Fashion photography is said to have begun with the distinguished American photographer Edward Steichen in 1911, and in the more than hundred years since then the genre has attracted some of the most talented photographers in the history of the medium.

Many of them started their careers thanks to the editors and art directors of *Vogue*, *Glamour* and other Condé Nast publications. This book, featuring the work of 85 of the great fashion photographers past and present, drawn from the Condé Nast archives in New York, Paris and Milan, illustrates the early work of such celebrated practitioners as Cecil Beaton, Irving Penn, David Bailey, Helmut Newton, Corinne Day, Ellen von Unwerth and Mario Testino that appeared in the pages of the company's magazines. The book is arranged chronologically from 1910 to 2010, and each plate section is interleaved with texts that recount the major photographers of the period and the changing styles of photography and fashion.

The book also includes an interview with Franca Sozzani, the editor-in-chief of *Vogue Italia*, essays by Olivier Saillard and Sylvie Lécailier from the Musée Galliera, Paris, and an introduction by author Nathalie Herschdorfer, photography historian and curator. A brief biography of each photographer is included at the back of the book.

An inspiring visual journey through the fashions to be found on the streets of Asia, where young fashionistas are pushing the boundaries to make bold statements that scream individuality and yet are born out of assured traditions. In 280 carefully selected photographs, the culmination of several years of travelling throughout Asia in pursuit of the most innovative styles, James Bent gives a rare insight into this underexposed fashion scene.

When we think of Nazi camps, names such as Auschwitz, Bergen-Belsen, and Dachau come instantly to mind. Yet the history of the Holocaust extends beyond those notorious sites. In the former territory of Transnistria, located in occupied Soviet Ukraine and governed by Nazi Germany's Romanian allies, many Jews perished due to disease, starvation, and other horrific conditions. Through an intimate blending of memoir, history, and reportage, *So They Remember* illuminates this oft-overlooked chapter of the Holocaust. In December 1941, with the German-led invasion of the Soviet Union in its sixth month, a twelve-year-old Jewish boy named Motl Braverman, along with family members, was uprooted from his Ukrainian hometown and herded to the remote village of Pechera, the site of a Romanian death camp. Author Maksim Goldenshteyn, the

grandson of Motl, first learned of his family's wartime experiences in 2012. Through tireless research, Goldenshteyn spent years unraveling the story of Motl, his family members, and their fellow prisoners. The author here renders their story through the eyes of Motl and other children, who decades later would bear witness to the traumas they suffered. Until now, Romanian historians and survivors have served as almost the only chroniclers of the Holocaust in Transnistria. Goldenshteyn's account, based on interviews with Soviet-born relatives and other survivors, archival documents, and memoirs, is among the first full-length books to spotlight the Pechera camp, ominously known by its prisoners as Mertvaya Petlya, or the "Death Noose." Unfortunately, as the author explains, the Pechera camp was only one of some two hundred concentration sites spread across Transnistria, where local Ukrainian policemen often conspired with Romanian guards to brutalize the prisoners. In March 1944, the Red Army liberated Motl's family and fellow captives. Yet for decades, according to the author,

they were silenced by Soviet policies enacted to erase all memory of Jewish wartime suffering. So *They Remember* gives voice to this long-repressed history and documents how the events at Pechera and other surrounding camps and ghettos would continue to shape remaining survivors and their descendants. *Fashion Photography from The '90s* Phaidon In this first-ever showcase of his work, Gregory Heisler, one of professional photography's most respected practitioners, shares 50 iconic portraits of celebrities, athletes, and world leaders, along with fascinating, thoughtful, often humorous stories about how the images were made. From his famously controversial portrait of President George H.W. Bush (which led to the revocation of Heisler's White House clearance) to his evocative post-9/11 Time magazine cover of Rudolph Giuliani, to stunning portraits of Julia Roberts, Denzel Washington, Hillary Clinton, Michael Phelps, Muhammad Ali, and many more, Heisler reveals the creative and technical processes that led to each

frame. For Heisler's fans and all lovers of photography, Gregory Heisler: 50 Portraits offers not only a gorgeous collection of both black-and-white and color portraits, but an engrossing look at the rarely seen art of a master photographer at work. With a foreword by New York City mayor Michael R. Bloomberg. [Photography of the Nineties](#) Getty Publications Fashion photography is one of the most appealing markets for any new photographer, but also one of the most challenging, combining as it does a group of disciplines, from the more technical makeup and editing roles to the photography itself. With digital technology and good planning, however, you can tackle as many of these as you please, and offer the best possible service to your client, whether that's an international magazine taking your career to the next level, or a friend needing to look good on Facebook. After all, they're just as important to you. This book will teach you everything there is to know about fashion photography in the digital age, including

the roles of the whole creative team, making it the only book you'll ever need, whether you're taking your first ever shot, working with a pro model for the first time, or taking on major clients.

Fashion: Photography of the Nineties is a compilation of over two hundred images culled from the worlds of art and fashion. A chronicle of the fashion iconography of the Nineties, it places images familiar from magazines and style journals alongside their wilder, darker counterparts, many of which are published here for the first time. In these photographs the body and its gestures report on the defining characteristics of a decade. Postures of anxiety, insecurity and sexual uncertainty co-exist with fashion's more traditional celebrations. The ambiguity of gender and beauty lays bare our

secret desires, dissolving the boundaries between what is worn and the way we wear it. Elegance and vulgarity, femininity and masculinity, art and fashion meet in the spaces separating the raw, the beautiful, the unkempt and the subversive. Out of the collision between style and the subconscious emerges a portrait of our time.

 Photographer, author, and educator Roberto Valenzuela has a proven track record for teaching and explaining difficult concepts to photographers of all skill levels. His remarkable ability to break down complicated ideas into understandable, approachable elements that photographers can truly grasp--and then use their newfound knowledge to improve their photography--made his first book, *Picture Perfect Practice*, a breakout success. In *Picture Perfect Posing*, Roberto takes on the art of posing. For

many photographers, after learning to compose an image and even light it properly, a portrait can still easily be a failure if the pose is not natural, elegant, and serving the needs of both the subject and the photographer. Instead of just showing page after page of poses--like most posing books on the market--Roberto actually breaks down the concept of posing by examining the anatomy, starting with the core foundation: the spinal chord and neck. Building from there, Roberto discusses every component of what makes poses work, as well as fail. How should the model hold her hands? Bend her elbows? Position her fingers? Should the model look toward or away from the camera, and why? It all depends on what the photographer wants for the shot, and Roberto discusses the entire process, from the intent of the photographer through the execution of the pose. For those who have been discouraged by an inability to pose their subjects, or who have simply not known where to start in order to "figure it out," *Picture Perfect Posing* is the essential resource they need to learn how posing truly

works, and how they can learn to direct the exact pose they need for the shot they want.

Celebrated for her poetic grace and cinematic vision, Deborah Turbeville has produced fashion tableaux that draw the viewer into her otherworldly environments. This first retrospective presentation of Turbeville's fashion photography was selected by the artist herself. In addition, she has designed the evocative layouts to create yet another masterwork. The presentation includes Turbeville's most famous photographs, among them the controversial Bathhouse series of 1975 for American Vogue with disturbingly isolated figures and her Woman in the Woods series of 1977 for Italian Vogue showing psychologically charged emotions, along with her numerous photography campaigns for labels like Sonia Rykiel, Valentino, Yamamoto, Ungaro, and Commes des Garçons, as well as commissions for Chanel and work that has never been seen before.
