COHEN PATRICK

The 10 Worst of Everything Vintage
 Award-winning business columnist Joe Nocera explores how good guys and bad guys are defined in business, and concludes that things are often not what they seem.
Why Bad Things Don't Happen to Good People
 HarperCollins UK
 Finalist for the Washington State Book Award and the Lambda Award in Bisexual Fiction "Sexy, fun, serious and unputdownable."
 —Bethanne Patrick, *The Washington Post* "Brazen, brawny, sexy . . . full of unforgettable characters and insatiable appetites. I was riveted. Painstakingly researched and pulsing with adrenaline, Carrasco's debut will leave you thirsty for more." —Lyndsay Faye, author of *The Gods of Gotham* A vivid, sexy barn burner of a historical crime novel, *The Best Bad Things* introduces readers to the fiery Alma Rosales—detective, smuggler, spy It is 1887, and Alma Rosales is on the hunt for stolen opium. Trained in espionage by

the Pinkerton Detective Agency—but dismissed for bad behavior and a penchant for going undercover as a man—Alma now works for Delphine Beaumont, the seductive mastermind of a West Coast smuggling ring. When product goes missing at their Washington Territory outpost, Alma is tasked with tracking the thief and recovering the drugs. In disguise as the scrappy dockworker Jack Camp, this should be easy—once she muscled her way into the local organization, wins the trust of the magnetic local boss and his boys, discovers the turncoat, and keeps them all from uncovering her secrets. All this, while sending coded dispatches to the circling Pinkerton agents to keep them from closing in. Alma's enjoying her dangerous game of shifting identities and double crosses as she fights for a promotion and an invitation back into Delphine's bed. But it's getting harder and harder to keep her cover stories straight and to know whom to trust. One wrong move and she could be unmasked: as a woman, as a traitor, or as a spy. A propulsive, sensual tour de force, *The Best Bad Things* introduces Katrina

Carrasco, a bold new voice in crime fiction.
The Secret HarperCollins
 How to live confidently for Jesus in today's world. The church used to be recognized as a force for good, but this is changing rapidly. Christians are now often seen as the bad guys, losing both respect and influence. In our post-Christian culture, how do we offer the gospel to those around us who view it as not only wrong but possibly dangerous? And how do we ensure that the secular worldview does not entice us away with its constant barrage, online and elsewhere, of messages about self-determinism? Author Stephen McAlpine offers an analysis of how our culture ended up this way and explains key points of tension between biblical Christianity and secular culture. He encourages Christians not to be ashamed of the gospel as it is more liberating, fulfilling and joyful than anything the world has to offer. He also offers strategies for coping in this world, with its opposing values, and for reaching out to others wisely with the truth.
All the Fun of the Fair (Bad Nana, Book 2)
 Penguin UK
The Giver, the 1994

Newbery Medal winner, has become one of the most influential novels of our time. The haunting story centers on twelve-year-old Jonas, who lives in a seemingly ideal, if colorless, world of conformity and contentment. Not until he is given his life assignment as the Receiver of Memory does he begin to understand the dark, complex secrets behind his fragile community. This movie tie-in edition features cover art from the movie and exclusive Q&A with members of the cast, including Taylor Swift, Brenton Thwaites and Cameron Monaghan.

Everything Bad is Good for You Penguin
#1 New York Times Bestseller Over 10 million copies sold In this generation-defining self-help guide, a superstar blogger cuts through the crap to show us how to stop trying to be "positive" all the time so that we can truly become better, happier people. For decades, we've been told that positive thinking is the key to a happy, rich life. "F**k positivity," Mark Manson says. "Let's be honest, shit is f**ked and we have to live with it." In his wildly popular Internet blog, Manson doesn't

sugarcoat or equivocate. He tells it like it is—a dose of raw, refreshing, honest truth that is sorely lacking today. The Subtle Art of Not Giving a F**k is his antidote to the coddling, let's-all-feel-good mindset that has infected American society and spoiled a generation, rewarding them with gold medals just for showing up. Manson makes the argument, backed both by academic research and well-timed poop jokes, that improving our lives hinges not on our ability to turn lemons into lemonade, but on learning to stomach lemons better. Human beings are flawed and limited—"not everybody can be extraordinary, there are winners and losers in society, and some of it is not fair or your fault." Manson advises us to get to know our limitations and accept them. Once we embrace our fears, faults, and uncertainties, once we stop running and avoiding and start confronting painful truths, we can begin to find the courage, perseverance, honesty, responsibility, curiosity, and forgiveness we seek. There are only so many things we can give a f**k about so we need to figure out which ones really matter,

Manson makes clear. While money is nice, caring about what you do with your life is better, because true wealth is about experience. A much-needed grab-you-by-the-shoulders-and-look-you-in-the-eye moment of real-talk, filled with entertaining stories and profane, ruthless humor, *The Subtle Art of Not Giving a F**k* is a refreshing slap for a generation to help them lead contented, grounded lives.

When Things Fall Apart

The Good Book Company
A New York Times bestseller! This is a book about a bad seed. A baaaaaaaaaad seed. How bad? Do you really want to know? He has a bad temper, bad manners, and a bad attitude. He's been bad since he can remember! This seed cuts in line every time, stares at everybody and never listens. But what happens when one mischievous little seed changes his mind about himself, and decides that he wants to be—happy? With Jory John's charming and endearing text and bold expressive illustrations by Pete Oswald, here is *The Bad Seed*: a funny yet touching tale that reminds us of the remarkably transformative power of

will, acceptance, and just being you. Perfect for readers young and old, *The Bad Seed* proves that positive change is possible for each and every one of us. Check out Jory John and Pete Oswald's funny, bestselling books for kids 4-8 and anyone who wants a laugh: *The Bad Seed* *The Good Egg* *The Cool Bean* *The Couch Potato* *The Good Egg Presents: The Great Eggscape!* *The Bad Seed Presents: The Good, the Bad, the Spooky!* *The Cool Bean Presents: As Cool as It Gets* *That's What Dinosaurs Do* *Why Do Bad Things Happen to Good People* Simon and Schuster

There are many books that promise to help you fix a bad relationship. This groundbreaking bestseller is the first one to help you choose whether you should even try—or if you need to go. Psychotherapist Mira Kirshenbaum draws on years of research and her work with real-life couples to help you make the right decision. She shows you how to diagnose your unique situation with self-analysis and questions like these, which get to the very heart of your problems: • What sins are forgivable and which ones

are unpardonable? • Is your partner questioning your opinions to the point where you doubt yourself? • What is your sex life really like, and how important is it? • Is there real love left between you, and how does it stack up against all that you find unlovable? Mira Kirshenbaum provides expert guidelines that are the key to making all your choices, concrete steps that you can implement right now, and the ultimate way to determine your personal bottom line—what you need to be happy. This remarkably insightful and probing guide offers advice that lets you see the truth about your relationship—and with wisdom and compassion, it helps you act with the confidence of knowing that whether you decide to go or stay, you are doing the very best thing. *How Bad Are Bananas?* HarperChristian + ORM

Amoral, cunning, ruthless, and instructive, this multi-million-copy New York Times bestseller is the definitive manual for anyone interested in gaining, observing, or defending against ultimate control – from the author of *The Laws of Human Nature*. In the book that People

magazine proclaimed “beguiling” and “fascinating,” Robert Greene and Joost Elffers have distilled three thousand years of the history of power into 48 essential laws by drawing from the philosophies of Machiavelli, Sun Tzu, and Carl Von Clausewitz and also from the lives of figures ranging from Henry Kissinger to P.T. Barnum. Some laws teach the need for prudence (“Law 1: Never Outshine the Master”), others teach the value of confidence (“Law 28: Enter Action with Boldness”), and many recommend absolute self-preservation (“Law 15: Crush Your Enemy Totally”). Every law, though, has one thing in common: an interest in total domination. In a bold and arresting two-color package, *The 48 Laws of Power* is ideal whether your aim is conquest, self-defense, or simply to understand the rules of the game.

Why Good People Do Bad Things Milkweed Editions

Discover a Life Filled with Passion, Meaning, and Purpose New York Times bestselling author Debbie Ford leads us into the heart of the duality that unknowingly operates within each one of us. Providing the tools to end

self-sabotage, Ford ultimately knocks down the façade of the false self and shows us how to heal the split between light and dark and live the authentic life within our reach.

Women Living Well

Prometheus Books
One-of-a-kind cultural critic and New York Times bestselling author Chuck Klosterman “offers up great facts, interesting cultural insights, and thought-provoking moral calculations in this look at our love affair with the anti-hero” (New York magazine). Chuck Klosterman, “The Ethicist” for The New York Times Magazine, has walked into the darkness. In *I Wear the Black Hat*, he questions the modern understanding of villainy. When we classify someone as a bad person, what are we really saying, and why are we so obsessed with saying it? How does the culture of malevolence operate? What was so Machiavellian about Machiavelli? Why don’t we see Bernhard Goetz the same way we see Batman? Who is more worthy of our vitriol—Bill Clinton or Don Henley? What was O.J. Simpson’s second-worst decision? And why is Klosterman

still haunted by some kid he knew for one week in 1985? Masterfully blending cultural analysis with self-interrogation and imaginative hypotheticals, *I Wear the Black Hat* delivers perceptive observations on the complexity of the antihero (seemingly the only kind of hero America still creates). As the Los Angeles Times notes: “By underscoring the contradictory, often knee-jerk ways we encounter the heroes and villains of our culture, Klosterman illustrates the passionate but incomplete computations that have come to define American culture—and maybe even American morality.” *I Wear the Black Hat* is a rare example of serious criticism that’s instantly accessible and really, really funny.

Good Guys and Bad Guys Penguin

Offers an inspirational and compassionate approach to understanding the problems of life, and argues that we should continue to believe in God's fairness.

When Bad Things Happen to Good People Simon and Schuster

Pearl Littlefield's first assignment in fifth grade is complicated: She has to write an essay about her

summer. Where does she begin? Her dad lost his job, she had to go to a different camp—one where her older sister Lexie was a counselor-in-training (ugh!)—and she and her good friend James Brubaker III had a huge fight, which made them both wonder if the other kids were right that girls and boys can't be good friends and which landed one of them in the hospital. And there's much, much more on the list of good and bad things, as Ann Martin takes this appealing character into new adventures through which young readers will see that good or bad, life is what happens when you're making other plans.

A Little Life Charisma Media

'It is terrific. I can't remember the last time I read a book that was more fascinating and useful and enjoyable all at the same time.' Bill Bryson *How Bad Are Bananas?* was a groundbreaking book when first published in 2009, when most of us were hearing the phrase 'carbon footprint' for the first time. Mike Berners-Lee set out to inform us what was important (aviation, heating,

swimming pools) and what made very little difference (bananas, naturally packaged, are good!). This new edition updates all the figures (from data centres to hosting a World Cup) and introduces many areas that have become a regular part of modern life - Twitter, the Cloud, Bitcoin, electric bikes and cars, even space tourism. Berners-Lee runs a considered eye over each area and gives us the figures to manage and reduce our own carbon footprint, as well as to lobby our companies, businesses and government. His findings, presented in clear and even entertaining prose, are often surprising. And they are essential if we are to address climate change.

Everything Bad is Good for You William Morrow
From Newbery Honor- and Coretta Scott King Author Award-winning, New York Times bestselling author Renée Watson comes a heartwarming and inspiring novel for middle schoolers about finding deep roots and exploring the past, the present, and the places that make us who we are. All Amara wants for her birthday is to visit her father's family in New York City--Harlem,

to be exact. She can't wait to finally meet her Grandpa Earl and cousins in person, and to stay in the brownstone where her father grew up. Maybe this will help her understand her family--and herself--in new way. But New York City is not exactly what Amara thought it would be. It's crowded, with confusing subways, suffocating sidewalks, and her father is too busy with work to spend time with her and too angry to spend time with Grandpa Earl. As she explores, asks questions, and learns more and more about Harlem and about her father and his family history, she realizes how, in some ways more than others, she connects with him, her home, and her family. Acclaim for *Piecing Me Together* Newbery Honor Book Coretta Scott King Author Award Los Angeles Times Book Prize, Young Adult Finalist A New York Public Library Best Book for Teens A Chicago Public Library Best Book, Teen Fiction An ALA Top Ten Best Fiction for Young Adults An NPR Best Book A Kirkus Reviews' Best Teen Book A Refinery29 Best Book

If God Is Good, Why Is The World So Bad?
Portable Press

Watch out for the people whose actions have earned them a place in this entertaining book! *The 10 Worst of Everything* is a celebration of failures, doom, disaster, mistakes, miscalculations, hubris, and folly from across a range of human endeavors—and when humans are involved, the potential for failure is great. This book includes chapters that focus on science, nature, pop culture, travel, and even romance. Each entertaining article will leave you shaking your head and wondering what these people were thinking.

Everything Bad is Good for You Schocken

A psychiatrist presents a compelling argument for how human purpose and caring emerged in a spontaneous and unguided universe. Can there be purpose without God? This book is about how human purpose and caring, like consciousness and absolutely everything else in existence, could plausibly have emerged and evolved unguided, bottom-up, in a spontaneous universe. A random world--which according to all the scientific evidence and despite our intuitions is

the actual world we live in--is too often misconstrued as nihilistic, demotivating, or devoid of morality and meaning. Drawing on years of wide-ranging, intensive clinical experience as a psychiatrist, and his own family experience with cancer, Dr. Lewis helps readers understand how people cope with random adversity without relying on supernatural belief. In fact, as he explains, although coming to terms with randomness is often frightening, it can be liberating and empowering too. Written for those who desire a scientifically sound yet humanistic view of the world, Lewis's book examines science's inroads into the big questions that occupy religion and philosophy. He shows how our sense of purpose and meaning is entangled with mistaken intuitions that events in our lives happen for some intended cosmic reason and that the universe itself has inherent purpose. Dispelling this illusion, and integrating the findings of numerous scientific fields, he shows how not only the universe, life, and consciousness but also purpose, morality, and meaning could, in fact, have

emerged and evolved spontaneously and unguided. There is persuasive evidence that these qualities evolved naturally and without mystery, biologically and culturally, in humans as conscious, goal-directed social animals. While acknowledging the social and psychological value of progressive forms of religion, the author respectfully critiques even the most sophisticated theistic arguments for a purposeful universe. Instead, he offers an evidence-based, realistic yet optimistic and empathetic perspective. This book will help people to see the scientific worldview of an unguided, spontaneous universe as awe-inspiring and foundational to building a more compassionate society.

Especially the Bad Things Shambhala

Publications

From the New York Times bestselling author of *How We Got To Now* and *Farsighted* Forget everything you've ever read about the age of dumbed-down, instant-gratification culture. In this provocative, unfailingly intelligent, thoroughly researched, and surprisingly convincing big idea book,

Steven Johnson draws from fields as diverse as neuroscience, economics, and media theory to argue that the pop culture we soak in every day—from *Lord of the Rings* to *Grand Theft Auto* to *The Simpsons*—has been growing more sophisticated with each passing year, and, far from rotting our brains, is actually posing new cognitive challenges that are actually making our minds measurably sharper. After reading *Everything Bad is Good for You*, you will never regard the glow of the video game or television screen the same way again. With a new afterword by the author.

Why Good People Do Bad Things Feiwel & Friends

Essays by a Whiting

Award winner: "Like a descendant of Lewis Carroll and Emily Dickinson . . . one of the

most exciting and original writers in America."

—Yiyun Li, author of *Must I Go Things That Are* takes jellyfish, fainting goats, and imperturbable caterpillars as just a few of its many inspirations. In a series of essays that progress from the tiniest earth dwellers to the most far-flung celestial bodies—considering the

similarity of gods to donkeys, the inexorability of love and vines, the relations of exploding stars to exploding sea cucumbers—Amy Leach rekindles a vital communion with the wild world, dormant for far too long. *Things That Are* is not specifically of the animal, the human, or the phenomenal; it is a book of wonder, one the reader cannot help but leave with their perceptions both expanded and confounded in delightful ways. This debut collection comes from a writer whose accolades precede her: a Whiting

Award, a Rona Jaffe Award, a Best American Essays selection, and a Pushcart Prize, all received before her first book-length publication. *Things That Are* marks the debut of an entirely new brand of nonfiction writer, in a mode like that of Ander Monson, John D'Agata, and Eula Biss, but a new sort of beast entirely its own. "Explores fantastical and curious subjects pertaining to natural phenomena . . . for those interested in looking at the natural world through the lens of a fairy tale, this is a bonbon of a book."

—Kirkus Reviews

Being the Bad Guys

Profile Books

Describes a traditional Buddhist approach to suffering and how embracing the painful situation and using communication, negative habits, and challenging experiences leads to emotional growth and happiness.

Things That Are Penguin

This simple, comprehensive tool teaches readers that the suffering, distress, and frustration they've encountered are not outside the assistance of God's grace.
