Angelic Force Hyperion Books

A biography of the famed twentieth-century psychic, Eileen J Garrett. It tells both the public & private story of a remarkable woman with psychic gifts. It offers an account of her work & associations with many international notables, including, Aldous Huxley, Arthur Conan Doyle, & Dr J B Rhine.

Universe of Worlds Simon and Schuster

In the footsteps of a groundbreaking conference held in 1953 by the Parapsychology Foundation, Utrecht II again invites scholars from around the world to discuss just what we know and

where we are going in the study of parapsychological phenomena such as ghosts, telepathy, and so on.

Life Is the Healer Atlantic Books

A counterintuitive and compelling argument that existing laws already protect the entirety of our oceans—and a call to understand and enforce those protections. The world's oceans face multiple threats: the effects of climate change, pollution, overfishing, plastic waste, and more. Confronted with the immensity of these challenges and of the oceans themselves, we might wonder what more can be done to stop their decline and better protect the sea and marine life. Such widespread environmental threats call for a simple but significant shift in reasoning to bring about long-overdue, elemental change in

the way we use ocean resources. In *Future Sea*, ocean advocate and marine-policy researcher Deborah Rowan Wright provides the tools for that shift. Questioning the underlying philosophy of established ocean conservation approaches, Rowan Wright lays out a radical alternative: a bold and far-reaching strategy of 100 percent ocean protection that would put an end to destructive industrial activities, better safeguard marine biodiversity, and enable ocean wildlife to return and thrive along coasts and in seas around the globe. *Future Sea* is essentially concerned with the solutions and not the problems. Rowan Wright shines a light on existing international laws intended to keep marine environments safe that could underpin this new strategy. She

gathers inspiring stories of communities and countries using ocean resources wisely, as well as of successful conservation projects, to build up a cautiously optimistic picture of the future for our oceans—counteracting all-too-prevalent reports of doom and gloom. A passionate, sweeping, and personal account, *Future Sea* not only argues for systemic change in how we manage what we do in the sea but also describes steps that anyone, from children to political leaders (or indeed, any reader of the book), can take toward safeguarding the oceans and their extraordinary wildlife.

Eileen Garrett and the World Beyond the Senses Hachette UK

#1 Amazon Bestseller in Teen & Young Adult Fantasy eBooks (June 13-14, 2021)

Eileen is a Witch with Warlock powers, trying to protect her family, friends, and enemies against invading forces. Finn, a prince seeking approval from his father, is sent on a mission to hunt Eileen, forcing him to leave behind his forbidden love, Ciara. Little does he know, Ciara has a secret. She is a warrior, fighting against a growing evil in the world--an evil that is more vicious now than ever. As each of these characters follow their own heart-wrenching journeys of self-discovery, they work together to solve an intricate puzzle that could save the world. DAUGHTER OF LIGHT moves at breakneck pace, with unforgettable characters and a luscious world. The opening to an epic new fantasy trilogy, this is a book you do not want to miss. THRONE OF GLASS meets AVATAR THE

LAST AIRBENDER

I Survived the Battle of D-Day, 1944 (I Survived #18) Springer Nature

This book is a treasure for serious seekers of the sacred art of mediumship, and for those ready to discover the riches of their own inner quest. Original and enlightening, it opens the door to a deeper, heart-centred understanding of the nature of mediumship, mysticism and its spiritual roots. A new generation of seekers is encouraged to reconnect with the classical oral tradition of esoteric mediumship grounded in ancient knowledge: a critical foundation that includes aspects of alchemy and mythology in combination with Robertson and James' teachings of their archetypes and triads. By revealing the sacred principles behind

transcommunication, Magician to Mystic moves us further along the path of awareness toward the revelation of our own spiritual nature. Internationally esteemed teachers of the mystery tradition and the intuitive arts, Simon James and Brian Robertson, revitalize aspects of ancient wisdom which lie at the core of the healing art of transcommunication. Their work fosters our innate ability to tap into that wealth of inspiration open to everyone, which they call "everyday mediumship." Above all, with this book, they remind us that our mind and heart may be willing to open to truths which our spirit already knows.

Psychedelic Revolutionaries Pushkin Press

A compelling, candid portrait of a

modern psychic medium, Angelic Force describes the many challenges Raphael faces in her work and describes the many ways she has touched and changed people's lives by bringing messages from the other side and by teaching others to open their minds to their own psychic abilities.

It was a battle that would change the course of World War II... New York Times bestselling author Lauren Tarshis commemorates the Normandy landings in this pulse-pounding story of the largest seaborne invasion in history. Eleven-year-old Paul's French village has been under Nazi control for years. His Jewish best friend has disappeared. Food is scarce. And there doesn't seem to be anything Paul can do to make things

better. Then Paul finds an American paratrooper in a tree near his home. The soldier says the Allies have a plan to crush the Nazis once and for all. But the soldier needs Paul's help. This is Paul's chance to make a difference. Soon he finds himself in the midst of the largest invasion in history. Can he do his part to turn horror into hope? New York Times bestselling author Lauren Tarshis tells the story of the battle that became the foundation for the Allied victory in World War II. Includes a section of nonfiction backmatter with more facts about the real-life event.

Ena Twigg - Medium McFarland
 Recounting research on hallucinogenic drug treatments during the 1950s and 60s, *Psychedelic Revolutionaries* shows how public fears, stoked by partisan

politics, can hold back scientific advancements.

The Girls Who Stepped Out of Line

University of Chicago Press

Now a major motion picture streaming on Hulu, starring Anne Hathaway and Thomasin McKenzie Shortlisted for the Man Booker Prize "Eileen is a remarkable piece of writing, always dark and surprising, sometimes ugly and occasionally hilarious. Its first-person narrator is one of the strangest, most messed-up, most pathetic—and yet, in her own inimitable way, endearing—misfits I've encountered in fiction. Trust me, you have never read anything remotely like Eileen."

—Washington Post So here we are. My name was Eileen Dunlop. Now you know me. I was twenty-four years old then,

and had a job that paid fifty-seven dollars a week as a kind of secretary at a private juvenile correctional facility for teenage boys. I think of it now as what it really was for all intents and purposes—a prison for boys. I will call it Moorehead. Delvin Moorehead was a terrible landlord I had years later, and so to use his name for such a place feels appropriate. In a week, I would run away from home and never go back. This is the story of how I disappeared. The Christmas season offers little cheer for Eileen Dunlop, an unassuming yet disturbed young woman trapped between her role as her alcoholic father's caretaker in a home whose squalor is the talk of the neighborhood and a day job as a secretary at the boys' prison, filled with its own quotidian horrors. Consumed by

resentment and self-loathing, Eileen tempers her dreary days with perverse fantasies and dreams of escaping to the big city. In the meantime, she fills her nights and weekends with shoplifting, stalking a buff prison guard named Randy, and cleaning up her increasingly deranged father's messes. When the bright, beautiful, and cheery Rebecca Saint John arrives on the scene as the new counselor at Moorehead, Eileen is enchanted and proves unable to resist what appears at first to be a miraculously budding friendship. In a Hitchcockian twist, her affection for Rebecca ultimately pulls her into complicity in a crime that surpasses her wildest imaginings. Played out against the snowy landscape of coastal New England in the days leading up to

Christmas, young Eileen's story is told from the gimlet-eyed perspective of the now much older narrator. Creepy, mesmerizing, and sublimely funny, in the tradition of Shirley Jackson and early Vladimir Nabokov, this powerful debut novel enthralls and shocks, and introduces one of the most original new voices in contemporary literature.

Otessa Moshfegh is also the author of *My Year of Rest and Relaxation*, *Homesick for Another World: Stories*, and *McGlue*.

[Adventures in the Supernormal](#) Penguin
 During the 1930s a new approach to exploring human consciousness began at Duke University with Professor J. B. Rhine's experimental research on extra-sensory perception, or ESP. His findings on telepathy, clairvoyance, precognition

and psychokinesis challenged conventional disbelief. Rhine's findings and his first popular book, *New Frontiers of the Mind*, ignited excitement and controversy--among not only scientists but the public at large. Rhine's letters chronicle his efforts to find reliable evidence of psychic ability, from the seance room to psychic animals and finally to a university research laboratory. Covering the years 1923-1939, they reveal a gripping story of groundbreaking research, told in the words of the main player as he worked with his team, subjects, critics and supporters alike.

[Proceedings of the Society for Psychical Research](#) Hassell Street Press

Well before Darwinism, as it came to be called, impacted the educated world

during the last four decades of the 19th Century, mainstream religion was in decline, as science and its concomitant, rationalism, took hold. Thomas Paine's book, *The Age of Reason*, published in three parts (1794, 1795, and 1807) influenced many educated people to repudiate their religious beliefs, including both God and the idea of an afterlife. For those who sat on the fence, unsure as to what to believe, Darwinism was the knock-out blow, since it was perceived as totally refuting the biblical account of creation as set forth in the Book of Genesis, which said that God created the world in seven days. *Falsus in uno, falso in omnibus - false in one, then false in all - seems to have been the logical conclusion. After all, if the Bible had been inspired by God, as*

religious leaders proclaimed, how could an all-knowing God be so wrong? Therefore, god must not exist, and if there is no god, then there must not be an afterlife, either. If the spirits who communicated in the years immediately following the advent of Spiritualism in Hydesville, New York during 1848, are to be believed, there was a plan behind it all - a plan that resulted from a growing loss of faith and spiritual values in an increasingly materialistic world. "It is to draw mankind together in harmony, and to convince skeptics of the immortality of the soul," was the reply given to Territory of Wisconsin Governor Nathaniel P. Tallmadge when he asked a communicating spirit claiming to be John C. Calhoun, former vice-president of the United States, about the purpose of the

strange phenomena. Some three years after the Society for Psychical Research (SPR) was founded in London in 1882, Leonora Piper, a young Boston, Massachusetts housewife, was "discovered" by William James, a pioneering psychologist, of Harvard University. Messages were delivered through Mrs. Piper that seemed to be coming from spirits of the dead. Soon after the discovery of Mrs. Piper, the American branch of the SPR (ASPR) was formed under the guidance of Professor James, and its primary task became the study of her mediumship, although it undertook the investigation of other mediums and paranormal phenomena, as well. A number of other reputable scientists and scholars studied Mrs. Piper for a quarter of a century. Unfortunately,

because of the resistance of mainstream science on one end and orthodox religion on the other, the latter seeing communication with spirits as demonic, the research has been, for the most part, filed away in dust-covered cabinets and written off by many as outdated. Skeptics deride it as the product of hallucination and delusion and conclude that Mrs. Piper was just another charlatan, one clever enough to dupe many intelligent men and women in hundreds of observations over some 25 years. As the researchers came to understand, spirits face many obstacles in communicating with the earth realm and thus their messages are often fragmentary, confusing, distorted, meaningless, and wrong. Professor James called it the "bosh" material,

seeing it as one major reason why Mrs. Piper's mediumship was not more widely accepted. In this book, author Michael Tymn filters out much of the bosh, permitting the reader to better appreciate the genuine communication. He explores the various interpretations, other than fraud, considered by the researchers. He approaches the subject as a lawyer arguing for the reality of spirit communication. He believes that those who carefully study the research and take the time to understand it will likely see Leonora Piper as the "white crow" that William James proclaimed her to be - the one who proved that all crows are not black, the one who gave science some very intriguing evidence that, under certain conditions, the "dead" can communicate with us.

J.B. Rhine Virago

Lawrence LeShan's classic guide to meditation introduced mindfulness to an entire generation. Now it's back in a special ebook edition. Since its initial publication nearly 50 years ago, this simple yet powerful guide has helped more than a million readers reap the profound and limitless rewards of meditation. Now, in a special new edition, *How to Meditate* is back, singing the virtues of a quiet mind in the overstimulating bustle of the modern world. Outlining a realistic and no-nonsense approach that will enable you to bring meditation effortlessly into your life, no matter how thinly stretched you are, *How to Meditate* is unrivaled as a source of inspiration and practical instruction for anyone seeking inner

peace, relief from stress, and increased self-knowledge.

The Music of Black Americans Scholastic Inc.

'A masterwork of comic pathos' Irish Times 'A masterpiece... What can I say that will put this book where it belongs, in readers' hands and minds?' Tim Parks A modern masterpiece, voted the greatest Dutch novel of all time Frits – office worker, daydreamer, teller of inappropriate jokes – finds life absurd and inexplicable. He lives with his parents, who drive him mad, and has terrible dreams of death and destruction. As Frits drinks, smokes, sees friends and aimlessly wanders the gloomy city streets, he tries to make sense of the minutes, hours and days that stretch before him. Darkly funny and

mesmerising, *The Evenings* takes the tiny, quotidian triumphs and heartbreaks of everyday life and turns them into a work of brilliant wit and profound beauty Part of the Pushkin Press Classics series: timeless storytelling by icons of literature, hand-picked from around the globe. Translated by Sam Garrett Gerard Reve (1923–2006) is considered one of the greatest post-war Dutch authors, and was also the first openly gay writer in the country's history. A complicated and controversial character, Reve is also hugely popular and critically acclaimed – his 1947 debut *The Evenings* was ranked the best Dutch novel of the twentieth century by the Society of Dutch literature. *Childhood* is also available from Pushkin Press.

The Case for Psychic Survival

Sourcebooks, Inc.

This is the critically-acclaimed true account of the promising young Harvard student's suicide and the bizarre and controversial therapy of his psychiatrist as written by Boston Globe reporter Eileen McNamara. This is a story that has made national headlines.

Essays on Women in Western

Esotericism William Morrow

Many cultures accept that a person may die and then come back to life in another form, but Westerners have traditionally rejected the idea. Recently, however, surveys conducted in Europe indicate a substantial increase in the number of

Europeans who believe in reincarnation, and numerous claims of reincarnation have been reported. This book examines particular cases in Europe that are suggestive of reincarnation. The first section provides a brief history of the belief in reincarnation among Europeans. The second section considers eight cases from the first third of the twentieth century that were not independently investigated, but were reported and sometimes published by the persons concerned. The third section covers 32 cases from the second half of the twentieth century that were investigated by the author. Many of these cases involved either children who exhibited unusual behavior attributed to a previous life, or adults who experienced recurrent or vivid dreams attributed to a

previous life. In the fourth section, the author compares European cases suggestive of reincarnation with those of other countries and cultures.

Medieval Women OUP Oxford

The origin of this authoritative book is a three-year course on all aspects of Spiritualism which was prepared by the author for students. Harry Boddington spent over forty years in the preparation of this book. It involved studying comparative religion, science,

philosophy, ethics, logic and political economy. The result, which he rightly regarded as the crown of his life's work as a comprehensive study of Spiritualism in all its many fold aspects. This book has been a Spiritualism best seller since the original publication in 1947.
