Reality, it turns out, is often not what you perceive it to be—sometimes, there really is someone out to get you. For fans of Silver Linings Playbook and Liar, this thought-provoking debut tells the story of Alex, a high school senior—and the ultimate unreliable narrator—unable to tell the difference between real life and delusion. Alex fights a daily battle to figure out what is real and what is not. Armed with a take-no-prisoners attitude, her camera, a Magic 8 Ball, and her only ally (her little sister), Alex wages a war against her schizophrenia, determined to stay sane long enough to get into college. She's pretty optimistic about her chances until she runs into Miles. Didn't she imagine him? Before she knows it, Alex is making friends, going to parties, falling in

love, and experiencing all the usual rites of passage for teenagers. But Alex is used to being crazy. She's not prepared for normal. Can she trust herself? Can we trust her?

What's a geek girl to do when all's fair in love, war, and hacking ... Stung by an epic betrayal, Camy Cavanaugh relies on the sure things: her best friend, her job as peer tutor, and her safe spot on the sidelines of life. But when she hacks into a secret, trash-talking website, it ignites a war between the sexes that won't end until the whole school is turned upside down--and Camy's world is turned inside out. Now the hottest girls in school refuse to date the A-List boys. But with the Homecoming dance looming, everyone from the queen bee to the girl "most likely to" pushes Camy to hook them up with guys from the nerd herd. And then there's quarterback, A-lister--and former crush--Gavin Madison. He hasn't spoken to Camy in three years ... but he's talking now, begging her to pair the guys on the football team with girls from the Honor Roll. It's a contest of wills and everything is on the line--even Camy's heart. Will she retreat to the sidelines, or will she find the courage to get back in the game? This contemporary young adult novel won the 2016 International Digital Awards, in the Young Adult Novel category. Read on for a tech-savvy twist to *Lysistrata*.

The world is increasingly unthinkable, a world of planetary

disasters, emerging pandemics, and the looming threat of extinction. In this book Eugene Thacker suggests that we look to the genre of horror as offering a way of thinking about the unthinkable world. To confront this idea is to confront the limit of our ability to understand the world in which we live - a central motif of the horror genre. In *The Dust of This Planet* explores these relationships between philosophy and horror. In Thacker's hands, philosophy is not academic logic-chopping; instead, it is the thought of the limit of all thought, especially as it dovetails into occultism, demonology, and mysticism. Likewise, Thacker takes horror to mean something beyond the focus on gore and scare tactics, but as the under-appreciated genre of supernatural horror in fiction, film, comics, and music.
