JAIDYN HULL

My First Piano Adventure: Lesson Book A with CD

Abbott Press

A quirky, timely, and disturbingly beautiful how-to taxidermy guide, emphasizing ethical sourcing and personal expression. Whether inspiration came from an exhibition at an edgy art gallery, a visit to the Natural History Museum, or the sight of your crazy uncle's jackalope, more and more people are opening up to the fun and

wonder of taxidermy. A mix of art, science, and a touch of alchemy, taxidermy lets you engage with the natural world in ways most other people don't. In *Stuffed Animals*, Divya Anantharaman and Katie Innamorato demystify the practice, shatter the gross stereotypes, and make taxidermy accessible to anyone, anywhere. Committed to ethical and sustainable sourcing, Anantharaman and Innamorato are part of the vanguard of young taxidermists who bring a sense of fun and experimentation to this old-school hobby. In their sold-out classes in

Brooklyn, they teach hundreds of taxidermy novices how to create mantle-worthy pieces out of small birds and mammals. Both a helpful how-to manual and a strangely captivating gift book, *Stuffed Animals* is the definitive guide to a growing movement.

A fun-filled introduction to maps through the eyes of an adorable pig Henry is a very particular sort of pig. "A place for everything and everything in its place," he always says. But when he looks out his window he is troubled. The farm is a mess! Henry is worried that nobody will be able to find anything in this mess. So he draws a map showing all the animals exactly where they belong. And Henry embarks on a journey through the farm, his friends tagging along as he creates his map: sheep in the woolshed, chickens in the coop, the horse in the stable. After the map is complete, Henry uses it to bring himself back home, where he is relieved to know that he is exactly where he belongs. A place for everything and everything in its place, indeed. For fans of Zen Shorts by Jon J. Muth or of Winnie the Pooh, this sweet romp through the farm is adorably illustrated by David Elliot, who created the endearing animals who inhabit Brian Jacques world of Redwall. Perfect for pre-schoolers and elementary-schoolers learning to read maps for the first time. Praise for Henry's Map: *** "With appealing characters and gentle humor, this book will be a hit at storytime, or as

an introduction to mapping lessons." —School Library Journal *** (starred) *** "Here's hoping for many more Henry-centric adventures." —Kirkus Reviews *** (starred) "Elliot's barnyard animals brim with personality and emotion, matching the understated humor of this charming story." —Publisher's Weekly "This story may even inspire budding cartographers to map their own world." —Booklist

Fun-filled songs, rhythm games and technique activities develop beginning keyboard skills. Three distinguishing features of the Lesson Book A make it unique and effective for the young 5-6 year old beginner. 1. A strong focus on technique embedded in the book through playful technique games, chants, and carefully-composed pieces that gently lead the child into pianistic motions. 2. An outstanding

CD for the young student to listen, sing, tap, and play along with at the piano. The orchestrated songs on the CD feature children singing the lyrics, which has great appeal to the 5-6 year old beginner. The CD becomes a ready-made practice partner that guides the student and parent for all the pieces and activities in the books. 3. The fanciful art features five multi-cultural children who are also learning to play. These friends at the piano introduce basic rhythms, white key names, and a variety of white and black-key songs that span classical, folk, and blues. Young students will listen, sing, create, and play more musically with Nancy and Randall Faber s My First Piano Adventure, Lesson Book A. The Lesson Book introduces directional pre-reading, elementary music theory and technique with engaging songs, games, and creative discovery at the keyboard. Young students will enjoy the multi-cultural "friends at the piano" who introduce white-key names, basic rhythms, and a variety of songs which span classical, folk, and blues. Ear-training and eye-training are also part of the curriculum. The Fabers' instructional theory "ACE" - Analysis, Creativity, and

Expression, guides the pedagogy of My First Piano Adventure. Analysis leads to understanding, creativity leads to self-discovery, and expression develops personal artistry. The CD for this book offers a unique listening experience with outstanding orchestrations and vocals. The recordings demonstrate a key principle of the course: when children listen, sing, tap, and move to their piano music, they play more musically. View Helpful Introductory Videos Here
