Vienna, Austria, 1-5
September 1996 Springer
Science & Business Media
This edition of over 60
000 entries, including

significantly more than
20% new or revised
material, not only updates
its predecessor but also
continues the policy of
extending coverage to
areas dealt with only
sparsely in previous
editions. Special attention
has been paid to the Far

East, Australasia and Latin
America in general, and to
the People's Republic of
China in particular. The
cross-referencing
between a defunct
organization and its
successor (indicated by ex
and now) introduced into
the last edition, has been

extended. Otherwise the policies adopted in previous editions have been retained. All kinds of organizations are included - international, national, governmental, individual, large or small - but strictly local organizations have been omitted. The subject scope includes activities of all kinds, in the fields of commerce and industry, education, law, politics, public administration, religion, recreation, medicine, science and technology. The country of origin of a national organization is given in

brackets, unless it is the home country of the title language or can be deduced readily from the title itself. Acronyms of parent bodies of subsidiary organizations are also added in brackets. Equivalences are used to link acronyms in different languages for the same organization. A select bibliography guides the reader to specialist works providing more detailed information.

Guide to Abbreviations of
Organizations
The previous edition of
this directory extended its
coverage of the Far East,
Australasia and Latin
America, areas previously
under-represented. For
this new edition emphasis

has been given to
increasing the number of
entries for organizations
from Britain, the United
States and Australia, and
particular attention has
been paid to new political
organizations in Central
and Eastern Europe and
the former Soviet Union.
The number of entries
included has gone up to
over 68,000 of which over
9,000 are new or
amended. Cross-
references from defunct
organizations in the
previous edition have
been deleted, and
references (indicated by

ex and now) added for
organizations which have
changed their name since
the previous edition. As
before, the range of
organizations included is
broad and only purely
local organizations have
been excluded. This
directory therefore lists
official and unofficial
organizations, national
and international, on all
Subjects: political,
economic and social.
Acronyms of parent
bodies of subsidiary
organizations are given
where appropriate and
equivalencies are used to

link acronyms in different languages for the same organization. Further information about the organizations listed can be found in the sources listed in the bibliography. I would like to thank Henry Heaney and Graeme Mackintosh for their advice, and David Grinyer for his technical support. L. M. Pitman Bibliography Adams, R. (ed.)
