a similar p/u width to
the 376 and 377. The
378 was a similar era
to the other 3 series
but had a wider p/u as
did the later 945. The
370 I did not see
around here but it was
a smaller capacity than
the 376, including p/u.
We found the 376
struggled to cope with
a heavy crop of straw
on a header probably
less than 20ft. The 945

with a wider p/u was in a different league.
