The Encyclopedia of Political Science Set

Cengage Learning

This book provides a concise overview of the institutions of government in modern democracies, including constitutions, legislatures, heads of state and of government, variations of federalism, and electoral systems. The Institutions of Liberal Democratic States presents four excerpted chapters from Politics: An Introduction to Democratic Government, second edition.

The Practice of Nigerian
Federalism Oxford
University Press

Courts are key players in the dynamics of federal countries since their rulings have a direct impact on the ability of governments to centralize and decentralize power. Courts in Federal Countries examines the role high courts play in thirteen countries, including Australia, Brazil, Canada, Germany, India, Nigeria, Spain, and the United States. The

volume's contributors analyse the centralizing or decentralizing forces at play following a court's ruling on issues such as individual rights, economic affairs, social issues, and other matters. The thirteen substantive chapters have been written to facilitate comparability between the countries. Each chapter outlines a country's federal system, explains the constitutional and institutional status of the court system, and discusses the high court's jurisprudence in light of these features. Courts in Federal Countries offers insightful explanations of judicial behaviour in the world's leading federations.

American Government and Politics Today

The gradual development of appropriate constitutional mechanisms and controls is part of a general shift from modern statism to postmodern federalism. Reliance on the sovereignty of the nation-state, which marked the era from the Treaty of Westphalia in 1648 to the end of World War II, gave

way to the beginning of a world order that links states in various ways through enforceable constitutional bonds. These trends have been recognized by students both of federalism and of international relations. Constitutionalizing Globalization is the first book to join the perspectives of both in order to explain the new paradigm.

SYSTEM OF GOVERNMENT

AMERICA Read Books Ltd

This comparative study examines the dialectical tensions between global and regional interdependence and the fragmentation of humankind into territorial entities. Political authority may remain territory-bound, but borders increasingly are penetrated by pollutants, individuals, noncentral governments in search of foreign trade and investment, and transnational corporations, as well as the traditional exchanges of trade, media, and culture. The result of these transborder flows, accelerated by new technologies, is a new variety of international

relations among “perforated sovereignties.” Dr. Duchacek analyzes the territorial organization of political authority in both democratic and authoritarian frameworks as well as in unitary and federal systems. Case studies focus on new forms of transborder interactions between neighboring countries, especially in North America and in Western Europe. The book is of major interest to scholars in the fields of political science and political economy. Quotations from a variety of political theorists and practitioners, illustrative diagrams, and maps make the book suitable for students of comparative politics, international relations, comparative federalism, and public policy.

The Federal Vision

Rowman & Littlefield **GATEWAYS TO DEMOCRACY** introduces the American political system to students, pointing out in each chapter the gateways that facilitate, or at times block, participation. In emphasizing how the political system works, and how individuals and groups have opened gates to influence public

policy, the text helps students see the relevance of government in their lives. The fourth edition provides coverage of the 2016 election, as well as enhanced discussion of diversity and participation that reflects the changing demographic infrastructure in America. This volume, meant to be the first in a series of catalogues documenting the Barnes Foundation's entire holdings, is the first major survey of the Barnes Collection since *Great French Paintings from the Barnes Foundation: Impressionist, Post-Impressionist, and Early Modern* (CH, Oct'93, 31-0715). Wattenmaker, a former student and

instructor at the Barnes Foundation and former director of the Archives of American Art, is more than qualified to complete such a scholarly work. Beginning the catalogue with an essay on Barnes himself, Wattenmaker apparently felt compelled to defend the reputation of this irascible and sometimes antagonistic individual by deploying extensive quotations (from hitherto inaccessible archival documentation) that shed light on Barnes's motives. Next are in-depth essays on William J. Glackens, Alfred Maurer, and others who have major works in the Barnes Foundation. The final section, "Additional Works by American Artists," is organized alphabetically. Each image is accompanied by extensive scholarly footnotes. The photographs are richly textured. The few photographs of the paintings hanging in situ provide a teasing glimpse into the experience of the visitor to Merion, Pennsylvania, the original home of this collection (soon to be closed to the public, in preparation for the museum's move to a new building in Philadelphia). Summing

Up: Highly recommended.

Bessette/Pitney's AMERICAN GOVERNMENT AND POLITICS: DELIBERATION, DEMOCRACY, AND CITIZENSHIP is based on the idea of deliberative democracy: political systems work best when informed citizens and public officials deliberate to identify and promote the common good.

Emphasizing citizenship, the text examines the way that civic culture and immigration impact students and shape the country. It offers solid historical coverage and a

close look at civic responsibility. This version of the text does not include policy chapters. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.
