Love and Marriage Bantam Books
 "A beautifully written and well-researched cultural criticism as well as an honest memoir" (Los Angeles Review of Books) from the author of the popular New York Times essay, "To Fall in Love with Anyone, Do This," explores the romantic myths we create and explains how they limit our ability to achieve and sustain

intimacy. What really makes love last? Does love ever work the way we say it does in movies and books and Facebook posts? Or does obsessing over those love stories hurt our real-life relationships? When her parents divorced after a twenty-eight year marriage and her own ten-year relationship ended, those were the questions that Mandy Len Catron wanted to answer. In a series of candid, vulnerable, and wise essays that takes a closer look at what it means to love someone, be loved, and how we present our love to the world, "Catron melds science and emotion beautifully into a thoughtful and thought-provoking meditation" (Bookpage). She delves back to 1944, when her grandparents met in a coal mining town in Appalachia, to her own dating life as a professor in Vancouver. She uses biologists' research into dopamine triggers to ask whether the need to love is an innate human drive. She uses literary theory to show why we prefer certain kinds of love stories. She urges us to question the unwritten scripts we follow in relationships and looks into where those scripts come from. And she tells the story of how she decided to test an experiment that she'd read about—where the goal was to create intimacy between strangers using a list of thirty-six questions—and ended up in the surreal situation of

having millions of people following her brand-new relationship. "Perfect fodder for the romantic and the cynic in all of us" (Booklist), *How to Fall in Love with Anyone* flips the script on love. "Clear-eyed and full of heart, it is mandatory reading for anyone coping with—or curious about—the challenges of contemporary courtship" (The Toronto Star).

This is a Summary of Aziz Ansari's *Modern Romance*; a hilarious, thoughtful, and in-depth exploration of the pleasures and perils of modern romance from one of this generation's sharpest comedic voices. At some point, every one of us embarks on a journey to find love. We meet people, date, get into and out of relationships, all with the hope of finding someone with whom we share a deep connection. This seems standard now, but it's wildly different from what people did even just decades ago. Single people today have more romantic options than at any point in human history. With technology, our abilities to connect with and sort through these options are staggering. So why are so many people frustrated? Some of our problems are unique to our time. "Why did this guy just text me an emoji of a pizza?" "Should I go out with this girl even though she listed Combos as one of her favorite snack foods? Combos?!" "My girlfriend just got a message from some dude named Nathan. Who's Nathan? Did he just send her a photo of his penis? Should I check just to be sure?" But the transformation of our romantic lives can't be explained by technology alone. In a short period of time, the whole culture of finding love has changed dramatically. A few decades ago, people would find a decent person who lived in their neighborhood. Their families would meet and, after deciding neither party seemed like a murderer, they would get married and soon have a kid, all by the time they were twenty-four. Today, people marry later than ever and spend years of their lives on a quest to find the perfect person, a soul mate. For years, Aziz Ansari has been aiming his comic insight at modern romance, but for *Modern Romance*, the book, he decided he needed to take things to another level. He teamed up with NYU sociologist Eric Klinenberg and designed a massive research project, including hundreds of interviews and focus groups conducted everywhere from Tokyo to Buenos Aires to Wichita. They analyzed behavioral data and surveys and created their own online research forum on Reddit, which drew thousands of messages. They enlisted the world's leading social scientists, including Andrew Cherlin, Eli Finkel, Helen Fisher, Sheena Iyengar, Barry Schwartz, Sherry Turkle, and Robb Willer. The result is unlike any social science or humor book we've seen before. In *Modern Romance*, Ansari combines his irreverent humor with cutting-edge social science to give us an unforgettable tour of our new romantic world. Available in a variety of formats, this summary is aimed for those who want to capture the gist of the book but don't have the current time to devour all 288 pages. You get the main summary along with all of the benefits and lessons the actual book has to offer. This summary is not intended to be used without reference to the original book.

A True Bad Boy Explains how Men Think, Date, and Mate--and what Women Can Do to Come Out on Top Simon and Schuster
A groundbreaking investigative work by a critically acclaimed sociologist on the corporate takeover of local news and what it means for all Americans For the residents of Minot, North Dakota, Clear Channel Communications is synonymous with disaster. Early in the morning of January 18, 2002, a train derailment sent a cloud of poisonous gas drifting toward the small town. Minot's fire and rescue departments attempted to reach Clear Channel, which owned and operated all six local commercial radio stations,

to warn residents of the approaching threat. But in the age of canned programming and virtual DJs, there was no one in the conglomerate's studio to take the call. The people of Minot were taken unawares. The result: one death and more than a thousand injuries. Opening with the story of the Minot tragedy, Eric Klinenberg's *Fighting for Air* takes us into the world of preprogrammed radio shows, empty television news stations, and copycat newspapers to show how corporate ownership and control of local media has remade American political and cultural life. Klinenberg argues that the demise of truly local media stems from the federal government's malign neglect, as the agencies charged with ensuring diversity and open competition have ceded control to the very conglomerates that consistently undermine these values and goals. Such "big media" may not be here to stay, however. Eric Klineberg's *Fighting for Air* delivers a call to action, revealing a rising generation of new media activists and citizen journalists—a coalition of liberals and conservatives—who are demanding and even creating the local coverage they need and deserve.

Modern Romance: by Aziz Ansari and Eric Klinenberg | Key Takeaways, Analysis & Review Preview: *Modern Romance* is a nonfiction book by the comedian Aziz Ansari and New York University sociologist Eric Klinenberg. For years, Ansari has been doing comedy on the absurdities of dating, recounting both tales from his own life and other people's. Eventually, the strangeness of modern dating was just too much to handle. He never understood why that girl did not respond to his perfectly crafted text message. He saw the bubbles indicating a response and then, nothing. It made him question his behavior and whether technology has changed the way people date. He decided to take things to the next level, and study modern romance through focus groups and rigorous social science. The result combines humor and true insight into this mixed-up world where a person can swipe right to begin a romance and end a relationship via text message... A masterpiece of surrealist fiction, steeped in controversy upon its first publication in 1984, *Blood and Guts in High School* is the book that established Kathy Acker as the preeminent voice of post-punk feminism. With 2017 marking the 70th anniversary of her birth, as well as the 10th year since her death this transgressive work of philosophical, political, and sexual

insight—with a new introduction by Chris Kraus—continues to become more relevant than ever before. In the Mexican city of Merida, ten-year-old Janey lives with Johnny—her “boyfriend, brother, sister, money, amusement, and father”—until he leaves her for another woman. Bereft, Janey travels to New York City, plunging into an underworld of gangs and prostitution. After escaping imprisonment, she flees to Tangiers where she meets Jean Genet, and they begin a torrid affair that will lead Janey to her demise. Fantastical, sensual, and fearlessly radical, this hallucinatory collage is both a comic and tragic portrait of erotic awakening.

People today have more romantic options than at any point in human history, and thanks to social media, smartphones and online dating, our abilities to connect with these options are staggering. Yet we also have to face new and absurd dilemmas, such as what to think when someone doesn't reply to your text but has time to post a photo of a pizza on Instagram. But this transformation of our romantic lives cannot be explained by technology alone. Whereas once most people would find a decent person who probably lived in their neighbourhood and marry by the age of 23, today we spend years of our lives on a quest to find our soulmate. While Ansari has long aimed his comedic insight at modern relationships, here he teamed up with award-winning sociologist Eric Klinenberg to research dating cultures from Tokyo to Buenos Aires to Paris, crunch the quantitative data and interview some of the world's leading social scientists. The result is an unforgettable tour of the romantic landscape.

In the Senate, I've tried to do two things: tell the truth, and do what I said I would do. We should expect that from every single elected official. Washington D.C. desperately needs leaders who aren't afraid to tell the truth. And Ted Cruz tells the truth—about political collusion, a corrupted legislative process, and the bureaucratic barriers to actually fixing the enormous challenges we face. Cruz's truth-telling habit hasn't made him popular in Washington. But it has earned him millions of supporters nationwide. Since his election to the Senate in 2012, Ted Cruz has refused to go along with the established way of doing business in Washington. In *A Time for Truth*, the outspoken Texas Senator tells his story for the first time—the story of a Cuban immigrant's son who made it to the Ivy League, to the Supreme Court bar, and eventually to the U.S. Senate. It's a deeply personal journey that begins with Cruz's father's experience of brutality in a Cuban prison and ends with Cruz's discovery that Washington has neither the courage nor the desire to do what is

needed to preserve the freedom and opportunities that gave hope to his father and millions like him. Cruz discusses his role in the 2000 recount, helping to elect a president he respects—and whom he would have to stand up to a few short years later when he served as the solicitor general of Texas. He provides a behind-the-scenes look at his remarkable grassroots campaign for the U.S. Senate. And he reveals the true story behind his twenty-one-hour Senate filibuster, where he gave the most famous bedtime reading of *Green Eggs and Ham* in history. Pulling back the curtain on the backroom deals in Congress between Republicans, Democrats, and the lobbyists who keep them in office—instead of keeping them accountable—Cruz offers an inside look at what has gone so very wrong in our nation's capital. But he also makes an optimistic case that by reestablishing the principles of our founders, the opportunities for our citizens, and our unique place in the world, we can reignite the promise of America for generations to come. *A Time for Truth* is sharp, funny, and honest. What Cruz reveals will win him few friends in Washington. Then again, that isn't why he went there in the first place.

Standup comic, actor and fan favorite from HBO's *Silicon Valley* and the film *Crazy Rich Asians* shares his memoir of growing up as a Chinese immigrant in California and making it in Hollywood. "I turned down a job in finance to pursue a career in stand-up comedy. My dad thought I was crazy. But I figured it was better to disappoint my parents for a few years than to disappoint myself for the rest of my life. I had to disappoint them in order to pursue what I loved. That was the only way to have my Chinese turnip cake and eat an American apple pie too." Jimmy O. Yang is a standup comedian, film and TV actor and fan favorite as the character Jian Yang from the popular HBO series *Silicon Valley*. In *How to American*, he shares his story of growing up as a Chinese immigrant who pursued a Hollywood career against the wishes of his parents: Yang arrived in Los Angeles from Hong Kong at age 13, learned English by watching BET *RapCity* for three hours a day, and worked as a strip club DJ while pursuing his comedy career. He chronicles a near deportation episode during a college trip Tijuana to finally becoming a proud US citizen ten years later. Featuring those and many other hilarious stories, while sharing some hard-earned lessons, *How to American* mocks stereotypes while offering tongue in cheek advice on pursuing the American dreams of fame, fortune, and strippers.

#1 NEW YORK TIMES BESTSELLER • Includes two new essays! NAMED ONE OF THE TEN BEST BOOKS OF THE YEAR BY MICHIKO KAKUTANI, THE NEW YORK TIMES • NAMED ONE OF THE BEST BOOKS OF THE YEAR BY BUZZFEED, THE GLOBE AND MAIL, AND LIBRARY JOURNAL For readers of Nora Ephron, Tina Fey, and David Sedaris, this hilarious, wise, and fiercely candid collection of personal essays establishes Lena Dunham—the acclaimed creator, producer, and star of HBO's *Girls*—as one of the most original young talents writing today. In *Not That Kind of Girl*, Dunham illuminates the experiences that are part of making one's way in the world: falling in love, feeling alone, being ten pounds overweight despite eating only health food, having to prove yourself in a room full of men twice your age, finding true love, and most of all, having the guts to believe that your story is one that deserves to be told. "Take My Virginity (No Really, Take It)" is the account of Dunham's first time, and how her expectations of sex didn't quite live up to the actual event ("No floodgate had been opened, no vault of true womanhood unlocked"); "Girls & Jerks" explores her former attraction to less-than-nice guys—guys who had perfected the "dynamic of disrespect" she found so intriguing; "Is This Even Real?" is a

meditation on her lifelong obsession with death and dying—what she calls her "genetically predestined morbidity." And in "I Didn't F*** Them, but They Yelled at Me," she imagines the tell-all she will write when she is eighty and past caring, able to reflect honestly on the sexism and condescension she has encountered in Hollywood, where women are "treated like the paper thingies that protect glasses in hotel bathrooms—necessary but infinitely disposable." Exuberant, moving, and keenly observed, *Not That Kind of Girl* is a series of dispatches from the frontlines of the struggle that is growing up. "I'm already predicting my future shame at thinking I had anything to offer you," Dunham writes. "But if I can take what I've learned and make one menial job easier for you, or prevent you from having the kind of sex where you feel you must keep your sneakers on in case you want to run away during the act, then every misstep of mine will have been worthwhile." Praise for *Not That Kind of Girl* "The gifted Ms. Dunham not only writes with observant precision, but also brings a measure of perspective, nostalgia and an older person's sort of wisdom to her portrait of her (not all that much) younger self and her world. . . . As acute and heartfelt as it is funny."—Michiko Kakutani, *The New York Times* "It's not Lena Dunham's candor that makes me gasp. Rather, it's her writing—which is full of surprises where you least expect them. A fine, subversive book."—David Sedaris "This book should be required reading for anyone who thinks they understand the experience of being a young woman in our culture. I thought I knew the author rather well, and I found many (not altogether welcome) surprises."—Carroll Dunham "Witty, illuminating, maddening, bracingly bleak . . . [Dunham] is a genuine artist, and a disturber of the order."—*The Atlantic*
