use sound healing to harmonize astrological imbalances When we look at the vast and intricate cosmos--galaxies, planets,

organisms, organs, cells, molecules, atoms--there is a fundamental order, a music or harmony of the spheres. Our cells reflect the images of galaxies seen through our telescopes. We are the microcosm, reflecting the macrocosm of the heavens. Our ancestors understood these patterns and connections between humanity and the universe and developed spiritual and healing traditions in line with these cosmic truths. Yet in the 19th century, knowledge of these connections was set aside as medical science sought to create the "one size fits all" approaches to healing that dominate modern medicine today. In this comprehensive

exploration of the celestial influences that underlie health and healing, Jennifer Gehl, with Marc Micozzi, examines how ancient and modern traditions of healing interconnect through the doctrine of signatures, "As above, so below". She reveals how one's celestial nature--the arrangement of the cosmos at the moment of birth--has implications for personal health and how each sign of the zodiac corresponds to parts of the body, the chakras, and specific plants, herbs, colors, and emotions. She explains how sound re-arranges forms according to the principles of harmony, leveraging not only the human self-regulating capacity to restore

health but also that of the Earth to restore balance and harmony. Also explored are the recurrence of geometric forms in nature and how to apply this knowledge in sound healing and medical astrology. Weaving together the threads of ancient science and spirit that formed the original tapestry of medicine, Gehl explains how to restore the cosmic foundations of healing for personal, planetary, and universal health and wellbeing.

The Third Way

Cambridge University Press

Pursuing his investigations of high financial fraud, international banking, hidden systems of finance, black budgets and breakaway civilizations, author

and researcher Joseph P. Farrell investigates the theory that there were not two levels to the 9/11 event, but three. He says that the twin towers were downed by the force of an exotic energy weapon, one similar to the Tesla energy weapon suggested by Dr. Judy Wood, and ties together the tangled web of missing money, secret technology and involvement of portions of the Saudi royal family. Farrell unravels the many layers behind the 9-11 attack, layers that include the Deutschebank, the Bush family, the German industrialist Carl Duisberg, Saudi Arabian princes and the energy weapons developed by Nikola Tesla before WWII. It is Farrell at his

best—uncovering the massive financial fraud, special operations and hidden technology of the breakaway civilization.

A Demotic Discourse on Knowledge and Pendant to the Classical Hermetica

Sunsight Press

This Book may be one of the oldest in the World, written hundreds of years before the time of Moses. The surviving copy that has come down to us is in Arabic, and this is the first translation into English. The author of this mysterious book is Hermes Mercurius Trismegistus, the Thrice Great Hermes, that mysterious figure of prehistoric Egypt, the first philosopher, scientist and genius, and Grandfather of the Western Mystic and

Alchemical Tradition.
