## **GRAHAM MYLA**

---

Mimesis St Pauls BYB  
Welcome to the Black  
Triangle, New York's  
decadent district of opium  
dens, gambling casinos,  
drunken sailors, gaudy  
hookers, and back room  
abortions. The queen of  
this unsavory  
neighborhood is Black  
Lena Shanks, whose  
family leads a ring of  
female criminals-women

skilled in the art of  
cruelty. Only a few blocks  
away, amidst the elegant  
mansions and lily-white  
reputations of Gramercy  
Park and Washington  
Square, lives Judge James  
Stallworth. On a crusade  
to crush Lena's evil  
empire, the judge has  
sentenced three of her  
family members to death.  
And now she wants  
revenge. One Sunday, all  
the Stallworths receive  
invitations-to their own  
funerals. Can even the  
wealth and power of the

Stallworth family protect  
them from Lena's  
diabolical lust for  
vengeance? This first-ever  
republishing of Michael  
McDowell's chilling classic  
of revenge features a new  
introduction by  
Christopher Fowler and  
cover art by Mike Mignola.  
"Riveting, terrifying, and  
just absolutely great ...  
Michael McDowell must  
now be regarded as the  
finest writer of paperback  
originals in America." -  
Stephen King "A big and  
impressive book, darkly

Dickensian in its scope and complexity ... a novel of entirely human horror." - Michael E. Stamm "One of the best writers of horror in this country." - Peter Straub

### **Humanism in Language Teaching**

Penguin

We live in a world where the one-time opposition between things and humans has been transformed, where the center of contemporary sensibility is the encounter between philosophy and sexuality, where sex extends well beyond both the act and

the body. We live in a world where to be sexy is to ignore the distinctions between animate and inanimate objects of desire, where the aesthetics of sex are being revolutionized. An organic sexuality, based on sex difference and driven by desire and pleasure, is being replaced by a neutral, inorganic and artificial sexuality, a sexuality always available but indifferent to beauty, age or form, a sexuality freed by thought from nature. The Sex Appeal of the

Inorganic takes the reader on a radical, new tour of Western philosophy—from Descartes, Kant and Hegel to Heidegger, Wittgenstein and Sartre—to reframe our understanding of personal experience and the aesthetic, to examine how, if we are to remember how to feel, we must become a thing who feels, we must think ourselves closer to the inorganic world and move further from our bodies. *Long Walk to Freedom* Univ of California Press A Christmas Carol in

Prose, Being a Ghost Story of Christmas, usually known just as A Christmas Carol is a fairy-tale novel by a British classic Charles Dickens, that was published in 1843. It consists of five chapters, or staves as the author named them. Among all the stories from Christmas Books by Dickens this one became the most popular story about Christmas in Great Britain and outside the country. The main character is an old gloomy miser Ebenezer Scrooge, who doesn't love anyone

or anything except his money. He doesn't understand why everybody is so happy about Christmas and with disgust, refuses the invitation from his kind nephew to celebrate this holiday together with his family. On Christmas Eve, the ghost of his former business partner Jacob Marley appeared in front of Scrooge, and it changed him drastically... On the Cave of the Nymphs in the Thirteenth Book of the Odyssey Vintage Find out where the

bestselling author of Charlie and the Chocolate Factory and The BFG got all his wonderful story ideas in this autobiographical account of his childhood! From his own life, of course! As full of excitement and the unexpected as his world-famous, best-selling books, Roald Dahl's tales of his own childhood are completely fascinating and fiendishly funny. Did you know that Roald Dahl nearly lost his nose in a car accident? Or that he was once a chocolate candy tester for

Cadbury's? Have you heard about his involvement in the Great Mouse Plot of 1924? If not, you don't yet know all there is to know about Roald Dahl. Sure to captivate and delight you, the boyhood antics of this master storyteller are not to be missed!

A&C Black

Inspired by the real psychology study popularized by the New York Times and its "Modern Love" column, this contemporary YA is

perfect for fans of Eleanor and Park. Two random strangers. Two secrets. Thirty-six questions to make them fall in love. Hildy and Paul each have their own reasons for joining the university psychology study that asks the simple question: Can love be engineered? The study consists of 36 questions, ranging from "What is your most terrible memory?" to "When did you last sing to yourself?" By the time Hildy and Paul have made it to the end of the questionnaire, they've

laughed and cried and lied and thrown things and run away and come back and driven each other almost crazy. They've also each discovered the painful secret the other was trying so hard to hide. But have they fallen in love? Told in the language of modern romance -- texting, Q&A, IM -- and punctuated by Paul's sketches, this clever high-concept YA is full of humor and heart. As soon as you've finished reading, you'll be searching for your own

stranger to ask the 36 questions. Maybe you'll even fall in love. Rights have sold in 19 territories!

**The Attic Nights**  
Actarbirkauser  
Through this fascinating story we experience the adventure, the painstaking work, the magic, the excitement and the awe through the eyes of the "tomb raider" himself, archaeologist Howard Carter. This book tells the story of one of the greatest archeological discoveries ever, the discovery of the intact tomb of the 18th Dynasty

Pharaoh, Tutankhamun (colloquially known as "King Tut" and "the boy king"), in November 1922.

### **Memoria Technica**

Shadow Mountain

In this fresh assessment of Ovid's fascinating poem *Fasti*, Alessandro

Barchiesi provides a new vision of the interaction between Ovid and the renowned ruler Augustus. *Fasti*, a poem about the holidays and feast days of the Roman calendar, was written while Ovid was in Rome and revised while he was in exile on the barbarian frontier,

banished by Augustus from the cultured society of Rome. Ovid's work in exile evinces complicated motives; he addresses Augustus and begs him to lift the despised exile, but at the same time covertly critiques Augustus's "New Rome." Although recent scholarship has concentrated on the oppositions between poet and ruler revealed in Ovid's work, Barchiesi's analysis transcends the opposition of pro-Augustan or anti-Augustan readings. In a lively, vigorous narrative

that relies on close textual analysis, Barchiesi underscores the important poetic choices as well as the political considerations made by Ovid in *Fasti*. Ultimately, his analysis leads us to a more nuanced understanding of the relationship between patrons and poets. Both scholars and general readers will find a newly meaningful and interesting Ovid in these pages. Translated with revisions from *Il poeta e il principe: Ovidio e il discorso Augusteo* (1994).

**Priapeia** Hoepli Ulrico Editore

Facing up to the social changes in nineteenth century Italy, an elderly aristocrat arranges a marriage between his daughter and a wealthy merchant

**A Companion to Your Study of the Book of Mormon** A&C Black

This classic study notes the first appearance of a mathematical symbol and its origin, the competition it encountered, its spread among writers in different countries, its rise to popularity, its eventual

decline or ultimate survival. The author's coverage of obsolete notations — and what we can learn from them — is as comprehensive as those which have survived and still enjoy favor. Originally published in 1929 in a two-volume edition, this monumental work is presented here in one volume.

e-artnow

The breathtakingly rapid pace of change in computing makes it easy to overlook the pioneers who began it all. Written by Martin Davis,

respected logician and researcher in the theory of computation, *The Universal Computer: The Road from Leibniz to Turing* explores the fascinating lives, ideas, and discoveries of seven remarkable mathematicians. It tells the stories of the unsung heroes of the computer age – the logicians. The story begins with Leibniz in the 17th century and then focuses on Boole, Frege, Cantor, Hilbert, and Gödel, before turning to Turing. Turing's analysis of algorithmic processes

led to a single, all-purpose machine that could be programmed to carry out such processes—the computer. Davis describes how this incredible group, with lives as extraordinary as their accomplishments, grappled with logical reasoning and its mechanization. By investigating their achievements and failures, he shows how these pioneers paved the way for modern computing. Bringing the material up to date, in this revised edition Davis discusses the success of

the IBM Watson on Jeopardy, reorganizes the information on incompleteness, and adds information on Konrad Zuse. A distinguished prize-winning logician, Martin Davis has had a career of more than six decades devoted to the important interface between logic and computer science. His expertise, combined with his genuine love of the subject and excellent storytelling, make him the perfect person to tell this story.

The book that inspired the major new motion picture Mandela: Long Walk to

Freedom. Nelson Mandela is one of the great moral and political leaders of our time: an international hero whose lifelong dedication to the fight against racial oppression in South Africa won him the Nobel Peace Prize and the presidency of his country. Since his triumphant release in 1990 from more than a quarter-century of imprisonment, Mandela has been at the center of the most compelling and inspiring political drama in the world. As president of the African National

Congress and head of South Africa's antiapartheid movement, he was instrumental in moving the nation toward multiracial government and majority rule. He is revered everywhere as a vital force in the fight for human rights and racial equality. *LONG WALK TO FREEDOM* is his moving and exhilarating autobiography, destined to take its place among the finest memoirs of history's greatest figures. Here for the first time, Nelson Rolihlahla Mandela tells the extraordinary

story of his life--an epic of struggle, setback, renewed hope, and ultimate triumph.
