The Angels of the Law of Attraction

The Book of Angels Psychological and mystical meanings of symbols in dreams. *Dream with Little Angels* Penguin Reveals how the number science found in ancient sacred monuments reflects wisdom transmitted

from the angelic orders

- Explains how the angels transmitted megalithic science to early humans to further our conscious development • Decodes the angelic science hidden in a wide range of monuments, including Carnac in Brittany, the Great Pyramid in Egypt, early Christian pavements, the Hagia Sophia in Istanbul, Stonehenge in England, and the Kaaba in Mecca • Explores how the number science behind ancient monuments gave rise to religions and spiritual practices The angelic mind is founded on a deep understanding of number and the patterns they produce. These patterns provided a constructive framework for all

manifested life on Earth. The beauty and elegance we see in sacred geometry and in structures built according to those proportions are the language of the angels still speaking to us. Examining the angelic science of number first manifested on Earth in the Stone Age, Richard Heath reveals how the resulting development of human consciousness was no accident: just as the angels helped create the Earth's environment, humans were then evolved to make the planet self-aware. To develop human minds, the angels transmitted their own wisdom to humanity through a numerical astronomy that counted planetary and lunar time periods. Heath explores how

this early humanity developed an expert understanding of sacred number through astronomical geometries, leading to the unified range of measures employed in their observatories and later in cosmological monuments such as the Giza Pyramids and Stonehenge. The ancient Near East transformed megalithic science into our own mathematics of notational arithmetic and trigonometry, further developing the human mind within the early civilizations. Heath decodes the angelic science hidden within a wide range of monuments and sites, including Carnac in Brittany, the Great Pyramid in Egypt, Teotihuacan in Mexico, early Christian pavements, the Hagia

Sophia in Istanbul, and the Kaaba in Mecca. Exploring the techniques used to design these monuments, he explains how the number science behind them gave rise to ancient religions and spiritual practices. He also explores the importance of lunar astronomy, first in defining a world suitable for life and then in providing a subject accessible to pre-arithmetic humans, for whom the Moon was a constant companion.

A Book of Angels
FaithWords
A piercing, unforgettable love story set in Greenwood, Oklahoma, also known as the "Black Wall Street," and against the Tulsa Race Massacre of

1921. Isaiah Wilson is, on the surface, a town troublemaker, but is hiding that he is an avid reader and secret poet, never leaving home without his journal. Angel Hill is a loner, mostly disregarded by her peers as a goody-goody. Her father is dying, and her family's financial situation is in turmoil. Though they've attended the same schools, Isaiah never noticed Angel as anything but a dorky, Bible toting church girl. Then their English teacher offers them a job on her mobile library, a three-wheel, two-seater bike. Angel can't turn down the money and Isaiah is soon eager to be in such close quarters with Angel every afternoon. But life changes on May 31,

1921 when a vicious white mob storms the Black community of Greenwood, leaving the town destroyed and thousands of residents displaced. Only then, Isaiah, Angel, and their peers realize who their real enemies are.

"When, on an autumn Medina night in 61/680, the night that saw al-òHusayn killed, Umm Salama was torn from her sleep by an apparition of a long-dead Muòhammad, she slipped effortlessly into a progression of her co-religionists who, irrespective of status, gender or standing with God, were the recipients of dark and arresting visions. At the core of those

Delphian dreams, peopled by angels or æginn or esteemed forbears and textured with Iraqi dust and martyrs' blood, was the Karbalâa' event. Her dream would be recounted by an array of Muslim scholars, from al-Tirmiödâi, stellar pupil of al-Buùhâarâi, and Ibn 'Asâakir, untiring chronicler of Syrian history, to bibliophile theologian Ibn òTâa âus and Egyptian polymath al-Suyâuòtâi. Pulitzer Prize finalist (San Francisco Chronicle), the De La Cruzes, a family on the Mexican-American border, celebrate two of their most beloved relatives during a joyous and bittersweet weekend. "All we do, mija, is love. Love is the answer. Nothing stops it. Not borders. Not death." In his final days, beloved and ailing patriarch Miguel Angel de La Cruz, affectionately called Big Angel, has summoned his entire clan for one last legendary birthday party. But as the party approaches, his mother, nearly one hundred, dies, transforming the weekend into a farewell doubleheader. Among the guests is Big Angel's half brother, known as

Little Angel, who must reckon with the truth that although he shares a father with his siblings, he has not, as a half gringo, shared a life. Across two bittersweet days in their San Diego neighborhood, the revelers mingle among the palm trees and cacti, celebrating the lives of Big Angel and his mother, and recounting the many inspiring tales that have passed into family lore, the acts both ordinary and heroic that brought these citizens to a fraught and sublime country and allowed them to flourish in the land they have come to call home. A Cry of Angels Simon and Schuster
A man dreams through the eyes of a woman

he's never met, setting out to find love that might be a figment of his imagination. Joe Riley has a successful, by-design life in the world of finance. He loves order, discipline, the tangible, the measurable. In pursuit of success he's spurned attachment, keeping romantic entanglements "on an island" while leaving his life and heart invulnerable. When he begins to dream of a woman half a world away he's never encountered, his notions of practicality and planning are called into question. In a search that variously brings him to the psychologist's office, a medium's table, and from the Rocky Mountains to the streets of London, England, Joe begins to

fall for the woman of his dreams. In the process, he's beset by innumerable questions: Is he going mad? Might she actually exist? If so, why does he see through her eyes? Why is he party to visions that are either the greatest privacy invasion of all time, or a possible cosmic match in the making? In the quest for answers, Joe confronts the deeper questions that assail most of us who dare open our hearts: Will I be enough? Will they love me when it stops being easy? Will they stay? Will they sweep me up, just to watch me fall? A moving exploration of relinquishing fear and embracing the unknown, *Of Dreams and Angels* invites you to trust the dreams that brought you this

far will bring you further. "Morrison delivers a grounded, absorbing romantic tale... a refreshingly realistic narrative approach. An appealing love story that's both sentimental and down-to-earth." - Kirkus Reviews
