person-centered approach to nursing care. New! Clinical vignettes personalize the clinical application of concepts and integrate with vSim for Nursing for patient-specific reinforcement of commonly encountered scenarios and conditions. New! Technology Alerts familiarize students with emerging devices and software they'll likely encounter in the clinical setting. New!

Informatics chapter reflects the increasingly important role of data and information technology in patient care. New! QSEN boxes in every chapter help students ensure compliance with Quality and Safety Education for Nurses competencies. NEW! Legal Alerts help students ensure compliance with important laws and considerations related to clinical practice. New! Watch & Learn

Videos clarify key concepts and procedures in engaging detail. Revised! Illustrated Concept Maps engage visual learners, simplify complex topics, and strengthen students' clinical reasoning skills. Case scenarios in each chapter encourage holistic patient care and reflection on critical thinking questions. Jake Drake, Teacher's Pet Turtleback Helps

students with vocabulary and structures commonly tested Exam tips on every page Now gives students access to a complete online PET practice test at oxfordenglishtesting.com Also includes an audio CD, answer key, and teaching tips Suitable for Cambridge English: Preliminary (PET) for Schools *Nonfiction comprehension test practice* OUP Oxford Apolonia "Lina" Flores is a sock

enthusiast, a volleyball player, a science lover, and a girl who's just looking for answers. Even though her house is crammed full of books (her dad's a bibliophile), she's having trouble figuring out some very big questions, like why her dad seems to care about books more than her, why her best friend's divorced mom is obsessed with making cascarones (hollowed eggshells filled with

colorful confetti), and, most of all, why her mom died last year. Like colors in cascarones, Lina's life is a rainbow of people, interests, and unexpected changes. In her first novel for young readers, Diana López creates a clever and honest story about a young Latina girl navigating growing pains in her South Texan city. *Can Do, Jenny Archer* Little, Brown Books for Young Readers A new level for the Exams

2019
Cambridge University Press
Praise for the previous edition "An extraordinary and important book. Its approach toevidence-based practice (EBP) is very sound, realistic, andgenerous to the complexities of everyday practice. Reading andusing this book is a must."
—Haluk Soydan, PhD, School of Social Work, Universityof Southern California

"This book has the potential to change practice in the helping professions. Rather than focusing on how to conduct research, Practitioner's Guide to Using Research for Evidence-Based Practice instead shows readers how to understand the literature... . [The] generous use of humor and the inclusion of simple, practice-relevant examples make this book a pleasure to read."
—Aron

Shlonsky, PhD, Faculty of Social Work, University of Toronto "I particularly like the integration of research methods and EBP; this is the book's major innovation in my mind as it allows readers to see the connections between research and practice. [The book] also succeeds by taking very complex EBP principles and explaining them in practical terms."
—Jeffrey M. Jenson, PhD,

Graduate School of Social Work, University of Denver
Hands-on guidance for research-informed practice and practice-informed research Now in a second edition, Practitioner's Guide to Using Research for Evidence-Based Practice offers a clinician-oriented approach to appraising and using research as part of the EBP process. This accessible

<p>guide presents essential and practical guidance on how to integrate research appraisal into EBP endeavors to determine which interventions, policies, and assessment tools are supported by the best evidence. It introduces: Increased attention to macro-level EBP questions and studies. New discussion on defining EBP, including the addition of a transdisciplin</p>	<p>ary model of EBP. More detailed guidance on EBP question formulation and conducting Internet searches, including the PICO framework. New content on multivariate designs, including propensity score matching, and on mixed-model and mixed-methods studies. <u>MAP Testing</u> Harper Collins Complete PET is a brand new course for the PET exam. It combines the very best in</p>	<p>contemporary classroom practice with stimulating topics aimed at teenagers and young adults. The course covers every part of the PET exam in detail providing preparation, practice, information and advice to ensure that students are fully prepared for every part of the exam. Informed by Cambridge's searchable database of real exam scripts, the Cambridge Learner Corpus, and</p>
