From the acclaimed Nobel Prize winner, a passionate, profound story of love and obsession that brings us back and forth in time, as a narrative is assembled from the emotions, hopes, fears, and deep realities of Black urban life. In the winter of 1926, when everybody everywhere sees nothing but good things ahead, Joe Trace, middle-aged door-to-door salesman of Cleopatra beauty products, shoots his teenage lover to death. At the funeral, Joe's wife, Violet, attacks the girl's corpse. This novel "transforms a familiar refrain of jilted love into a bold, sustaining time of self-knowledge and discovery. Its rhythms are infectious" (People). "The author conjures up worlds with complete authority and makes no secret of her angst at the injustices dealt to Black women." —The New York Times Book Review

*American Literature Before 1880* attempts to place its subject in the broadest possible international perspective. It begins with Homer looking westward, and ends with Henry James crossing the Atlantic eastwards. In between, the book examines the projection of images of the East onto an as-yet unrecognized West; the cultural consequences of Viking, Colombian, and then English migration to America; the growth and independence of the British American colonies; the key writers of the new Republic; and the development of the culture of the United States before and after the Civil War. It is intended both as an introduction for undergraduates to the richness and variety of American Literature, and as a contribution to the debate about its distinctive nature. The book therefore begins with a lengthy survey of earlier histories of American Literature.

Modern theories of meaning usually culminate in a critique of science. This book presents a study of human intelligence beginning with a semantic theory and leading into a critique of music. By implication it sets up a theory of all the arts; the transference of its basic concepts to other arts than music is not developed, but it is sketched, mainly in the chapter on artistic import. Thoughtful readers of the original edition discovered these far-reaching ideas quickly enough as the career of the book shows: it is as applicable to literature, art and music as to the field of philosophy itself. The topics it deals with are many: language, sacrament, myth, music, abstraction, fact, knowledge--to name only the main ones. But through them all goes the principal theme, symbolic transformation as the essential activity of human minds. This central idea, emphasizing as it does the notion of symbolism, brings Mrs. Langer's book into line with the prevailing interest in semantics. All profound issues of our age seem to center around the basic concepts of symbolism and meaning. The formative, creative, articulating power of symbols is the tonic chord which thinkers of all schools and many diverse fields are unmistakably striking; the surprising, far-reaching implications of this new fundamental conception constitute what Mrs. Langer has called philosophy in a new key. Mrs. Langer's book brings the discussion of symbolism into a wider general use than criticism of word meaning. Her volume is vigorous, effective, and well written and will appeal to everyone interested in the contemporary problems of philosophy.

From legendary playwright August Wilson comes the powerful, stunning dramatic bestseller that won him critical acclaim, including the Tony Award for Best Play and the Pulitzer Prize. Troy Maxson is a strong man, a hard man. He has had to be to survive. Troy Maxson has gone through life in an America where to be proud and black is to face pressures that could crush a man, body and soul. But the 1950s are yielding to the new spirit of liberation in the 1960s, a spirit that is changing the world Troy Maxson has learned to deal with the only way he can, a spirit that is making him a stranger, angry and afraid, in a world he never knew and to a wife and son he understands less and less. This is a modern classic, a book that deals with the impossibly difficult themes of race in America, set during the Civil Rights Movement of the 1950s and 60s. Now an Academy Award-winning film directed by and starring Denzel Washington, along with Academy Award and Golden Globe winner Viola Davis.

American Book Award Winner: A “moving, intimate” account of serving as a translator for undocumented children facing deportation (The New York Times Book Review). Nonfiction Finalist for the Kirkus Prize Finalist for National Book Critics Circle Award for Criticism Structured around the forty questions volunteer worker Valeria Luiselli translates from a court system form and asks undocumented Latin American children facing deportation, *Tell Me How It Ends* humanizes these young migrants and highlights the contradiction between the idea of America as a fiction for immigrants and the reality of racism and fear—here and back home. “Luiselli’s prose is always lush and astute, but this long essay, which borrows its framework from questions on the cold, bureaucratic work sheets with which she became so familiar (for example, ‘Did anything happen on your trip to the U.S. that scared or hurt you?’), is teeming with urgency...In this slim volume about the spectacular failure of the American Dream, she tells the stories of the unnamed children she’s encountered and their fears and desires, as well as her own family’s immigration story.” —Vulture “Worthy of inclusion in a great American (and international) canon of writing about migration.” —Texas Observer “A powerful indictment of American immigration policy, [Tell Me How It Ends] examines a system that has failed child refugees in particular.” —Financial Times “Masterfully blends journalism, auto/biography, and political history into a compelling and cohesive narrative. . . . Luiselli uses the personal to get political but smartly sidesteps identity politics to focus on policy instead.”—The Rumpus

Kissinger’s invaluable and lasting contribution to the history of this crucial time. One of the most important books to come out of the Nixon Administration, the New York Times bestselling *White House Years* covers Henry Kissinger’s first four years (1969–1973) as Assistant to the President for National Security Affairs. Among the momentous events recounted in this first volume of Kissinger’s timeless memoirs are his secret negotiations with the North Vietnamese in Paris to end the Vietnam War, the Jordan crisis of 1970, the India-Pakistan war of 1971, his back-channel and face-to-face negotiations with Soviet leaders to limit the nuclear arms race, his secret journey to China, and the historic summit meetings in Moscow and Beijing in 1972. He covers major controversies of the period, including events in Laos and Cambodia, his “peace is at hand” press conference and the breakdown of talks with the North Vietnamese that led to the Christmas bombing in 1972. Throughout, Kissinger presents candid portraits of world leaders, including Richard Nixon, Anwar Sadat, Golda Meir, Jordan’s King Hussein, Leonid Brezhnev, Chairman Mao and Chou En-lai, Willy Brandt, Charles de Gaulle, and many others. *White House Years* is Henry Kissinger’s invaluable and lasting contribution to the history of this crucial time.

How does one keep classic books alive for young people today and teach them that literature is instructional and delightful? How does the teacher foster a classroom environment that encourages student participation and promotes enjoyment so that teenagers learn to appreciate literary study? More specifically, how can teachers cover centuries of American literature with students who don't appreciate why they should read material written centuries ago about people and issues that appear to be irrelevant to life today in a language that seems esoteric? The author of this series of high school teaching guides addresses these issues. *How to Teach American Literature: A Practical Teaching Guide* provides a detailed resource for teachers or anyone interested in an in-depth study of the subject. This second book in the series covers American literature from the Puritan era to contemporary works. Included are suggestions for cultivating a love for literature, teaching techniques, detailed analyses of each work, questions for review and test questions with suggested responses, essay topics, audiovisual aids, classroom handouts, and recommended books that enhance teaching. The author emphasizes two basic reasons for teaching literature: it is instructional and delightful. This book provides a comprehensive methodology for teaching the subject that a teacher could apply to one year's lesson plans without further investment in time. Elizabeth McCallum Marlow has developed quality comprehensive guides for the teaching community based on her thirty-five years of experience and her passion for literature. Teaching professionals will find her tried and true practices to be invaluable. --Johnathan Arnold, MBA, M.Ed, D.Ed.Min Headmaster Covenant Christian Academy, Cumming, GA

Drawing on a wide array of literary, historical, and theoretical sources, Rachel Lee addresses current debates on the relationship among Asian American ethnic identity, national belonging, globalization, and gender. Lee argues that scholars have traditionally placed undue emphasis on ethnic-based political commitments--whether these are construed as national or global--in their readings of Asian American texts. This has constrained the intelligibility of stories that are focused less on ethnicity than on kinship, family dynamics, eroticism, and gender roles. In response, Lee makes a case for a reconceptualized Asian American criticism that centrally features gender and sexuality. Through a critical analysis of select literary texts--novels by Carlos Bulosan, Gish Jen, Jessica Hagedorn, and Karen Yamashita--Lee probes the specific ways in which some Asian American authors have steered around ethnic themes with alternative tales circulating around gender and sexual identity. Lee makes it clear that what has been missing from current debates has been an analysis of the complex ways in which gender mediates questions of both national belonging and international migration. From anti-miscegenation legislation in the early twentieth century to poststructuralist theories of language to Third World feminist theory to critical studies of global cultural and economic flows, *The Americas of Asian American Literature* takes up pressing cultural and literary questions and points to a new direction in literary criticism.

For better or worse, America lives in the age of "worlded†? literature. Not the world literature of nations and nationalities considered from most powerful and wealthy to the least. And not the world literature found with a map. Rather, the worlded literature of individuals crossing borders, mixing stories, and speaking in dialect. Where translation struggles to be effective and background is itself another story. The "worlded†? literature of the multinational corporate publishing industry where the global market is all. The essays in this collection, from some of the most distinguished figures in

American studies and literature, explore what it means to consider American literature as world literature.

Bringing together a variety of scholarly voices, this book argues for the necessity of understanding the important role literature plays in crystallizing the ideologies of the oppressed, while exploring the necessarily racialized character of utopian thought in American culture and society. Utopia in

everyday usage designates an idealized fantasy place, but within the interdisciplinary field of utopian studies, the term often describes the worldviews of non-dominant groups when they challenge the ruling order. In a time when white supremacy is reasserting itself in the US and around the world, there is a growing need to understand the vital relationship between race and utopia as a resource for resistance. Utopian literature opens up that relationship by envisioning and negotiating the prospect of a better future while acknowledging the brutal past. The collection fills a critical gap in both literary studies, which has largely ignored the issue of race and utopia, and utopian studies, which has said too little about race.
