Elevator control expert, step with the world
 Parameter Board Control Elevator StepSTEP Electric is China controller board manufacturer, our elevator main controller board is designed with a high performance 32-bit ARM processor, and offers accurate speed signal, good security monitoring performance, and high anti-interference capability, etc. Also, it comes with strong anti-electromagnetic interference and anti-static capabilities.Elevator Main Controller Board | Serial Controller Board ...STEP Electric is China controller board manufacturer, the 32-bit standard serial main controller board is ideal for control of elevators in commercial buildings and residential buildings up to 64 floors. It helps ensure smooth, steady, accurate and comfortable elevator running. The maximum elevator speed is up to 4m/s.32-Bit Serial Main Controller Board | Elevator ... - STEPOur elevator control circuit board supports tri-car door opening and can be operated through the STEP standard hand-held operator. 6. The LCD display is able to show the status and parameter of the system as well as the real-time speed curve of the elevator.Integrated Elevator Control Cabinet | Control Box | STEPThe hydraulic elevator controller board can be used in combination with STEP standard handheld elevator controller, and adopts parallel input method for control signals. It is designed with an operation panel which can be used for system debugging and system status display.Hydraulic Lift Controller Board | Elevator Controller | STEPIssue Extended Elevator control (Step by step instructions) Product Line TAC INET Environment I/NET Seven DPU Firmware 3.20 or above. (DPU7920 withExtended Elevator control (Step by step instructions ...The escalator control system has a LCD control board, which can be used to set parameters for the system and show trouble codes. It is compatible with the STEP standard handle escalator controller. In addition, the escalator control system can be optionally equipped with failure monitoring system to improve the system safety.Escalator Control System | Control Cabinet | STEPAn Elevator controller is a system to control the elevators, either manual or automatic. The controller usually tune down the voltage between 12V to 24V to the controlling system, Only the motor needs 3-phase power supply. The low voltage power supply is for the controlling component and the...Elevator control system | Elevator Wiki | FandomA wide variety of step elevator controller options are available to you, such as free samples. There are 1,284 step elevator controller suppliers, mainly located in Asia. The top supplying countries or regions are China, Turkey, and South Korea, which supply 99%, 1%, and 1% of step elevator controller respectively.Step Elevator Controller, Step Elevator Controller ...STEP Electric is China inverter manufacturer. AS320 elevator inverter is designed with 32-bit MPU for motor driving, high performance complex programmable

logic device (CPLD), and advanced power module.Elevator Inverter Manufacturer | STEP DownloadShanghai STEP Electric Corporation, China Experts in Manufacturing and Exporting elevator controller, elevator lift drive, elevator spare partsShanghai STEP Electric Corporation - elevator controller ...STEP Electric is China inverter manufacturer, AS320 elevator inverter is a kind of newly developed frequency inverter especially for elevators.
