The Tanimbar Islands
of Indonesia are
remote and largely

neglected by outsiders. Will Buckingham went there, as an anthropologist in training, with a mission. He hoped to meet three remarkable sculptors: the crippled Matias Fatruan, the buffalo hunter Abraham Amelwatin, and Damianus Masele, who was skilled in black magic, but who abstained out of Christian principle. Part memoir, part travelogue, *Stealing with the Eyes* is the story of these men, and also of how stumbling into a world of witchcraft, sickness, and fever led Buckingham to question the validity of his anthropological studies, and eventually to abandon them for good. Through his encounters with these remarkable

craftsmen—which in relating her also interweaves with Tanimbarese history, myth, and philosophy dating back to ancient times— we are shown the forces at play in all of our lives: the struggle between the powerful and the powerless, the tension between the past and the future, and how to make sense of a world that is in constant flux. Colonial Counterinsurgency and Mass Violence Tuttle Publishing
On a bright July morning in 1870 the British explorer George Hayward was brutally murdered high in the Hindu Kush. Who was he, what had brought him to this wild spot, and why was he killed? Told in full for the first time, this is the gripping tale of

Hayward's journey from a Yorkshire childhood to a place at the forefront of the 'Great Game' between the British Raj and the Russian Empire. Driven by 'an insane desire' Hayward crossed the Western Himalayas, tangled with despotic chieftains and ended up on the wrong side of both the Raj and the mighty Maharaja of Kashmir. Tim Hannigan explores the conspiracies and controversies that surrounded his death, travelling in Hayward's footsteps to bring the story up to date, and to reveal how the echoes of the Great Game still reverberate across Central Asia in the twenty-first century.

The Bronze-Iron Age of Indonesia Institute of Southeast Asian Studies
 Indonesia is the world's largest archipelago, encompassing nearly eighteen thousand islands. The fourth-most populous nation in the world, it has a larger Muslim population than any other. The Indonesia Reader is a unique introduction to this extraordinary country. Assembled for the traveler, student, and expert alike, the Reader includes more than 150 selections: journalists' articles, explorers' chronicles, photographs, poetry, stories, cartoons, drawings, letters, speeches, and more. Many pieces are by Indonesians; some are translated into English

for the first time. All have introductions by the volume's editors. Well-known figures such as Indonesia's acclaimed novelist Pramoedya Ananta Toer and the American anthropologist Clifford Geertz are featured alongside other artists and scholars, as well as politicians, revolutionaries, colonists, scientists, and activists. Organized chronologically, the volume addresses early Indonesian civilizations; contact with traders from India, China, and the Arab Middle East; and the European colonization of Indonesia, which culminated in centuries of Dutch rule. Selections offer insight into Japan's occupation (1942-45), the establishment of an

independent Indonesia, and the post-independence era, from Sukarno's presidency (1945-67), through Suharto's dictatorial regime (1967-98), to the present Reformasi period. Themes of resistance and activism recur: in a book excerpt decrying the exploitation of Java's natural wealth by the Dutch; in the writing of Raden Ajeng Kartini (1879-1904), a Javanese princess considered the icon of Indonesian feminism; in a 1978 statement from East Timor objecting to annexation by Indonesia; and in an essay by the founder of Indonesia's first gay activist group. From fifth-century Sanskrit inscriptions in stone to selections related to the 2002 Bali

bombings and the 2004 tsunami, *The Indonesia Reader* conveys the long history and the cultural, ethnic, and ecological diversity of this far-flung archipelago nation. Columbia University Press

Covering the history of Bali from before the Bronze Age to the presidency of Megawati Sukarnoputri, this examination highlights the ethnic dynamics of the island and its place in modern Indonesia. Included is an analysis of the arrival of Indian culture, early European contact, and the complex legacies of Dutch control. Also explored are the island's contemporary economic progress and the environmental problems generated by

population growth and massive tourist development.

This book tells the story of Bali--the "paradise island of the Pacific"--its rulers and its people, and their encounters with the Western world. Bali is a perennially popular tourist destination. It is also home to a fascinating people with a long and dramatic history of interactions with foreigners, particularly after the arrival of the first Dutch fleet in 1597. In this first comprehensive history of Bali, author Willard Hanna chronicles Bali through the centuries as well as the islanders' current struggle to preserve

their unique identity amidst the financially necessary incursions of tourism. Illustrated with more than forty stunning photographs, *A Brief History of Bali* is a riveting tale of one ancient culture's vulnerability--and resilience--in the modern world.

Sultans, Spices, and Tsunamis: The Incredible Story of the World's Largest Archipelago
Indonesia is by far the largest nation in Southeast Asia and has the fourth largest population in the world after the United States. Indonesian history and culture are especially relevant today as the Island nation is an emerging power in the region with a dynamic

new leader. It is a land of incredible diversity and unending paradoxes that has a long and rich history stretching back a thousand years and more. Indonesia is the fabled "Spice Islands" of every school child's dreams--one of the most colorful and fascinating countries in history. These are the islands that Europeans set out on countless voyages of discovery to find and later fought bitterly over in the 15th, 16th and 17th centuries. This was the land that Christopher Columbus sought, and Magellan actually reached and explored. One tiny Indonesian island was even exchanged for the island of Manhattan in 1667! This fascinating history book tells the story of Indonesia as a

narrative of kings, traders, missionaries, soldiers and revolutionaries, featuring stormy sea crossings, fiery volcanoes, and the occasional tiger. It recounts the colorful visits of foreign travelers who have passed through these shores for many centuries--from Chinese Buddhist pilgrims and Dutch adventurers to English sea captains and American movie stars. For readers who want an entertaining introduction to Asia's most fascinating country, this is delightful reading.

Beauty Is a Wound

Allen & Unwin

The English-language debut of Indonesia's rising star. The epic novel *Beauty Is a Wound* combines

history, satire, family tragedy, legend, humor, and romance in a sweeping polyphony. The beautiful Indo prostitute Dewi Ayu and her four daughters are beset by incest, murder, bestiality, rape, insanity, monstrosity, and the often vengeful undead. Kurniawan's gleefully grotesque hyperbole functions as a scathing critique of his young nation's troubled past: the rapacious offhand greed of colonialism; the chaotic struggle for independence; the 1965 mass murders of perhaps a million "Communists," followed by three decades of Suharto's despotic rule. *Beauty Is a Wound* astonishes from its opening line: One afternoon on a weekend in May, Dewi

Ayu rose from her grave after being dead for twenty-one years.... Drawing on local sources—folk tales and the all-night shadow puppet plays, with their bawdy wit and epic scope—and inspired by Melville and Gogol, Kurniawan’s distinctive voice brings something luscious yet astringent to contemporary literature.

The art of metal casting was imported into Indonesia, but its peoples mastered the secrets of metallurgy, and applied these, in ways often original and unique, to create their own distinctive civilisation of the Bronze-Iron Age. In this handbook, which is a

sequel to my *The Stone Age of Indonesia*, I have endeavoured to assemble a comprehensive picture of the Indonesian Bronze-Iron Age from the results of excavations, innumerable stray finds in museums, and various studies scattered among numerous scientific journals and periodicals (often difficult to obtain). The resulting picture can, of course, be a tentative one only, valid until many more scientific excavations have taken place. I have added a bibliography, as complete as it was possible to assemble. The completion of this summary of the Prehistory of Indonesia has been assisted by a grant-in-aid from the

Wenner Gren Foundation "The Viking Fund", New York. I am grateful to Mr. Basoeki and Mr. Soebokastowo for the drawings of Figures 1, 11, 12, 13, 22 and 16, 23, 24, 25 respectively. Figures 2-10 and 15 were drawn by the well-known artist, the late Mas Pirngadie, and are here published for the first time, with the generous permission of the Board of Directors of the "Bataviaasch Genootschap van Kunsten en Wetenschappen", Djakarta. I am deeply grateful to my brother-in-law, Mr. J. H. Reiseger of Kempston, Bedfordshire, for so willingly undertaking the translation of the Dutch text into English. *The Food of Indonesia* Tuttle Publishing Indonesia is the home

of the largest single Muslim community of the world. Its Christian community, about 10% of the population, has until now received no overall description in English. Through cooperation of 26 Indonesian and European scholars, Protestants and Catholics, a broad and balanced picture is given of its 24 million Christians. This book sketches the growth of Christianity during the Portuguese period (1511-1605), it presents a fair account of developments under the Dutch colonial administration (1605-1942) and is more elaborate for the period of the Indonesian Republic (since 1945). It emphasizes the regional differences in this huge country,

because most Christians live outside the main island of Java. Muslim-Christian relations, as well as the tensions between foreign missionaries and local theology, receive special attention.

The Brief History of the Dead Grove Press

The 26 scholars contributing to this volume have helped shape the field of Indonesian studies over the last three decades. They represent a broad geographic background—Indonesia, the Netherlands, the United Kingdom, Australia, the United States, Canada—and have studied in a wide array of key disciplines—anthropology, history, linguistics and literature, government and

politics, art history, and ethnomusicology.

Together they reflect on the "arc of our field," the development of Indonesian studies over recent tumultuous decades. They consider what has been achieved and what still needs to be accomplished as they interpret the groundbreaking works of their predecessors and colleagues. This volume is the product of a lively conference sponsored by Cornell University, with contributions revised following those interactions. Not everyone sees the development of Indonesian studies in the same way. Yet one senses—and this collection confirms—that disagreements among its practitioners have

fostered a vibrant, resilient intellectual community. Contributors discuss photography and the creation of identity, the power of ethnic pop music, cross-border influences on Indonesian contemporary art, violence in the margins, and the shadows inherent in Indonesian literature. These various perspectives illuminate a diverse nation in flux and provide direction for its future exploration.

Journey Through Indonesia ANU E Press The definitive account of one of the twentieth century's most brutal, yet least examined, episodes of genocide and detention The Killing Season explores one of the largest and swiftest, yet least examined, instances of mass killing and incarceration in the twentieth century—the shocking antileftist purge that gripped Indonesia in 1965–66, leaving some five hundred thousand people dead and more than a million others in detention. An expert in modern Indonesian history, genocide, and human rights, Geoffrey Robinson sets out to account for this violence and to end the troubling silence surrounding it. In doing so, he sheds new light

on broad, enduring historical questions. How do we account for instances of systematic mass killing and detention? Why are some of these crimes remembered and punished, while others are forgotten? Based on a rich body of primary and secondary sources, *The Killing Season* is the definitive account of a pivotal period in Indonesian history.

 "Indonesia is one of the few countries that came through the global economic crisis in 2008-09 with positive economic growth. Despite some recorded positive domestic economic performances, Indonesia faces new challenges as its

economy keeps growing and the global economy remains uncertain. A new economic development paradigm is needed to overcome old problems (poverty and unemployment, inadequate infrastructure, corruption, a complex regulatory environment, and unequal resource distribution among regions) with global market opportunities. This book provides a new perspective on how Indonesian's economic policies should be developed by considering its past and future challenges."
 - Firmanzah, Professor of Economics and Dean of Faculty of Economics, University of Indonesia "Aris Ananta, Muljana Soekarni and Sjamsul

Arifin gather excellent researchers and practitioners to discuss important economic policy issues for Indonesia today. They discuss monetary and fiscal policies and real economic sector issues based not only on theoretical analysis but also on their day-to-day experience in economic management. By reviewing Indonesia's economic policy reform and subsequent Asian financial crisis and sub-prime loan crisis, the authors present a new economic development paradigm and explore economic strategy and policies for the new era. The book offers many timely lessons from history, as well as the real policy experiences of the authors, and guides readers in exploring

economic policies under the globalized world economy. This book is very useful for both practitioners and researchers." - Masaaki Komatsu, Professor of Economics, Hiroshima University

From Kevin Brockmeier, one of this generation's most inventive young writers, comes a striking new novel about death, life, and the mysterious place in between. The City is inhabited by those who have departed Earth but are still remembered by the living. They will reside in this afterlife until they are completely forgotten. But the City is shrinking, and the residents clearing out. Some of the holdouts, like Luka Sims, who

produces the City's only newspaper, are wondering what exactly is going on. Others, like Coleman Kinzler, believe it is the beginning of the end. Meanwhile, Laura Byrd is trapped in an Antarctic research station, her supplies are running low, her radio finds only static, and the power is failing. With little choice, Laura sets out across the ice to look for help, but time is running out. Kevin Brockmeier alternates these two storylines to create a lyrical and haunting story about love, loss and the power of memory.

The first ornithological field guide covering the vast chain of the Indonesian archipelago, with over

2,500 illustrations, describes all 1,417 bird species known to occur in the region, including 601 endemics, 98 vagrants, eight introduced species and 18 species yet to be formally described. Together these represent over 13% of global bird diversity. In addition, all subspecies from the region are described. The guide fully encompasses the biogeographic regions of the Greater Sundas (Sumatra, Borneo, Java and Bali) and Wallacea (Sulawesi, the Moluccas and the Lesser Sundas), plus all satellite islands. This region spans an arc of over 4,000 km along the Equator, including Brunei, East Timor, the Malaysian states of Sabah and Sarawak and most of the territory of the

Republic of Indonesia. The authors' vast experience and knowledge of the region's birds brings together the latest taxonomic insights, knowledge of distribution, field identification features, vocalisations and more to create an indispensable reference for anyone with an interest in the avifauna of this fabulously diverse region.

Declaring independence in 1945, Indonesia said it would "work out the details of the transfer of power

etc. as soon as possible." With over 300 ethnic groups spread across over 13,500 islands, the world's fourth most populous nation has been working on that "etc." ever since.

Author Elizabeth Pisani traveled 26,000 miles in search of the links that bind this disparate nation.

In 1811, an army of 10,000 British redcoats splashed ashore through the muddy shallows off Batavia (now Jakarta) to conquer the Dutch colony of Java. They would remain there for five turbulent years. Drawing on both British and Javanese archival sources, this narrative history-cum-biography explores the bloody battles and furious

controversies that marked British rule in Java, and reveals the future founder of Singapore, Thomas Stamford Raffles in a shocking new light.

Brief History of Thailand Tuttle

Indonesia was founded on the ideal of the “Sovereignty of the People”, which suggests the pre-eminence of people’s

rights to access, use and control land to support their livelihoods. Yet, many questions remain unresolved. How can the state ensure access to land for agriculture and housing while also supporting land acquisition for investment in industry and infrastructure? What is to be done about indigenous rights? Do registration and titling provide solutions? Is the land reform agenda — legislated but never implemented — still relevant? How should the land questions affecting Indonesia’s disappearing forests be resolved? The contributors to this volume assess progress on these issues through case studies from across the

archipelago: from large-scale land acquisitions in Papua, to asset ownership in the villages of Sulawesi and Java, to tenure conflicts associated with the oil palm and mining booms in Kalimantan, Sulawesi and Sumatra. What are the prospects for the “people’s sovereignty” in regard to land?
