Essentials of Elementary Social Studies MacMillan

This bulletin discusses current issues and practices in social studies assessment, ways to improve testing, and methodologies to strengthen the validity, reliability, and value of tests. The primary purpose of the bulletin is to bring the social studies profession up to date about the issues and strategies involving criterion-referenced testing. The bulletin is comprised of six chapters. Chapter I examines current issues in social studies testing. There has been

inadequate treatment of assessment issues in social studies for a long time. Most "methods" texts, for example, offer simplistic, generalized descriptions of the assessment processes. Another problem is that student outcomes are often written in a vague and general way and, therefore are difficult to measure. Chapter 2 presents the procedures, findings, and conclusions of the Committee on Testing established by the National Council for the Social Studies to study testing practices in social studies education. Chapter 3 presents a brief introduction to and definition of criterion referenced tests (CRTs). The important characteristics of CRTs are explained and are contrasted with norm-referenced and objectives-referenced tests. Perhaps the most important characteristic of CRTs is that the outcomes to be tested must be clearly defined and described. Chapter 4 extends those ideas introduced in chapter 3 by applying them in a school setting. Chapter 5 analyzes the National Assessment of Educational Progress for its efficacy relative to individual student diagnosis and remediation. Procedures for ensuring a basic level of psychometric integrity for CRTs are presented in chapter 6. Appendix I contains a brief bibliography of social studies tests and Appendix II presents statistical data for chapter 6. (Author/RM) Aspect of National Assessment (NAEP) dealt with in this document: Program Description (Operating Procedures).

Social Studies for the Next Generation
Teachers College Press

Essentials of Elementary Social Studies is a teacher friendly text that provides comprehensive treatment of classroom planning, instruction, and strategies. Praised for its dynamic approaches and a writing style that is conversational, personal, and professional, this text enables and encourages teachers to effectively teach elementary social studies using creative and active learning strategies. This sixth edition has been refined with new and relevant topics and strategies needed for effectively teaching elementary social studies. A few of new features include: An expanded chapter on the decision-making process in elementary social studies. This chapter provides additional discussion about the importance of helping young learners better understand the decision-making process and offers strategies for helping teachers make connections between choices, values, character development, and social justice. An updated chapter on technology designed to better prepare elementary teachers to effectively incorporate technology into social studies instruction. Attention is given to virtual teaching and learning, media literacy, teaching with film, and numerous other ways to improve teaching and learning in the digital age. Updated further readings and helpful resources for all chapters to include supplemental digital and video sources related to various topics throughout the chapter. New "Checking for Understanding" section at the end of each chapter that focuses on comprehension, application, and

reflection on key concepts throughout the chapters. An updated chapter on lesson plans, in keeping with the book's emphasis on planning and teaching. This chapter is designed to provide elementary social studies teachers with new classroom-tested lesson plans and includes two classroom-tested lessons for each grade level (K-6).

International Human Rights, Society, and the Schools Addison Wesley Publishing Company

Tailored to the CCSLC® syllabus, this textbook takes an interdisciplinary approach to Social Studies and focuses on the development of problem-solving skills, research and interpretation skills, appropriate attitudes and behaviours, and the ability to work collaboratively. It provides ample material to tackle the teaching and learning philosophy of CCSLC including additional support in preparation for the student assessment.

Hodder Education

Report writing resource for middle school students for information and annotated student writing examples for social studies reports and exams.

New York : Harcourt, Brace & World

This guidebook, designed to assist colleges and universities to meet National Council for the Social Studies/National Council for Accreditation of Teacher Education program standards, is one of three documents that deal with national standards for social studies teachers. The guidebook is intended to help colleges and universities assess the subject matter strengths and weaknesses of their social studies teacher education students to determine the extent to which their programs meet the national standards. Following an introduction, the guidebook consists of three main sections: (1) a set of guidelines on ways of meeting the standards; (2) a compendium of examples of good assessment tasks; and (3) a copy of an article that describes a perspective on using program approval standards and processes to improve programs for preparing history teachers. The guidebook offers examples of and suggestions on how teacher education programs faculty might meet the NCSS/NCATE standards. Discusses incorporating "National Standards for Social Studies Teachers" and "Program Standards for the Initial Preparation of Social Studies Teachers" into college and university programs. (BT)

Writing for Social Studies Hodder Education

This practical book shows how veteran, justice-oriented social studies teachers are responding to the Common Core State Standards, focusing on how they build curriculum, support students' literacy skills, and prepare students to think and act critically within and beyond the classroom. In order to provide direct classroom-to-classroom insights, the authors draw on letters written by veteran teachers addressed to new teachers entering the field. The first section of the book introduces the three approaches teachers can take for teaching for social justice within the constraints of the Common Core State Standards (embracing, reframing, or resisting the standards). The second section analyzes specific approaches to teaching the Common Core, using teacher narratives to illustrate key processes. The final section demonstrates how teachers develop, support, and sustain their identities as justice-oriented educators in standards-driven classrooms. Each chapter includes exemplary lesson plans drawn from diverse grades and classrooms, and offers concrete recommendations to guide practice. This book: offers advice from experienced educators who have learned to successfully navigate the constraints of high-stakes testing and standards-based mandates; shares and analyzes curricular and pedagogical approaches to teaching the Common Core; and examines a range of philosophical and political stances that teachers might take as they navigate the unique demands of teaching for social justice in their own context.
