The Unprecedented Rise of the Instant Tech Billionaires
I Only Have Eyes For You
By: Deirdre DeMarsico
Flying from New York to Los Angeles for a job interview, HR manager Katie O'Brien witnesses a medical emergency in flight and immediately steps up to help. Her quick thinking not only saves a life, but also introduces her to the dashing Dr. Dan Branigan, a cardiac surgeon in LA. The two are immediately smitten with each other, and a romance begins. I Only Have Eyes For You focuses on Dan and Kate's developing relationship as the two get to know each other in today's fast-paced world.

Staying and growing in love, Dan and Kate navigate this modern throw-away society together, reminding us that romance does not have to exist only in a piece of fiction.

Frank Sinatra invites Eddie G. to Miami Beach, where he'll be performing at the Fontainebleau Hotel. Dino and Sammy will also be there, supporting Frank. Sammy will be playing The Eden Roc Hotel, and Dean Martin is appearing on The Jackie Gleason's American Scene Magazine. And because Jackie Gleason was a mentor to Frank, he introduces him to Eddie. As a result, Gleason asks Eddie for his help. Somebody is

following his lady friend, Marilyn Taylor, sister of the famous June Taylor (of the June Taylor Dancers). Before long, Eddie's up to his neck in murder, and may come to regret having ever met "The Great One."

The Seven Fatal Errors of Sola-Scriptura (Bible-Only) Dorrance Publishing

This is a combination of a journal and book of motivational quotes. The goal is to ignite your potential that would catapult you to your destiny

Leading Your Congregation to New Life e-artnow

The Doctrine of Sola-Scriptura (Bible Only) teaches that Scripture (the Bible) alone is the sole source of authority for the Christian and the Church. Coined and promulgated by Martin

Luther and John Calvin (1500's), this doctrine has become the ground-floor upon which all of the doctrine of Protestant-Christianity has been built. If it can be proven that Sola-Scriptura is in error and that it is an innovation to orthodox Christianity, the entire body of purely Protestant doctrine will be, subsequently, rendered void. Using Scripture itself, reason, and a spoon full of humor, David L. Gray (also called Yoseph Daviyd) brilliantly reduces the doctrine of Sola-Scriptura to absolute absurdity; thus rendering all of Protestantism Dead on Arrival. This book is a must have for all Christians who love sacred Scripture and desire to use it as God

intended. This the Second Edition - The changes to the text from the previous version include additional material, modification to images, and correction of typos.

A moving testimony to how a church can experience rebirth by discerning its core mission. The key to becoming a Spirit-energized, people-loving, life-giving, community-transforming congregation, says James A. Harnish, is really very simple. All you have to do is be willing to die. This ebook describes how God calls each congregation to a specific mission, how God grants

discernment to understand what that mission is, and how God enables the congregation to die to its entrenched attitudes and behaviors in order to be resurrected to a new life of ministry and witness.

There are so many kinds of these books around, spirituality books, Angel books, Positive Thinking books and so on. I have read so many of them and tried various different ideas, but through reading them I have been able to open my mind more and see more clearly and to think of situations more differently. That is the reason for writing this book, like a lot of people out there, I have no special gifts. Don't get me wrong I do believe in people with special gifts, I think they are amazing

in what they can see, hear or feel. I have read a lot of their books, personally I have found that it will start off great and I think to myself Yes I am really understanding this, then all of a sudden it might become really complicated, when that happens I am lost I seem to lose the understanding I had at the beginning. It doesn't happen with all the book I read, but I find when the other writers start making it too complicated it doesn't help, me personally if I am reading one of the books I have mentioned I like it to be kept simple, to keep my interest from start to finish.

Only You Have The Power Tate Publishing
Sometimes comical or bizarre, and at other times pathetic and tragic, this cautionary story is for persons wanting and needing to find an ally as they struggle with breaking away from a destructive religious environment. Buoyant and hopeful overtones often battle with discordant angry and bitter undertones as this book consistently lays bare the detrimental dark core at the heart of one woman's lengthy

Christian experience. Since far too many other persons have fallen into similarly laid traps by con-artist leaders of the institutional church, this book provides possible psychological rescue tools.

The ultimate insider look at the newest titans of tech—and what you can learn from their success In 2007, twenty-one-year old David Karp launched Tumblr, a simple micro-blogging platform, on a whim. By 2012, it had become one of the top ten online destinations, drawing 170 million visitors. By 2013, Yahoo had acquired Tumblr for over \$1 billion. Just like that, a kid who hadn't even earned his high school diploma was worth

over a quarter billion dollars. And he's not the only one . . . Silicon Valley's newest billionaires represent a unique and unconventional breed of entrepreneur: young, bold, and taking the world by storm with their extreme speed, insatiable hunger, and progressive leadership. These whiz kids (and, to be fair, a few adults) have the hottest companies in the world. They are all turning just one brilliant insight or hook into money at a rate never before seen in human history—creating companies that, even with no revenue, garner insane valuations. With unique insider access to the world's most influential and wealthy

entrepreneurs, Forbes has dug in to find what these super-entrepreneurs say about their own success. This book, introduced, edited, and updated by Forbes editor Randall Lane, is the first comprehensive look at who these instant tech billionaires are and how they achieved their quick wins. With sixteen illuminating pieces, including two never-before published features, we get behind-the-scenes examinations of the founders of Spotify, Airbnb, Tumblr, Twitter, and more, including: Elon Musk: The billionaire founder of Paypal, electric carmaker Tesla, and private space company SpaceX. His extreme ambition is matched by his preternatural

engineering mind; no wonder he was the model for Robert Downey Jr.'s portrayal of Iron Man. Evan Spiegel: The twenty-three-year old declined a \$3 billion cash offer from Mark Zuckerberg, after making the mountain come to Mohammed (Snapchat's HQ is in Los Angeles) —an unheard of request from a young gun to one of the biggest players in Silicon Valley. The story of Snapchat's origin is even wilder than Facebook's, but Spiegel's ability to parlay infamy and popularity into revenue is still up in the air, even as Snapchat's

valuation continues to grow. Alex Karp: An eccentric philosopher with almost no tech background turned a Peter Thiel backed venture, Palantir, into a data-mining champion, with clients like the NSA, the FBI, and the CIA. Amid heated privacy concerns, Karp continues to grow Palantir like crazy, to \$196 million in funding and an estimated \$1 billion in contracts in 2014. You Only Have to Be Right Once is the definitive collection of everything we can learn from these incredible game changers and what their next moves spell for the future of business.
