#8 Quick Switch Answer Key
A quickswitch bind will switch to your knife, and then quickly back

to your weapon when the binded key is pressed. This bind is commonly used by players who use AWP's, scouts and in some cases deagles to instantly switch to their knife and then back to their gun after firing a shot. This offers no advantage in terms of recoil or the time until another shot can be fired, but it means that the AWP and SSG-08 will not re-scope in after the shot has finished firing.
