"Being scared is the least of your worries." The Shining Men are everywhere. You spot them out of the corner of your eye. Abnormally tall, with long lank hair, blank faces and blazing eyes. If they catch you, they'll drag you away to who knows where. No one is safe. They're on every street corner. Waiting. Watching. Shining bright. Of course it's a hoax. It has to be, right? It started as a joke, a prank for Halloween. Then it went viral. Idiots dressing up as monsters. Giving folk a scare. Silly masks and fright wigs. No one gets hurt. Because bogeymen aren't real. Until people start going missing and lights burn in the darkness. Burning like eyes. But help is on its way, in the form of a strange man called the Doctor and his friend, Bill. The Doctor will keep us safe. The Doctor will stop the monsters. Unless the monsters stop the Doctor first... An original novel featuring the Twelfth Doctor and Bill as played by Peter Capaldi and Pearl Mackie.

These poems were written during the last three months of the 20th century, most of them in Cassis. The Mediterranean orbit, Phoenicians and fish, local dogs and children, drew close as I wrote. From poem to poem I knew what I was doing, but the ensemble, after much sifting, took me by surprise... a sub-textual motif recurred contrapuntally touch. The tropes summon a Doctor Dark, who is fully there only once, and then in the past. That you may come to harm in purgatory without a guide is what the epigraph from Dante tells. "Darkheart: a faded neutron star surrounded by dead planets. But there is life on one of these icy rocks -- the last enclave of the Earth Empire, frozen in the image of another time. As the rest of the galaxy enjoys the fruits of the fledgling Federation, these isolated Imperials, bound to obey a forgotten ideal, harbour a dark obsession. The Doctor, Jamie and Victoria arrive to find that the Federation has at last come to reintegrate this lost colony, whether they like it or not. But all is not well in the Federation camp: relations and allegiances are changing. The fierce Veltrochni -- angered by the murder of their kinsmen -- have an entirely different agenda. And someone else is manipulating the mission for his own mysterious reasons -- another time traveler, a suave and assured master of his work. The Doctor must uncover the terrible secret which brought the Empire to this desolate sector, and find the source of the strange power maintaining their society. But can a Time Lord, facing the ultimate temptation, control his own desire? This adventure takes place between the television stories The Web of Fear and Fury from the Deep, and after the Missing Adventure Twilight of the Gods."-
